SUPPLEMENTARY INFORMATION:

I. Abstract

The National Parks and Federal Recreational Lands Pass program is a cooperative effort between five federal agencies: National Park Service, U.S. Forest Service, Bureau of Reclamation, U.S. Fish and Wildlife Service, and Bureau of Land Management. A survey will be used to understand how passes are being used in recreational areas managed by the five partnering agencies. These passes are intended to provide ease of use and potential cost savings to the public, however there is no centralized tracking system available to determine where, when and how often the passes are used; and with that, there is no way to estimate the division of revenue between the agencies for the sale and use of the passes. The proposed survey will be used to gather information on use patterns from current pass holders to provide data that could be used to develop strategies for the equitable division of pass revenues between participating agencies.

SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection is required under the Reclamation Reform Act of 1982 (RRA), Acreage Limitation Rules and Regulations, 43 CFR part 426, and Information Requirements for Certain Farm Operations In Excess of 960 Acres and the Eligibility of Certain Formerly Excess Land, 43 CFR part 428. This information collection requires certain landholders (direct or indirect landowners or lessees) and farm operators to complete forms demonstrating their compliance with

the acreage limitation provisions of Federal reclamation law. The forms in this information collection are submitted to districts that use the information to establish each landholder's status with respect to landownership limitations, full-cost pricing thresholds, lease requirements, and other provisions of Federal reclamation law. In addition, forms are submitted by certain farm operators to provide information concerning the services they provide and the nature of their farm operating arrangements. All landholders whose entire westwide landholdings total 40 acres or less are exempt from the requirement to submit RRA forms. Landholders who are "qualified recipients" have RRA forms submittal thresholds of 80 acres or 240 acres depending on the district's RRA forms submittal threshold category where the land is held. Only farm operators who provide multiple services to more than 960 acres held in trusts or by legal entities are required to submit forms.
