Title: Conflict of Interest Policies and Procedures by Swap Dealers and Major Swap Participants (OMB Control No. 3038-0079). This is a request for an extension of a currently approved information collection.

Abstract: On April 3, 2012, the Commission adopted Commission regulation 23.605 (Conflicts of interest policies and procedures) under section 4s(j)(5)¹ of the Commodity Exchange Act ("CEA"). Commission regulation 23.605 requires, among other things, that swap dealers ("SD")² and major swap participants ("MSP")³ adopt and implement conflicts of interest procedures and disclosures, establish written policies and procedures reasonably designed to ensure compliance with the conflicts of interest and disclosure obligations within the regulations, and maintain specified records related to those requirements.⁴ The Commission believes that the information collection obligations imposed by Commission regulation 23.605 are essential to ensuring that SDs and MSPs develop and maintain the conflicts of interest systems, procedures and disclosures required by the CEA and Commission regulations, and to the

effective evaluation of these registrants' actual compliance with the CEA and Commission regulations.

Burden Statement: The respondent burden for this collection is estimated to be as follows:

Number of Registrants: 125.

Estimated Average Burden Hours Per Registrant: 44.5.

Estimated Aggregate Burden Hours: 5,562.5.

Frequency of Recordkeeping/Third-party Disclosure: As applicable.

(Authority: 44 U.S.C. 3501 *et seq.*)

Dated: October 13, 2015.

SUPPLEMENTARY INFORMATION:

Title: Associated Form; and *OMB Number:* Department of Defense Suicide Event Report; DD2996; OMB Control Number 0720-0058.

Needs and Uses: The revision of this information collection system is necessary to the continued provision of integrated enterprise and survey data to be used for direct reporting of suicide events and ongoing population-based health surveillance activities. These surveillance activities include the systematic collection, analysis, interpretation, and reporting of outcome-specific data for use in planning, implementation, evaluation, and prevention of suicide behaviors within the Department of Defense. Data is collected on individuals with reportable suicide and self-harm behaviors (to include suicide attempts, self-harm behaviors, and suicidal ideation). All other DoD active and reserve military personnel records collected without evidence of reportable suicide and self-harm behaviors will exist as a control group. Records are integrated from enterprise systems and created and revised by civilian and military personnel in the performance of their duties. We propose to revise the system to make specific changes that have been recommended for improving the completeness of DoDSER data.

Respondents include but are not limited to family members, friends, unit members, unit leadership and clergy members. The DoDSEER form data is used to produce ad hoc reports for services leadership and the DoDSEER Annual Report. The proposed amendments would change military justice practice by implementing recommendations made by the Response Systems to Adult Sexual Assault Crimes Panel, incorporating recent amendments to the Federal Rules of Evidence into the Military Rules of Evidence, and modifying the Rules for Courts-Martial, Military Rules of Evidence, and Punitive Articles explanation to reflect recent statutory amendments and developments in case law.
