ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and Office of Management and Budget (OMB) regulations, the FAA invites public comments about our intention to request OMB approval to revise an existing information collection. This change will have a negligible effect on the estimated time to complete form 8500-8.

DATES: Comments should be submitted by October 16, 2015.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

The FAA is seeking comments only with regard to the burden associated with the information collection activity under OMB Control Number 2120-0034. As such, any comments received that cite this notice but are outside of the scope of the collection activity under OMB Control Number 2120-0034 will not be addressed.

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law 104-13, sec. 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. 44 U.S.C. 3506, 3507; 5 CFR 1320.5, 1320.8(d)(1), and 1320.12. On June 22, 2015, FRA published a 60-day notice in the **Federal Register** soliciting comment

Title: Railroad Locomotive Safety Standards and Event Recorders.

OMB Control Number: 2130-0004.

Abstract: The Locomotive Inspection requires railroads to inspect, repair, and maintain locomotives and event recorders so that they are safe, free of defects, and can be placed in service without peril to life. Crashworthy locomotive event recorders provide FRA with verifiable factual information about how trains are maintained and operated, and are used by FRA and State inspectors for part 229 rule enforcement. The information garnered from crashworthy event recorders is also used by railroads to monitor railroad operations and by railroad employees (locomotive engineers, train crews, dispatchers) to improve train handling, and promote the safe and efficient operation of trains throughout the country, based on a surer knowledge of different control inputs.

Type of Request: Extension with Change of a Currently Approved Information Collection.

Affected Public: Businesses (Railroads).

Form(s): FRA F 6180.49A.

Annual Estimated Burden: 2,087,543 hours.

Title: FRA Emergency Order No. 31, Notice No. 1.

OMB Control Number: 2130-0611.

Abstract: On May 21, 2015, FRA issued Emergency Order No. 31 (EO or

Order) to require that the National Railroad Passenger Corporation (Amtrak) take actions to control passenger train speed at certain locations on main line track in the Northeast Corridor (as defined by 49 U.S.C. 24905(c)(1)(A)). Amtrak was required to immediately implement code changes to its Automatic Train Control (ATC) System to enforce the passenger train speed limit ahead of the curve at Frankford Junction in Philadelphia, Pennsylvania, where a fatal accident occurred on May 12, 2015. Amtrak was also required to identify all other curves on the Northeast Corridor where there is a significant reduction (more than 20 miles per hour (mph)) from the maximum authorized approach speed to those curves for passenger trains. Amtrak was then required to develop and comply with an FRA-approved action plan to modify its existing ATC System or other signal systems (or take alternative operational actions) to enable enforcement of passenger train speeds at the identified curves. Amtrak also had to install additional wayside passenger train speed limit signage at appropriate locations on its Northeast Corridor right-of-way. FRA is continuing this Emergency Order in full force and effect, and is now seeking regular clearance for the information collection associated with this Emergency Order.

Type of Request: Extension with Change of a Currently Approved Information Collection.

Affected Public: Businesses (Railroads).

Form(s): N/A.

Annual Estimated Burden: 245 hours.

Addressee: Send comments regarding these information collections to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 Seventeenth Street NW., Washington, DC, 20503, Attention: FRA Desk Officer. Comments may also be sent via email to OMB at the following address: oira_submissions@omb.eop.gov.

Comments are invited on the following: Whether the proposed collections of information are necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collections; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collections of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication of this notice in the **Federal Register**.

Authority: 44 U.S.C. 3501-3520.

Executive Officer.
