

document preparation time than relatively minor disasters. FNS estimates an average of 9 State agencies will submit 1 D-SNAP application per year to operate D-SNAPs for a total annual request of 9 applications per year (this is a decrease from an average of 14 applications per year). We further estimate it will take approximately 10

hours of State agency personnel time to prepare each application, for a total annual burden estimate average of 90 burden hours per year. These revised estimates reflect a slight decrease since the last OMB approval.

Summary of Burden Hours

Affected Public: State agencies and local governments.

Estimated Total Annual Number of Respondents: 9.

Estimated Frequency of Responses per Respondents: 1.

Estimated Total Annual Responses: 9.

Estimated Total Hours per Response: 10.

Estimated Total Annual Burden on Respondents: 90.

BILLING CODE 3410-30-P

DEPARTMENT OF AGRICULTURE

Forest Service

Chequamegon-Nicolet National Forest, Wisconsin, Townsend Project

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Forest Service will prepare an environmental impact statement (EIS) to document the analysis and disclose the environmental impacts of proposed land management activities and corresponding alternatives within the Townsend Project. The purpose of the Townsend Project is to implement land management activities that are consistent with direction in the Chequamegon-Nicolet National Forest 2004 Land and Resources Management Plan (forest plan) and respond to the specific needs identified in the project area. The project-specific needs include: species diversity, wildlife habitat, stream bank improvement, forest age, forest composition, and stocking.

DATES: Comments concerning the scope of the analysis must be received by June 29, 2015 in order to have standing for objection. The draft environmental impact statement is expected on January 2016 and the final environmental impact statement is expected on April 2016.

ADDRESSES: Send written comments to Marilee Houtler, ATTN: Townsend Project, Lakewood-Laona Ranger District, 15085 State Road 32,

Lakewood, WI 54138. Comments may also be sent via email to *comments-eastern-chequamegon-nicolet-lakewood@fs.fed.us*, or via facsimile to 715-276-3594.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for the proposed action. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the Agency with the ability to provide the respondent with subsequent environmental documents.

FOR FURTHER INFORMATION CONTACT:

Marilee Houtler, NEPA Coordinator at the above address or by phone at 715-276-6333.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The information presented in this notice is included to help the reviewer determine if they are interested in or potentially affected by the proposed land management activities. The information presented in the notice is summarized. Those who wish to provide comments or are otherwise interested in or affected by the projects are encouraged to obtain additional information from the contact listed above.

Purpose and Need for Action

The current conditions of many stands in the project area varies from desired conditions in the forest plan. Our information shows some of the more notable gaps between the existing and desired conditions by management area. Of primary importance is the need for change in: wildlife habitat, stream

improvement, species age structure, species composition, and stocking densities.

Proposed Action

Projected project implementation would be fall 2016. The Townsend Project is located on National Forest System lands, administered by the Lakewood-Laona Ranger District, west of Townsend. The legal description of the project is Townships 32-34 North and Ranges 14 and 15 East. The Forest Service proposes to improve wildlife habitat, remove short-lived species along streams, and use timber harvest (selection, thin, clearcut, and shelterwood) to move the area toward the desired conditions.

Responsible Official

The responsible official for this project is Lakewood-Laona District Ranger, Chequamegon-Nicolet National Forest.

Nature of Decision To Be Made

Decision making will be limited to specific activities relating to the proposed actions. The primary decision to be made will be whether or not to implement the proposed action, no action, another alternative, or parts of alternatives that respond to the projects purpose and need. This decision would be documented in a record of decision.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the EIS. The 45 day comment period will start after the publication in the **Federal Register** of the Notice of Availability for the Townsend Project Draft EIS.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the

environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. However, comments submitted anonymously will be accepted and considered.

Dated: May 11, 2015.

Paul I. V. Strong,

Forest Supervisor.

BILLING CODE 3410-11-P

DEPARTMENT OF AGRICULTURE

National Agricultural Statistics Service

Notice of Intent To Request Revision and Extension of a Currently Approved Information Collection

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, this notice announces the intention of the National Agricultural Statistics Service (NASS) to request revision and extension of a currently approved information collection, the Floriculture Survey. Revision to burden hours will be needed due to changes in the size of the target population, sampling design, and/or questionnaire length.

DATES: Comments on this notice must be received by July 28, 2015 to be assured of consideration.

ADDRESSES: You may submit comments, identified by docket number 0535-0093, by any of the following methods:

- *Email:* ombofficer@nass.usda.gov.

Include docket number above in the subject line of the message.

- *E-Fax:* (855) 838-6382.

• *Mail:* Mail any paper, disk, or CD-ROM submissions to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW., Washington, DC 20250-2024.

• *Hand Delivery/Courier:* Hand deliver to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW., Washington, DC 20250-2024.

FOR FURTHER INFORMATION CONTACT: R. Renee Picanso, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, (202) 720-4333. Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS-OMB Clearance Officer, at (202) 690-2388 or at ombofficer@nass.usda.gov.

SUPPLEMENTARY INFORMATION: *Title:* Floriculture Survey.

OMB Control Number: 0535-0093.

Expiration Date of Approval: January 31, 2016.

Type of Request: Intent to Seek Approval to Revise and Extend an Information Collection for 3 years.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, prices, and disposition. The Floriculture Survey is currently conducted in 15 States (California, Florida, Hawaii, Illinois, Maryland, Michigan, New Jersey, New York, North Carolina, Ohio, Oregon, Pennsylvania, South Carolina, Texas, and Washington) and obtains basic agricultural statistics on production and value of floriculture products. The target population for this survey is all operations with production and sales of at least \$10,000 of floriculture products. New floriculture operations that are discovered during the 2015 Census of Horticulture or the 2017 Census of Agriculture will be added to the list of potential respondents. The retail and wholesale quantity and value of sales are collected for fresh cut flowers, potted flowering plants, foliage plants, annual bedding/garden plants, herbaceous perennials, cut cultivated florist greens, propagative floriculture material, and unfinished plants. Additional detail on area in production, operation value of sales, and agricultural workers is included. Content changes are minimal year to year, with the goal of avoiding significant changes to the length and burden associated with each questionnaire. The only program change anticipated will be the discontinuation of the Poinsettia and Export Sales Surveys in Hawaii that are approved in the current PRA, expiring on January 31, 2016. These statistics are used by the U.S. Department of Agriculture to help administer programs and by growers and marketers in making production and marketing decisions.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food

Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3501, *et seq.*), and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA)," **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33362.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average between 10 and 60 minutes per respondent. In all states except Hawaii, operations with less than \$100,000 in sales of floriculture products respond to a reduced number of questions related to operation characteristics while operations with sales greater than \$100,000 complete the entire questionnaire. In Hawaii, all operations with sales of at least \$10,000 will complete the full questionnaire.

Respondents: Farms and businesses.

Estimated Number of Respondents: 6,900.

Estimated Total Annual Burden on Respondents: 3,900 hours.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological, or other forms of information technology collection techniques.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, May 18, 2015.

R. Renee Picanso,
Associate Administrator.
