II. Background

This notice seeks comment on the proposed "Revised Guidelines for Implementing Executive Order 11988, Floodplain Management" (Guidelines). The Guidelines were first issued by the Water Resources Council in 1978, following the issuance of Executive Order 11988. The proposed Guidelines concern Executive Order 11988, which was recently amended by a new Executive Order, "Establishing a Federal Flood Risk Management Standard and a Process for Further Soliciting and Considering Stakeholder Input." The Federal Flood Risk Management Standard (Standard) was developed by the Mitigation Framework Leadership Group in consultation with the Federal Interagency Floodplain Management Task Force, at the direction of the President. The Standard provides three approaches for defining the floodplain:

- Applying methods informed by best-available, actionable climate science,
- Adding two or three additional feet of elevation, depending on the criticality of the building or structure, above the 100-year, or 1%-annual-chance, flood elevation, or

- Using the 500-year, or 0.2%-annual-chance, flood elevation.

The Standard is consistent with the President's Climate Action Plan (June 2013). The President directed Federal agencies to take the appropriate actions to reduce risks to Federal investments, specifically calling on Federal agencies to update their flood risk reduction standards. The Standard also expands to a more national scope the work initially begun by the Hurricane Sandy Rebuilding Task Force to build back smarter in the Sandy-affected region. This expansion was a key recommendation from the Hurricane Sandy Rebuilding Strategy (August 2013) and the Recommendations of the State, Local and Tribal Leaders Task Force on Climate Preparedness and Resilience (November 2014).

In addition to this notice seeking comment, the Mitigation Framework Leadership Group is conducting a series of public meetings, which will serve as "Listening Sessions" to solicit feedback. A virtual listening session will also be held. A separate **Federal Register** Notice will be forthcoming detailing meeting dates and locations.

Executive Order 11988, as amended, the proposed "Revised Guidelines for Implementing Executive Order 11988, Floodplain Management," and the Federal Flood Risk Management Standard are included in the docket for this Notice on www.regulations.gov, under docket ID FEMA-2015-0006.

Authority: Executive Order 11988, Floodplain Management, as amended; Executive Order, "Establishing a Federal Flood Risk Management Standard and a Process for Further Soliciting and Considering Stakeholder Input."

Dated: January 30, 2015.

Roy Wright,

Deputy Associate Administrator for Mitigation, Federal Emergency Management Agency.

Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD has submitted to OMB a request for approval of the information collection described in Section A.

The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on May 5, 2014.

A. Overview of Information Collection

Title of Information Collection: Housing Search Process for Racial/Ethnic Minorities.

OMB Approval Number: 2528—New.

Type of Request: New collection.

Form Number: None.

Description of the need for the information and proposed use: It has been suspected that differences between the rental housing search process employed by racial and ethnic minorities and other populations may have significant consequences for the housing opportunities available to minority households and the strategies needed to combat racial and ethnic discrimination. This is an exploratory inquiry into a topic that is not well understood and has not been a well-developed research topic. The findings of this study will help guide research toward a more comprehensive understanding of the rental housing search processes of individual households and will inform development of more effective enforcement strategies to combat
