

improve the competitiveness and performance of U.S. organizations for the benefit of all U.S. residents. The Baldrige Program and its Malcolm Baldrige National Quality Award were created by Public Law 100-107 (The Malcolm Baldrige National Quality Improvement Act of 1987) and signed into law on August 20, 1987.

II. Method of Collection

Senior leaders interested in applying for selection as a Baldrige Fellow must *mail* the following package of material directly to the Baldrige Program:

1. A resumé, including email, postal address, and telephone contact information; and the name and email address of an assistant or alternate contact person

2. An organizational chart that includes names and titles showing the applicant's position within the organization

3. A recommendation letter from the applicant's highest-ranking official showing the organization's support of his/her participation in the program

4. A list of key competitors (in order that the Baldrige Program may avoid creating a cohort that would be unable to share effectively due to competitive situations)

Fax is also acceptable. The NIST Secure File Transfer Service ("N-files") is also made available for applicants who wish to electronically submit materials that include personally identifiable information.

Information is collected one time per year (typically in September–December) for each cohort of Fellows.

Information is need to make selection decisions that are based on (1) sector mix, (2) appropriate level within the organization, (3) likelihood to follow through, (4) diversity, and (5) no direct competitors with participating award recipients or other Fellows.

III. Data

OMB Control Number: #0693–XXXX.

Form Number(s): None.

Type of Review: Regular submission.

Affected Public: Any senior or mid-level leader from business or other for-profit organizations; not-for-profit institutions; state, local, or tribal government; Federal government.

Estimated Number of Respondents: 15 per year.

Estimated Time per Response: 1 hour to gather materials.

Estimated Total Annual Burden Hours: 15 hours.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: August 21, 2015.

Glenna Mickelson,

Management Analyst, Office of the Chief Information Officer.

RIN 0648–XE145

Atlantic Coastal Fisheries Cooperative Management Act Provisions; American Eel Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of non-compliance referral; request for comments.

SUMMARY: NMFS announces that on August 6, 2015, the Atlantic States Marine Fisheries Commission (Commission) found the State of Delaware out of compliance with the Commission's Interstate Fishery Management Plan (ISFMP) for American Eel. Subsequently, on August 19, 2015, the Commission referred the matter to NMFS, under delegation of authority from the Secretary of Commerce, for federal non-compliance review under the provisions of the Atlantic Coastal Fisheries Cooperative Management Act (Atlantic Coastal Act). The Atlantic Coastal Act mandates that NMFS must review the Commission's non-compliance referral and make specific findings by September 18, 2015, 30 days

after receiving the referral. If NMFS determines that Delaware failed to carry out its responsibilities under the Coastal American Eel ISFMP, and if the measures it failed to implement are necessary for conservation, then, according to the Atlantic Coastal Act, NMFS must declare a moratorium on fishing for American eel in Delaware waters.

DATES: Comments must be submitted by September 11, 2015. NMFS intends to make a determination on this matter by September 18, 2015, and will publish its findings in the **Federal Register** immediately thereafter.

ADDRESSES: Written comments should be sent to Derek Orner, Office of Sustainable Fisheries, NMFS, 1315 East-West Highway, Room 13325, Silver Spring, MD 20910. Mark the outside of the envelope "Comments on American eel Non-Compliance." Comments may also be sent via fax to (301) 713–0596 or by email to derek.ornor@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Derek Orner, Fishery Management Specialist, NMFS Office of Sustainable Fisheries, (301) 427–8567, derek.ornor@noaa.gov.

SUPPLEMENTARY INFORMATION: The 2012 Benchmark Stock Assessment for American eel found that the American eel population in U.S. waters is depleted. The assessment concluded that the stock is at or near historically low levels due to a combination of historical overfishing, habitat loss and alteration, productivity and food web alterations, predation, turbine mortality, changing climatic and oceanic conditions, toxins and contaminants, and disease. As a result, the Commission took action to reduce mortality and limit further development of this fishery. In order to achieve the conservation goals and objectives of the ISFMP, states were to effectively implement the following actions: A 9" minimum size for yellow eel (the life stage when eels are typically harvested as bait) recreational and commercial fisheries; ½" x ½" minimum mesh size for yellow eel pots; Allowance of 4" x 4" escape panel in post of ½" x ½" mesh for 3 years (beginning on January 1, 2014); and, Recreational 25 fish bag limit per day per angler. On August 6, 2015, the Commission found the State of Delaware out of compliance for not fully and effectively implementing and enforcing these measures. The Commission subsequently referred its non-compliance finding to NMFS on August 19, 2015.

