Abstract: On April 3, 2012, the Commission adopted Commission regulation 23.605 (Conflicts of interest policies and procedures) under section 4s(j)(5)¹ of the Commodity Exchange Act ("CEA"). Commission regulation 23.605 requires, among other things, that swap dealers ("SD")² and major swap participants ("MSP")³ adopt and implement conflicts of interest procedures and disclosures, establish written policies and procedures reasonably designed to ensure compliance with the conflicts of interest and disclosure obligations within the regulations, and maintain specified records related to those requirements.⁴ The Commission believes that the information collection obligations imposed by Commission regulation 23.605 are essential to ensuring that SDs and MSPs develop and maintain the conflicts of interest systems, procedures and disclosures required by the CEA and Commission regulations, and to the

effective evaluation of these registrants' actual compliance with the CEA and Commission regulations.

SUPPLEMENTARY INFORMATION:

Title: Associated Form; and *OMB Number:* Department of Defense Suicide Event Report; DD2996; OMB Control Number 0720-0058.

Needs and Uses: The revision of this information collection system is necessary to the continued provision of integrated enterprise and survey data to be used for direct reporting of suicide events and ongoing population-based health surveillance activities. These surveillance activities include the systematic collection, analysis, interpretation, and reporting of outcome-specific data for use in planning, implementation, evaluation, and prevention of suicide behaviors within the Department of Defense. Data is collected on individuals with reportable suicide and self-harm behaviors (to include suicide attempts, self-harm behaviors, and suicidal ideation). All other DoD active and reserve military personnel records collected without evidence of reportable suicide and self-harm behaviors will exist as a control group. Records are integrated from enterprise systems and created and revised by civilian and military personnel in the performance of their duties. We propose to revise the system to make specific changes that have been recommended for improving the completeness of DoDSER data.
