The workshop seeks individual input across the range of U.S. offshore wind stakeholders to better inform efforts to update and refine the 2011 *A National Offshore Wind Strategy*.

DATES: DOE and DOI will hold a workshop on Thursday, December 10th, 2015, from 8:00 a.m. to 5:30 p.m. in Washington, DC. RSVP is required by December 7th, 2015.

five offshore wind lease sales. A 2016 update to *A National Offshore Wind Strategy* is currently underway at the agencies, which aims to better understand how the industry has changed in the past five years, identify the key challenges still facing the U.S. industry, explore potential pathways for offshore wind in the U.S., and identify the activities needed to facilitate offshore wind development.

The focus of the workshop will be for agencies to receive public input, questions, and recommendations for areas of potential improvement in the refinement and updating of the 2011 *A National Offshore Wind Strategy*. Particular areas of interest will include technical and market challenges facing offshore wind and potential pathways forward. Participants should limit information and comments to those based on personal experience, individual advice, information, or facts regarding these topics.

It is not the object of this session to obtain any group position or consensus relating to the strategic actions or inactions of the industry as a whole or those of DOE or DOI; rather, the agencies are seeking as much insight as possible from all the individuals at this meeting. To most effectively use the limited time please refrain from passing judgment on another participant's recommendations or advice and, instead, concentrate on your individual experiences.

Public Participation: This meeting is open to the public, subject to space availability. Stakeholders from all sectors in U.S. offshore wind energy are encouraged to attend. Pre-registration is required as space is limited.

[Docket No. CP16-18-000]

Magnum Gas Storage, LLC; Notice of Application for Amendment

Take notice that on November 16, 2015, Magnum Gas Storage, LLC (Magnum), 3165 E. Millrock Dr., #330, Holladay, Utah 84121, filed an application pursuant to section 7(c) of the Natural Gas Act (NGA) and Parts 157 and 284 of the Commission's Regulations requesting that the Commission approve an amendment (Amendment) to the certificate of public convenience and necessity issued to the Magnum in Docket No. CP10-22-000 on March 17, 2011 (March 17 Order). The March 17 Order authorized Magnum to construct facilities in Millard, Juab, and Utah Counties, Utah consisting of four salt caverns, various related

aboveground supporting facilities and a 61.6-mile long, 36-inch diameter, header pipeline extending from the storage site to points of interconnection with existing interstate gas transmission facilities owned by Kern River Gas Transmission Company and Questar Pipeline Company near Goshen, Utah.

The Amendment requested by Magnum would authorize the relocation of Magnum's approved natural gas storage caverns and associated surface facilities within the previously analyzed Project area, grant authority to Magnum to provide a new firm wheeling transportation service under market-based rates, and extend the time by which the facilities must be constructed and placed in service. The filing may be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.
