Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Regional Economic Data Collection Program for Southwest Alaska.

OMB Control Number: 0648-xxxx.

Form Number(s): None.

Type of Request: Regular (request for a new information collection).

Number of Respondents: 1,602.

Average Hours per Response: 45 minutes.

Burden Hours: 600.

Needs and Uses: This request is for a new information collection.

Regional or community economic analysis of proposed fishery management policies is required by the Magnuson-Stevens Fishery Conservation and Management Act, National Environmental Policy Act, and Executive Order 12866, among others. To satisfy these mandates and inform policymakers and the public of the likely regional economic impacts associated with fishery management policies, appropriate economic models and the data to implement them are needed. Much of the data required for regional economic analysis of Southwest Alaska fisheries are either unavailable or unreliable. Accurate fishery-level data on employment, labor income, and expenditures in the Southwest Alaska fishery and related industries are not generally available but are needed to estimate the role of fisheries and effects of fishery policies on local, regional and national economies. The Southwest region for this survey includes six boroughs and census areas (BCAs)—Aleutians East Borough, Aleutians West Census Area, Bristol Bay Borough, Dillingham Census Area, Lake and Peninsula Borough, and Kodiak Island Borough.

In 2007–2008, a similar data collection project was administered for the Southwest Alaska region by obtaining 2006 annual data. However, that data is now outdated and incomplete. In the proposed survey, 2013 or 2014 annual data for important regional economic variables will be collected from fish harvesting and seafood processing businesses operating in the region (2012 data on these variables will be collected if more recent vessel landings and processed products data are not available at the time the data collection begins). The data will be used to develop Southwest regional and BCA-level models that will provide more reliable impact estimates and significantly improve policymakers' ability to assess effects on fishery-dependent communities in Southwest Alaska. A departure from the prior survey effort is that more information will be collected this time on the source locations of business expenditures by catcher vessels and seafood processors. The survey will be conducted one time only.

A mail survey will be used to collect data on employment, labor income, and expenditures from owners of 2,731 catcher vessels whose boats delivered

fish to Southwest Alaska processors. Key informant interviews will be conducted to gather additional information from 30 seafood processors, including catcher-processor and floating processor vessels, and 20 local businesses that supply inputs to regional fish harvesters and seafood processors. The interviews will be used to determine relative expenditures for inputs made in nine geographical areas—(1) each of the six BCAs within the Southwest region, (2) non-Southwest Alaska region, (3) West Coast, and (4) the rest of US and elsewhere. Personal interviews with input suppliers will gather additional information on (i) the level of supplier sales to regional seafood industry businesses, and (ii) the portion of business expenditures for labor and non-labor inputs that were made in each of the above nine geographical areas.

Affected Public: Business or other for-profit organizations.

Frequency: One time.

Respondent's Obligation: Voluntary.

Takes of Marine Mammals Incidental to Specified Activities; Confined Blasting Activities by the U.S. Army Corps of Engineers During the Port of Miami Construction Project in Miami, Florida

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice, withdrawal of an Incidental Harassment Authorization (IHA) application.

SUMMARY: Notice is hereby given that the U.S. Army Corps of Engineers (ACOE) has withdrawn its application

for an IHA, for the take of small numbers of marine mammals, by Level B harassment only, incidental to conducting confined blasting activities in the Port of Miami in Miami, Florida. Accordingly, NMFS has withdrawn its related proposed IHA.

ADDRESSES: The documents and the application related to this action are available by writing to Jolie Harrison, Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910, or by telephoning the contact listed here.

A copy of the IHA application may be obtained by writing to the address specified above, telephoning the contact listed below (see **FOR FURTHER INFORMATION CONTACT**), or visiting the Internet at: <http://www.nmfs.noaa.gov/pr/permits/incidental/>.

FOR FURTHER INFORMATION CONTACT: Howard Goldstein or Jolie Harrison, NMFS, 301-427-8401.

SUPPLEMENTARY INFORMATION: On November 15, 2013, NMFS received an application from the ACOE requesting an IHA. The requested IHA would authorize the take, by Level B harassment, small numbers of Atlantic bottlenose dolphins (*Tursiops truncatus*) incidental to confined blasting activities in Miami Harbor, Port of Miami, in Miami-Dade County, Florida. NMFS published a notice of the proposed IHA in the **Federal Register** (79 FR 6545) on February 4, 2014. On August 3, 2015, NMFS accepted notice from the ACOE withdrawing their IHA application for the proposed action. The ACOE was able to complete the construction project using dredging methods and without needing to conduct confined blasting. Therefore, NMFS has withdrawn its proposed IHA for the action.

Dated: September 3, 2015.

Perry F. Gayaldo,

Deputy Director, Office of Protected Resources, National Marine Fisheries Service.
