

Notices

Federal Register

Vol. 80, No. 108

Friday, June 5, 2015

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2015-0006]

Hot Water Treatment of Oversized Mangoes; Correction

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice; Correction.

SUMMARY: We are correcting an error in a notice announcing the availability of a revision to hot water treatment schedule T102-a to treat additional mango commodities. The notice was published in the **Federal Register** on April 23, 2015.

FOR FURTHER INFORMATION CONTACT: Dr. Inder P.S. Gadh, Senior Risk Manager-Treatments, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737-1231; (301) 851-2018.

SUPPLEMENTARY INFORMATION: In a notice¹ published in the **Federal Register** on April 23, 2015 (80 FR 22702-22703, Docket No. APHIS-2015-0006), we amended hot water treatment schedule T102-a in the Plant Protection and Quarantine Treatment Manual to extend the applicability of the treatment to additional mango (*Mangifera indica*) commodities.

In the notice, we stated that that the T102-a treatment schedule of 110-minute fruit immersion in a constant 70 °F (41.6 °C) hot-water bath is an efficacious phytosanitary treatment for eggs and larvae of *Ceratitis capitata* and *Anastrepha* spp. fruit flies in mangoes weighing 651 to 900 grams. The temperature should read 115 °F (46.1 °C).

¹ To view the notice and related documents, go to <http://www.regulations.gov/#/docketDetail;D=APHIS-2015-0006>.

Done in Washington, DC, this 1st day of June 2015.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

Forest Service

Tri County Resource Advisory Committee

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Tri County Resource Advisory Committee (RAC) will meet in Deer Lodge, Montana. The committee is authorized under the Secure Rural Schools and Community Self-Determination Act (the Act) and operates in compliance with the Federal Advisory Committee Act. The purpose of the committee is to improve collaborative relationships and to provide advice and recommendations to the Forest Service concerning projects and funding consistent with Title II of the Act. Additional RAC information, including the meeting agenda and the meeting summary/minutes can be found at the following Web site: <http://www.fs.usda.gov/main/bdnf/workingtogether/advisorycommittees>.

DATES: The meeting will be held June 24, 2015, from 5 p.m. to 9 p.m.

All RAC meetings are subject to cancellation. For status of meeting prior to attendance, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

ADDRESSES: The meeting will be held at USDA Service Center, 1002 Hollenbeck Lane, Deer Lodge, Montana.

Written comments may be submitted as described under **SUPPLEMENTARY INFORMATION**. All comments, including names and addresses when provided, are placed in the record and are available for public inspection and copying. The public may inspect comments received at 420 Barrett Street, Dillon, Montana. Please call ahead to facilitate entry into the building.

FOR FURTHER INFORMATION CONTACT: Patty Bates, RAC Coordinator by phone at (406) 683-3979 or via email at pbates@fs.fed.us.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8:00 a.m. and 8:00 p.m., Eastern Standard Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to review and recommend projects for Title II funding.

The meeting is open to the public. The agenda will include time for people to make oral statements of three minutes or less. Individuals wishing to make an oral statement should request in writing by June 19, 2015 to be scheduled on the agenda. Anyone who would like to bring related matters to the attention of the committee may file written statements with the committee staff before or after the meeting. Written comments and requests for time for oral comments must be sent to Patty Bates, RAC Coordinator, 420 Barrett Street, Dillon, MT 59749; or by email to pbates@fs.fed.us, or via facsimile to (406) 683-3844.

Meeting Accommodations: If you are a person requiring reasonable accommodation, please make requests in advance for sign language interpreting, assistive listening devices or other reasonable accommodation for access to the facility or proceedings by contacting the person listed in the section titled **FOR FURTHER INFORMATION CONTACT**. All reasonable accommodation requests are managed on a case by case basis.

Dated: June 1, 2015.

Melany Glossa,

Forest Supervisor.

BILLING CODE 3411-15-P

DEPARTMENT OF AGRICULTURE

Forest Service

Rico West Dolores Roads and Trails Project (Travel Management); Dolores District of the San Juan National Forest; Colorado

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Forest Service intends to prepare an environmental impact statement to analyze and disclose the environmental effects of adjustments to

the road and trail system in the Rico West Dolores area. A project-level amendment to the San Juan Land and Resource Management Plan is also proposed. The analysis area is in Dolores and Montezuma Counties approximately 5 miles north of the Town of Dolores and includes National Forest Lands surrounding the Town of Rico.

DATES: If you have supplementary comments which meet the description in Scoping Process, below, they must be received by July 6, 2015.

ADDRESSES: If you have supplementary comments which meet the description in Scoping Process, below, submit them in writing to Derek Padilla, District Ranger, Dolores Ranger District, 29211 Highway 184, Dolores, CO 81323; comments may also be emailed to dkill@fs.fed.us or sent by facsimile to 970-882-6841. All comments, including names and addresses when provided, are placed in the record and are available for public inspection and copying.

