

site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email directly to EPA without going through www.regulations.gov, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comments due to technical difficulties and cannot contact you for clarification, the SAB Panel may not be able to consider your comments. Electronic files should avoid the use of special characters and any form of encryption and be free of any defects or viruses. For additional information about EPA’s public docket, visit the EPA Docket Center homepage at www.epa.gov/epahome/dockets.htm.

Documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material will be publicly available only in hard copy. Publicly available docket materials are available either electronically at www.regulations.gov or in hard copy at the OEI Docket in the EPA Headquarters Docket Center.

History of SAB Hydraulic Fracturing Research Advisory Panel: In April 2012, the EPA’s Office of Research and Development asked the SAB to conduct a peer review and provide advice to the agency on the scientific quality of its research study report on the potential impacts of hydraulic fracturing on drinking water resources. In response to that request, the SAB Staff Office formed the SAB Hydraulic Fracturing Research Advisory Panel. In 2013 the SAB panel members provided their individual expert comments in response to charge questions relating to the December 2012 progress report entitled, *Study of the Potential Impacts of Hydraulic Fracturing on Drinking Water Resources: Progress Report*. The panel also held a teleconference call in 2013 to receive public comments on new and emerging information related to hydraulic fracturing and drinking water resources. Information on the formation of the panel and its previous activities is provided on the SAB Web site at http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/HF%20and%20

DW%20Progress%20Report?Open Document.

Accessibility: For information on access or services for individuals with disabilities, please contact Mr. Edward Hanlon at the phone number or email address noted above, preferably at least ten days prior to the meeting to give EPA as much time as possible to process your request.

Dated: June 1, 2015.

Thomas H. Brennan,

Deputy Director, EPA Science Advisory Board Staff Office.

Notification of Three Teleconferences of the Science Advisory Board Biogenic Carbon Emissions Panel

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA or Agency) Science Advisory Board (SAB) Staff Office announces three teleconferences of the SAB Biogenic Carbon Emissions Panel to review EPA’s *Framework for Assessing Biogenic CO₂ Emissions from Stationary Sources (November 2014)*.

DATES: The public teleconferences will be held on July 6, 2015 from 11:00 a.m. to 2:00 p.m. (Eastern Time), August 6, 2015 from 11:00 a.m. to 2:00 p.m. (Eastern Time) and September 9, 2015 from 11:00 a.m. to 2:00 p.m. (Eastern Time).

ADDRESSES: The teleconferences will be held by telephone only.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing further information regarding the public teleconferences may contact Dr. Holly Stallworth, Designated Federal Officer (DFO), SAB Staff Office, by telephone/voice mail at (202) 564–2073 or via email at stallworth.holly@epa.gov. General information concerning the EPA Science Advisory Board can be found at the EPA SAB Web site at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

Background: The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDAA) codified at 42 U.S.C. 4365, to provide independent scientific and technical peer review, advice,

consultation, and recommendations to the EPA Administrator on the technical basis for EPA actions. As a Federal Advisory Committee, the SAB conducts business in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C. App. 2) and related regulations. Pursuant to FACA and EPA policy, notice is hereby given that the SAB Biogenic Carbon Emissions Panel will hold three public teleconferences to review its draft report on EPA’s *Framework for Assessing Biogenic CO₂ Emissions from Stationary Sources (November 2014)*. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

As noticed in 80 FR 8867–8868, a face-to-face meeting of the Biogenic Carbon Emissions Panel was held on March 25 and 26, 2015 and a teleconference was held on May 29, 2015. Background on the current advisory activity can be found on the SAB Web site at http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/Biogenic%20CO2%20Framework?OpenDocument.

Availability of the meeting materials: Agendas and meeting materials will be posted on the SAB Web site prior to each teleconference. To locate these materials, go to epa.gov/sab and click on the calendar and then the respective teleconference dates. EPA’s review document, charge to the Panel and other background materials are also available at the URL above. For questions concerning EPA’s *Framework for Assessing Biogenic CO₂ Emissions from Stationary Sources (November 2014)*, please contact Sara Ohrel, Climate Change Division, at ohrel.sara@epa.gov or (202) 343–9712.

Procedures for Providing Public Input: Public comment for consideration by EPA’s federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit relevant comments on the topic of this advisory activity, including the charge to the panel and the EPA review documents, and/or the group conducting the activity, for the SAB to consider during the advisory process. Input from the public to the SAB will have the most impact if it consists of comments that provide specific scientific or technical information or analysis for the SAB

panel to consider or if it relates to the clarity or accuracy of the technical information.

Oral Statements: In general, individuals or groups requesting an oral presentation will be limited to three minutes per speaker for each teleconference. Interested parties should contact Dr. Holly Stallworth, DFO, in writing (preferably via email), at the contact information noted above, by June 29, 2015 to be placed on the list of public speakers for the July 6, 2015 teleconference; by July 30, 2015 for the August 6, 2015 teleconference; and by September 2, 2015 for the September 9, 2015 teleconference. **Written Statements:** Written statements should be received in the SAB Staff Office in advance of each teleconference according to the same deadlines listed above for requesting oral comments. Written statements should be supplied to the DFO, preferably in electronic format via email. It is the SAB Staff Office general policy to post written comments on the Web page for the advisory meeting or teleconference. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its Web sites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB Web site. Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Stallworth at the phone number or email address noted above, preferably at least ten days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: May 28, 2015.

Thomas H. Brennan,
Deputy Director, EPA Science Advisory Board
Staff Office.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9928-61-ORD]

Office of Research and Development; Ambient Air Monitoring Reference and Equivalent Methods: Designation of One New Reference Method and Four New Equivalent Methods

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of designation of one reference method and three equivalent methods for monitoring ambient air quality.

SUMMARY: Notice is hereby given that the Environmental Protection Agency (EPA) has designated, in accordance with 40 CFR part 53, one new reference method and one new equivalent for measuring concentrations of PM_{2.5}, one new equivalent method for measuring PM_{10-2.5}, and two new equivalent methods for measuring ozone (O₃) in the ambient air.

FOR FURTHER INFORMATION CONTACT: Robert Vanderpool, Human Exposure and Atmospheric Sciences Division (MD-D205-03), National Exposure Research Laboratory, U.S. EPA, Research Triangle Park, North Carolina 27711. Email: Vanderpool.Robert@epa.gov.

SUPPLEMENTARY INFORMATION: In accordance with regulations at 40 CFR part 53, the EPA evaluates various methods for monitoring the concentrations of those ambient air pollutants for which EPA has established National Ambient Air Quality Standards (NAAQSs), as set forth in 40 CFR part 50. Monitoring methods that are determined to meet specific requirements for adequacy are designated by the EPA as either reference methods or equivalent methods (as applicable), thereby permitting their use under 40 CFR part 58 by States and other agencies for determining compliance with the NAAQSs.

The EPA hereby announces the designation of one new reference method for measuring PM_{2.5}, one new equivalent method for measuring PM_{2.5}, one new equivalent method for measuring PM_{10-2.5}, and two equivalent methods for measuring ozone (O₃) in the ambient air. These designations are made under the provisions of 40 CFR part 53, as amended on August 31, 2011 (76 FR 54326-54341).

The new reference method for PM_{2.5} is a manual monitoring method based on a particular PM_{2.5} sampler and is identified as follows:
