The purpose of this agreement is to verify an individual's continuing eligibility for VA benefits by identifying VA disability benefit recipients who return to active duty and to ensure that benefits are terminated if appropriate.

SUPPLEMENTARY INFORMATION: Pursuant to subsection (o) of the Privacy Act of 1974, as amended (5 U.S.C. 552a), DoD and VA have concluded an agreement to renew a computer matching program between the agencies. The purpose of this agreement is to verify an individual's continuing eligibility for VA benefits by identifying VA disability benefit recipients who return to active duty and to ensure that benefits are terminated if appropriate. The VA will provide identifying information on disability compensation recipients to DMDC to match against a file of active duty (including full-time National Guard and Reserve) personnel. Notice of a Computer Matching Program Between the Department of Defense and the Department of Veterans Affairs for Verification of Disability Compensation

A. Participating Agencies: Participants in this computer matching program are the Veterans Benefits Administration of the Department of

Veterans Affairs (VA) and the Defense Manpower Data Center (DMDC) of the Department of Defense (DoD). The VA is the source agency, *i.e.*, the activity disclosing the records for the purpose of the match. The DMDC is the specific recipient activity or matching agency, *i.e.*, the agency that performs the computer matching.

B. Purpose of the Match: The purpose of this agreement is to verify an individual's continuing eligibility for VA benefits. VA will provide identifying information on disability compensation and pension recipients to DMDC to match against a file of active duty (including full-time National Guard and Reserve) personnel. The purpose is to identify those recipients who have returned to active duty and are ineligible to receive VA compensation and pension so that benefits can be adjusted or terminated, if appropriate in order.

C. Authority for Conducting the Match: The legal authority for conducting the matching program for use in the administration of VA's Compensation and Pension Benefits Program is contained in 38 U.S.C. 5304(c), Prohibition Against Duplication of Benefits, which precludes pension, compensation, or retirement pay on account of any person's own service, for any period for which he or she receives active duty pay. The head of any Federal department or agency shall provide, pursuant to 38 U.S.C. 5106, such information as requested by VA for the purpose of determining eligibility for, or amount of benefits, or verifying other information which respect thereto.

D. Records To Be Matched: The systems of records maintained by the respective agencies under the Privacy Act of 1974, as amended, 5 U.S.C. 552a, from which record will be disclosed for the purpose of this computer matching agreement are as follows:

1. VA will use the system of records identified as “Compensation, Pension, Education and Vocational Rehabilitation and Employment Records—VA” (58VA21/22/28), published at 74 FR 29275 (June 19, 2009), and last amended at 77 FR 42593 (July 19, 2012). Disclosure of data will be pursuant to routine use 39.

2. DoD will use the system of records identified as DMDC 01, entitled, “Defense Manpower Data Center Data Base”, published November 23, 2011, 76 FR 72391. Disclosure of data will be pursuant to routine use 1.(e).

E. Description of Computer Matching Program: VA will provide DMDC with an electronic file that contains specified data elements of individual VA disability compensation and pension

recipients. Upon receipt of the electronic file, DMDC will perform a computer match using all nine digits of the SSNs in the VA file against a DMDC computer database. The DMDC database consists of pay records of active duty (including full-time National Guard and Reserve) military members. Matching records, "hits" based on the SSN, will produce the member's name, branch of service, and unit designation, and other pertinent data elements. The hits will be furnished to VA, which is responsible for verifying and determining the data on the electronic reply file are consistent with the source file and for resolving all discrepancies or inconsistencies on an individual basis. VA will also be responsible for making final determinations as to positive identification, eligibility for benefits, and verifying any other information with respect thereto.

The listing will be sorted by VA file number by Regional Office number. VA will then take necessary action to terminate compensation payments of any benefit recipient identified as being on active duty while receiving compensation pay after following the verification of procedures detailed in this agreement.

F. Inclusive Dates of the Matching Program: This computer matching program is subject to public comment and review by Congress and the Office of Management and Budget. If the mandatory 30 day period for comment has expired and no comments are received and if no objections are raised by either Congress or the Office of Management and Budget within 40 days of being notified of the proposed match, the computer matching program becomes effective and the respective agencies may begin the exchange at a mutually agreeable time and thereafter on a quarterly basis. By agreement between VA and DMDC, the matching program will be in effect for 18 months with an option to renew for 12 additional months unless one of the parties to the agreement advises the other by written request to terminate or modify the agreement.

G. Address for Receipt of Public Comments or Inquiries: Chief, Defense Privacy and Civil Liberties Division, Office of the Deputy Chief Management Officer, Office of the Secretary of Defense, 9010 Defense Pentagon, Washington, DC 20301-9010. Telephone (703)571-0070.
