

3. Possess a DEA registration for marijuana, a Schedule I controlled substance under the CSA.

Once the above steps have been completed, investigators should contact the NIDA Drug Supply Program to place an order for marijuana with specific characteristics with regard to concentrations of delta-9-tetrahydrocannabinol (THC), cannabidiol (CBD), and other cannabinoids. The program official will verify that the application is complete (with all the above-mentioned steps fulfilled), and forward the order on to the contractor responsible for shipping the marijuana. While not required in all cases, it is recommended that researchers contact the NIDA Drug Supply Program early in the planning of a study to obtain information on specific strains of marijuana available so that this information can be included in the protocol and IND (<http://www.drugabuse.gov/researchers/research-resources/nida-drug-supply-program>).

Dated: June 17, 2015.

Karen B. DeSalvo,

Acting Assistant Secretary for Health.