FOR FURTHER INFORMATION CONTACT: Deborah Kill, NEPA Coordinator and Interdisciplinary Team Leader, telephone 970-882-7296. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Previous Scoping Period

A previous scoping period, including public input occurred from December 12th 2014 through January 30th 2015. That scoping period met the requirement for scoping for the Environmental Impact Statement. Written comments that were submitted during the previous scoping period are considered and filed in the project record. The Forest Service requests that you do not resubmit the same comments. Because of extensive public input, the scope of issues to be analyzed in the Environmental Impact Statement has already been well examined.

This notice of intent initiates a supplementary scoping process, which is intended to provide an additional opportunity for the public to comment on the scope of issues to be analyzed in the Environmental Impact Statement only if there is new or different information that has not been previously considered. To determine whether your comment or concern has previously been submitted, please read the Scoping Report found on the project Web page at <http://www.fs.usda.gov/>

[project/?project=44918](http://www.fs.usda.gov/project/?project=44918) or call Deborah Kill at 970-882-6822.

Proposed Action

The Proposed Action document and maps located at <http://www.fs.usda.gov/project/?project=44918> describes proposed actions in detail. There has been no change to the proposals since this Proposed Action document was published for the first scoping period in December, except that additional language has been added to the Purpose and Need statement below to add clarification. Briefly, the proposals include (1) minor adjustments to the main graveled roads, (2) re-configuration of some native surface roads which includes converting some native surface roads to ATV trails, (3) setting limits for day-use and overnight parking off of the roads, (4) changing to the type of uses allowed on some of the single track trails, (5) new timing restrictions on motorcycle use of single track trails, (6) re-alignment of single track trails at select locations, and (7) additional single track trails added to the system. As stated in the Proposed Action document, it will be necessary to adjust the Forest Plan's Over-Ground Travel Suitability Map and the Recreation Opportunity Spectrum Map and these Forest Plan changes would apply only to the Rico-West Dolores analysis area.

Purpose and Need

The purpose of the Proposed Action is to manage over-ground wheeled motorized vehicle use in accordance with the requirements of the Travel Management Rule (36 CFR 212). The Rule requires the Forest Service to designate a system of roads, trails, and areas for motorized use by vehicle class and, if appropriate, by time of year. The travel rule at 36 CFR 212.55 also lists criteria for designation of roads, trails and areas as follows, (a) General criteria for designation of National Forest System roads, National Forest System trails, and areas on National Forest System lands. In designating National Forest System roads, National Forest System trails, and areas on National Forest System lands for motor vehicle use, the responsible official shall consider effects on National Forest System natural and cultural resources, public safety, provision of recreational opportunities, access needs, conflicts among uses of National Forest System lands, the need for maintenance and administration of roads, trails, and areas that would arise if the uses under consideration are designated; and the availability of resources for that maintenance and administration. (b)

Specific criteria for designation of trails and areas. In addition to the criteria in paragraph (a) of this section, in designating National Forest System trails and areas on National Forest System lands, the responsible official shall consider effects on the following, with the objective of minimizing: (1) Damage to soil, watershed, vegetation, and other forest resources; (2) Harassment of wildlife and significant disruption of wildlife habitats; (3) Conflicts between motor vehicle use and existing or proposed recreational uses of National Forest System lands or neighboring Federal lands; and (4) Conflicts among different classes of motor vehicle uses of National Forest System lands or neighboring Federal lands. In addition, the responsible official shall consider: (5) Compatibility of motor vehicle use with existing conditions in populated areas, taking into account sound, emissions, and other factors.

The purpose of this action is to balance the current and future recreational desires of the public with Forest Service responsibilities for wildlife and fisheries management, water resources management, and forest management as well as the desires of local communities and affected private land owners. This action is needed to develop a sustainable system of trails and roads where motorized travel is appropriate and will strive to improve both the motorized and non-motorized user's experience.

Decision To Be Made

The decision to be made is whether to implement the proposed action, or to meet the purpose and need for action through some other combination of activities, or to take no action at this time.

Dates

Another opportunity for public comment will occur when the Draft Environmental Impact Statement describing alternatives in detail will be made available for public comment later in 2015. At that time, public comments on the draft EIS will be received for 45 days from the date the Environmental Protection Agency publishes the notice of availability of the draft EIS in the **Federal Register**. A draft decision is expected in late 2015.

Administrative Review Processes

For project-level decisions about the road and trail system, the Forest Service will apply its pre-decisional administrative review process described in 36 CFR part 218, subparts A and B. Preliminary project-level decisions

about the road and trail system will be described in a draft Record of Decision.

The proposed forest plan amendment, if selected, will be subject to 1982 Planning Rule regulations 219.17(f) which state that 'If the change resulting from the amendment is determined not to be significant for the purposes of the planning process, the Forest Supervisor may implement the amendment following appropriate public notification and satisfactory completion of NEPA procedures.'

The Forest Service will apply the pre-decisional objection process at 36 CFR 219 subpart B to the Forest Plan amendment.

Responsible Official and Lead Agency

The USDA Forest Service is the lead agency for this proposal. District Ranger Derek Padilla is the responsible official for project decisions while Kara Chadwick, Forest Supervisor is the responsible official for the Forest Plan amendment.

