III. What is the agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. EPA will provide a 180-day comment period on the proposed requests. Thereafter, the EPA Administrator may approve such a request.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of

the cancellation action. Because the Agency has identified no significant potential risk concerns associated with these pesticide products, upon cancellation of the products identified in Table 1 of Unit II., EPA anticipates allowing registrants to sell and distribute existing stocks of these products until January 15, 2016. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 of Unit II., except for export consistent with FIFRA section 17 or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

SUPPLEMENTARY INFORMATION:

I. Background

Each year, the FTC, along with the Antitrust Division of the Department of Justice, challenges a number of transactions that are alleged to violate the antitrust laws. Most of these challenged transactions are resolved through a consent order that remedies the competitive concern. Taking advantage of its unique research and study function, the Commission began a study in 1995, evaluating remedial divestitures the Commission ordered from 1990 through 1994. The earlier study focused on the thirty-five divestiture orders the Commission issued over that four-year period. FTC staff interviewed thirty-seven buyers out of the fifty that acquired divested assets. The study yielded valuable information, which was synthesized, summarized, and made available to the public in a
