

comply with section 7 of the Act by conducting intra-Service section 7 consultation for the plan. We will use the result of this consultation, in combination with the above findings, in our final analysis to determine whether or not to issue the permit. If the requirements are met, we will issue a permit to the applicant for the incidental take of the Smith's blue butterfly. We will make the final permit decision no sooner than 30 days after the date of this notice.

Public Review

We provide this notice under section 10(c) of the Act and the NEPA public involvement regulations (40 CFR 1500.1(b), 1500.2(d), and 1506.6). We are requesting comments on our determination that the applicant's proposal will have a minor or negligible effect on the Smith's blue butterfly and that the plan qualifies as a "low-effect" HCP as defined by our 1996 Habitat Conservation Planning Handbook.

Public Comments

If you wish to comment on the permit applications, plans, and associated documents, you may submit comments by any one of the methods in **ADDRESSES**.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public view, we cannot guarantee that we will be able to do so.

Authority

We provide this notice under section 10 of the Act (16 U.S.C. 1531 *et seq.*) and NEPA regulations (40 CFR 1506.6).

Dated: July 2, 2015.

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we finalize the CCP process for James River NWR. We started this process through a notice in the **Federal Register** on January 11, 2012 (77 FR 1716). We released a draft CCP and environmental assessment (EA) to the public and requested comments in a notice in the **Federal Register** on October 22, 2014 (79 FR 63161).

We have selected alternative B for implementation, as it is described in the final CCP for James River NWR. We announce our decision and the availability of the FONSI for the final CCP in accordance with National Environmental Policy Act (40 CFR 1506.6(b)) requirements. We completed an analysis of impacts on the human environment in the draft CCP and EA. We made minor changes and clarifications to the final CCP, where appropriate, to address public comments we received on the draft CCP and EA. A summary of the public comments, and our responses to them, is included as Appendix F in the final CCP.

The 4,324-acre James River NWR lies in the Chesapeake Bay watershed and is located along the James River in Prince George County, Virginia, approximately 8 miles southeast of the city of Hopewell, and 30 miles southeast of Richmond. The refuge was established in 1991 under the authority of the Endangered Species Act of 1973 (16 U.S.C. 1534) to protect nationally significant nesting and roosting habitat for the bald eagle (*Haliaeetus leucocephalus*).

Background

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee) (Refuge Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing to the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Refuge Administration Act.

Selected Alternative

Alternative B combines the actions we believe would best achieve the refuge's purposes, vision, and goals, and respond to public issues. The basis of our decision is detailed in the FONSI (Appendix G in the final CCP). Under alternative B, we would emphasize the

management of specific refuge habitats to support priority species whose habitat needs would benefit other species of conservation concern that are found in the area. We would promote the transition of 2,651 acres of former pine plantation toward mature pine savanna for resident and breeding cavity-dwelling and ground-nesting species, including the brown-headed nuthatch, Chuck-will's-widow, red-headed woodpecker, and yellow-billed cuckoo. We would also emphasize protecting and promoting bald eagle nesting habitat, and protecting the integrity of the refuge's other habitats for native species, including migrating waterfowl, waterbirds, the federally endangered Atlantic sturgeon, and federally threatened sensitive joint-vetch. We would also expand our conservation, research, monitoring, and management partnerships to help restore and conserve the refuge.

We would enhance our cultural resource protection to increase knowledge and appreciation for the refuge's rich cultural history and heritage, as well as expand our visitor services programs to improve opportunities for wildlife-dependent recreation. Visitor service improvements would include expanding the on-refuge opportunities for wildlife observation, photography, environmental education, and interpretation of natural and cultural resources in partnership with others. We would also pursue Service administrative requirements to expand public deer hunting, open the refuge to spring and fall turkey hunting, open the refuge to limited waterfowl hunting by youth, promote youth involvement in all hunting opportunities, and open the refuge to fishing at two designated locations. Further details on our selected alternative and management actions can be found in the CCP.

Public Availability of Documents

In addition to sources listed under **ADDRESSES**, you can view the final CCP at the Prince George Library, 6605 Courts Drive, Prince George, VA 23875.