Dated: May 29, 2015.

Derek Padilla,

Dolores District Ranger.

BILLING CODE 3410-11-P

DEPARTMENT OF COMMERCE

Bureau of the Census

[Docket Number 150519465-5465-01]

Streamlining Summary Level 070 Tables in the 5-Year American Community Survey

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice and request for comments.

SUMMARY: The Census Bureau's American Community Survey (ACS) collects detailed demographic, social, economic, and housing data from about 3.5 million addresses in the United States and 36,000 in Puerto Rico each year. Annual data products are released in the form of 1-Year and 5-Year estimates with 5-Year estimates being produced for over 578,000 geographies by 87 different summary levels. Most summary levels and their corresponding geographies are then produced for approximately 1,000 detailed tables. As a cost-saving measure and to improve usability of the estimates, the Census Bureau is reviewing the data products released by the ACS for usefulness and necessity. Beginning with the 2010-2014 ACS 5-Year estimates, the Census Bureau plans to streamline the

production and release of Summary Level 070 tables (state/county/county subdivision/place remainder (or part)) to 15 tables. This very small summary level was created to allow for the delineation of metropolitan, micropolitan, and related statistical areas by the Office of Budget and Management (OMB). The Census Bureau recommends only tabulating and releasing those 15 tables for Summary Level 070 that are necessary for the delineation of metropolitan, micropolitan, and related statistical areas (particularly for identification of New England City and Town Area principal cities), commuting analysis, and basic demographic and housing analysis.

DATES: To ensure consideration, written comments must be received by July 6, 2015.

ADDRESSES: Direct all written comments to KaNin Reese, Rm. 7H176F, U.S. Census Bureau, Social, Economic and Housing Statistics Division, Washington, DC 20233 or via email at kanin.l.reese@census.gov.

FOR FURTHER INFORMATION CONTACT: KaNin Reese, Rm. 7H176F, U.S. Census Bureau, Social, Economic, and Housing Statistics Division, Washington, DC 20233, by phone at 301-763-3493 or via email at kanin.l.reese@census.gov.

SUPPLEMENTARY INFORMATION: Beginning with the 2010-2014 ACS 5-Year tables, the Census Bureau plans to streamline the production and release of Summary Level 070 tables (state/county/county subdivision/place remainder (or part)) to the 15 tables necessary for the delineation of metropolitan, micropolitan, and related statistical areas (particularly for identification of New England City and Town Area principal cities) by the Office of Budget and Management (OMB), for other commuting analysis, and for basic demographic and housing analysis. The Census Bureau conducts the ACS program under 13 U.S.C. Sections 141 and 193. In our latest release, this summary level was produced for 69,939 unique geographies with approximately 70 percent of all estimates produced as zero since place parts in the county subdivision represent very small areas. In addition to the data quality of these small geographies, the user statistics show that these tables are not widely accessed by data users.

Since the ACS was created as the replacement for the Census long-form, the ACS began by producing the same summary levels that were produced in Census 2000. The purpose of Summary Level 070 (state/county/county subdivision/place remainder (or part)) is

for the delineation of metropolitan, micropolitan, and related statistical areas (particularly for identification of New England City and Town Area principal cities) under OMB standards. However, not all 1,000 detailed tables being produced for this summary level are needed for delineation. The Census Bureau has identified ten commuting tables necessary for the delineation process and for other commuting analysis, and five basic demographic and housing tables necessary for the production and release of the summary level.

The 15 tables to remain for Summary Level 070 include:

1. B01001—Sex by Age
2. B01003—Total Population
3. B02001—Race
4. B08007—Sex of Workers by Place of Work—State and County Level
5. B08008—Sex of Workers by Place of Work—Place Level
6. B08009—Sex of Workers by Place of Work—Minor Civil Division Level for 12 Selected States (CT, ME, MA, MI, MN, NH, NJ, NY, PA, RI, VT, WI)
7. B08301—Means of Transportation to Work
8. B08302—Time Leaving Home to Go to Work
9. B08303—Travel Time to Work
10. B08601—Means of Transportation to Work for Workplace Geography
11. B08602—Time Arriving at Work from Home for Workplace Geography
12. B08603—Travel Time to Work for Workplace Geography
13. B08604—Worker Population for Workplace Geography
14. B25001—Housing Units
15. B25003—Tenure

The Census Bureau has been reviewing and documenting the utility of releasing Summary Level 070 by all 1,000 tables for several years. Not only is the data quality insufficient for many of the individual geographies, but very few data users are accessing the tables on American Factfinder or our summary files on our FTP site. Further, we have an increasing concern that some data users may be using the summary level incorrectly, mistaking these place parts in the county subdivision for the place-level geographies.

By releasing only a few key demographic, social, and housing tables for this summary level, we believe we are still maintaining the true purpose and integrity of the summary level while eliminating a great deal of additional resources needed for the full production of the product. Streamlining the tables in this summary level will