Federal response to a Commission non-compliance referral is governed by

the Atlantic Coastal Act. Under the Atlantic Coastal Act, the Secretary of Commerce (Secretary) must make two findings within 30 days after receiving the non-compliance referral. First, the Secretary must determine whether the state in question (in this case, Delaware) has failed to carry out its responsibilities under the ISFMP. Second, the Secretary must determine whether the measures that the State has failed to implement or enforce are necessary for the conservation of the fishery in question. If the Secretary of Commerce makes affirmative findings on both criteria, then the Secretary must implement a moratorium on fishing in the fishery in question (in this case American eel) within the waters of the non-complying state (in this case, Delaware). Further, the moratorium must become effective within six months of the date of the Secretary's non-compliance determination. To the extent that the allegedly offending state later implements the involved measure, the Atlantic Coastal Act allows the state to petition the Commission that it has come back into compliance, and if the Commission concurs, the Commission will notify the Secretary and, if the Secretary concurs, the moratorium will be withdrawn. The Secretary has delegated Atlantic Coastal Act authorities to the Assistant Administrator for Fisheries at NMFS.

NMFS has notified the State of Delaware, the Commission, and the Mid-Atlantic Fishery Management Council in separate letters, of its receipt of the Commission's non-compliance referral. In the letters, NMFS solicits comments from the Commission and Councils to the extent either entity is interested in providing such comments. NMFS also indicated to the State of Delaware that the State is entitled to meet with and present its comments directly to NMFS if the State so desires.

NMFS intends to make its non-compliance determination on or about September 18, 2015, which is 30 days after receipt of the Commission's non-compliance referral. NMFS will announce its determination by **Federal Register** notice immediately thereafter. To the extent that NMFS makes an affirmative non-compliance finding, NMFS will announce the effective date of the moratorium in that **Federal Register** notice.

Authority: 16 U.S.C. 5101 *et seq.*

Dated: August 21, 2015.

Alan D. Risenhoover,
Director, Office of Sustainable Fisheries,
National Marine Fisheries Service.

RIN 0648-XC268

Marine Mammals; File No. 16239

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for permit amendment.

SUMMARY: Notice is hereby given that Dan Engelhaupt, Ph.D., HDR EOC, 5700 Lake Wright Drive, Norfolk, VA 23502-1859, has applied for an amendment to Scientific Research Permit No. 16239.

DATES: Written, telefaxed, or email comments must be received on or before September 28, 2015.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 16239 from the list of available applications.

These documents are also available upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Carrie Hubard or Courtney Smith, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 16239 is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the regulations governing the

taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 16239, issued on September 11, 2013 (78 FR 60852), authorizes the permit holder to harass cetacean and pinniped species during vessel and aerial survey activities, including behavioral observations and photo-identification. Cetacean species may also be harassed during underwater photography and collection of sloughed skin and fecal samples. Surveys may be conducted year-round in all U.S. and international waters in the Pacific Ocean (including Alaska, Washington, Oregon, California, Hawaii, Guam, Marianas Islands, and other U.S. territories) and Atlantic Ocean (including the Gulf of Mexico, western North Atlantic, Caribbean Sea, and Sargasso Seas). The permit expires September 30, 2018.

The permit holder is requesting the permit be amended to include authorization for: (1) Increasing takes for some species during aerial and vessel visual surveys to document presence/absence, behavior, and movement of marine mammals before, during, and after Naval training exercise operations, offshore energy installations, oil and gas exploration and production, and pier refurbishment/replacement; (2) collecting biopsy samples to document genetic variation within populations, gender, foraging patterns, and stress levels; and (3) using multiple tag types, including satellite and digital acoustic tags, to document movement and dive patterns, social and population structure, and habitat use. See tables in the permit amendment application for numbers of takes by species, stock and activity. The research would be conducted to collect data on population and genetic variations and habitat use, and to monitor behavioral changes during activities associated with U.S. Navy, renewable energy, oil and gas exploration and production, and pier-based construction.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.
