

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Laura Messenger, (202) 245-7840.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Perkins Discretionary Grant Performance Report.
OMB Control Number: 1830-0574.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: State, Local and Tribal Governments.

Total Estimated Number of Annual Responses: 88.

Total Estimated Number of Annual Burden Hours: 156.

Abstract: The Perkins Discretionary Grant Performance Report form and instructions will be used by grantees to meet Department of Education deadline dates for submission of performance and financial reports for the Office of Career, Technical and Adult Education (OCTAE) Division of Academic and Technical Education (DATE) discretionary grant programs, as required by the Education Department General Administrative Regulations (EDGAR 34 CFR 74.51, 74.52, 75.118, 75.253, 75.590, and 80.40). The Perkins Discretionary Grant Performance Report will be used by OCTAE discretionary grant recipients in lieu of the ED 524B

Grant Performance Report and instructions because the ED 524B is not compatible with OCTAE-DATE(TM)s new Perkins Information Management System. Recipients of multi-year discretionary grants must submit interim performance reports, usually annually, for each year funding has been approved in order to receive a continuation award. The annual performance report should demonstrate whether substantial progress has been made toward meeting the approved goals and objectives of the project. OCTAE also requires recipients of 'forward funded' grants that are awarded funds for their entire multi-year project up-front in a single grant award to submit an annual performance report. The Perkins Discretionary Grant Performance Report will be used for interim and final performance reporting. In both the annual and final performance reports, grantees are required to provide data on established performance measures for the grant program (e.g., Government Performance and Results Act measures) and on project performance measures that were included in the grantee(TM)s approved grant application, in order to demonstrate project success, impact and outcomes. The Perkins Discretionary Grant Performance Report form will also be used by grant recipients for other interim reporting such as quarterly or semi-annual performance and/or financial reporting.

Title of Collection: Mathematics and Science Partnerships Program.

OMB Control Number: 1810-0669.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: State, Local and Tribal Government.

Total Estimated Number of Annual Responses: 450.

Total Estimated Number of Annual Burden Hours: 4,500.

Abstract: This supporting statement serves as an update to approved OMB package 1810–0669. Implemented under the No Child Left Behind Act of 2001, Title II, Part B, the Mathematics and Science Partnerships (MSP) program is a formula grant program strategically designed to improve the content knowledge of teachers and the academic performance of students in mathematics and science. By funding collaborative partnerships between science, technology, engineering, and mathematics (STEM) departments at institutions of higher education (IHEs), and high-need school districts, the MSP program enables the delivery of intensive, content-rich professional development intended to improve classroom instruction and, ultimately, to raise student achievement in math and science.

Because MSP is a formula grant program, the size of individual state awards is based on student population and poverty rates, with no state receiving less than one half of one percent of the total appropriation. Each state is then responsible for administering a competitive grant making process to determine the distribution of funds across proposed MSP projects.
