

TABLE 1—LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN QAI'S NRTL SCOPE OF RECOGNITION—Continued

Test standard	Test standard title
UL 514D	Cover Plates for Flush-Mounted Wiring Devices.
UL 962 *	Standard for Household and Commercial Furnishings.
UL 1574	Standard for Track Lighting Systems.
UL 1993	Self-Ballasted Lamps and Lamp Adapters.
UL 2108	Standard for Low Voltage Lighting Systems.
UL 60950-1	Information Technology Equipment—Safety—Part 1: General Requirements.
UL 61010-1	Safety Requirements for Electrical Equipment Measurement, Control, and Laboratory Use—Part 1: General Requirements.
UL 8750	Standard for Light Emitting Diode (LED) Equipment for Use in Lighting Products.

* Represents a new standard that OSHA is adding to the NRTL Program's List of Appropriate Test Standards—listed in Table 2 below.

TABLE 2—TEST STANDARD OSHA IS ADDING TO THE NRTL PROGRAM'S LIST OF APPROPRIATE TEST STANDARDS

Test standard	Test standard title
UL 962	Standard for Household and Commercial Furnishings.

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, an NRTL's scope of recognition does not include these products.

The American National Standards Institute (ANSI) may approve the test standards listed above as American National Standards. However, for convenience, we may use the designation of the standards-developing organization for the standard as opposed to the ANSI designation. Under the NRTL Program's policy (see OSHA Instruction CPL 1-0.3, Appendix C, paragraph XIV), any NRTL recognized for a particular test standard may use either the proprietary version of the test standard or the ANSI version of that standard. Contact ANSI to determine whether a test standard is currently ANSI-approved.

A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, QAI must abide by the following conditions of the recognition:

1. QAI must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as an NRTL, and provide details of the change(s);
2. QAI must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and
3. QAI must continue to meet the requirements for recognition, including all previously published conditions on

QAI's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of QAI, subject to the limitation and conditions specified above.

Authority and Signature

David Michaels, Ph.D., MPH, Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW., Washington, DC 20210, authorized the preparation of this notice. Accordingly, the Agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1-2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on February 25, 2016.

David Michaels,

Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510-26-P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2009-0028]

Personal Protective Equipment (PPE) Standard for General Industry; Extension of the Office of Management and Budget's (OMB) Approval of the Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comments.

SUMMARY: OSHA solicits public comments concerning its proposal to

extend the Office of Management and Budget's (OMB) approval of the information collection requirements contained in the Personal Protective Equipment (PPE) Standard for General Industry (29 CFR part 1910, subpart I).

DATES: Comments must be submitted (postmarked, sent, or received) by May 2, 2016.

ADDRESSES:

Electronically: You may submit comments and attachments electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Facsimile: If your comments, including attachments, are not longer than 10 pages you may fax them to the OSHA Docket Office at (202) 693-1648.

Mail, hand delivery, express mail, messenger, or courier service: When using this method, you must submit a copy of your comments and attachments to the OSHA Docket Office, Docket No. OSHA-2009-0028, Occupational Safety and Health Administration, U.S. Department of Labor, Room N-2625, 200 Constitution Avenue NW., Washington, DC 20210. Deliveries (hand, express mail, messenger, and courier service) are accepted during the Department of Labor's and Docket Office's normal business hours, 8:15 a.m. to 4:45 p.m., e.t.

Instructions: All submissions must include the Agency name and the OSHA docket number (OSHA-2009-0028) for the Information Collection Request (ICR). All comments, including any personal information you provide, are placed in the public docket without change, and may be made available online at <http://www.regulations.gov>. For further information on submitting comments, see the "Public

Participation” heading in the section of this notice titled **SUPPLEMENTARY INFORMATION**.

Docket: To read or download comments or other material in the docket, go to <http://www.regulations.gov> or the OSHA Docket Office at the address above. All documents in the docket (including this **Federal Register** notice) are listed in the <http://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download from the Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. You may contact Theda Kenney at the address below to obtain a copy of the ICR.

FOR FURTHER INFORMATION CONTACT:

Theda Kenney or Todd Owen, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, Room N-3609, 200 Constitution Avenue NW., Washington, DC 20210; telephone (202) 693-2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)).

This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657).

Subpart I specifies several paperwork requirements. The following describes the information collection requirements in subpart I and addresses who will use the information.

Hazard Assessment and Verification (§ 1910.132(d))

Paragraph (d)(1) requires employers to perform a hazard assessment of the workplace to determine if hazards are present, or likely to be present, that

make the use of PPE necessary. Where such hazards are present, employers must communicate PPE selection decisions to each affected employee (paragraph (d)(1)(ii)).

Paragraph (d)(2) requires employers to certify in writing that they have performed the hazard assessment. The certification must include the date and the person certifying that the hazard assessment was conducted, and the identification of the workplace evaluated (area or location).

The hazard assessment assures that potential workplace hazards necessitating PPE use have been identified and that the PPE selected is appropriate for those hazards and the affected employees. The required certification of the hazard assessment verifies that the required hazard assessment was conducted.

The standards on PPE protection for the eyes and face (29 CFR 1910.133), head (29 CFR 1910.135), feet (29 CFR 1910.136), and hands (29 CFR 1910.138) do not contain any separate information collection requirements.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Personal Protective Equipment (PPE) Standard for General Industry (29 CFR part 1910, subpart I). OSHA is proposing to decrease the burden hours in the currently approved information collection request from 1,696,991 hours to 1,366,521 hours, a difference of 330,470 hours. The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: Personal Protective Equipment (PPE) for General Industry (29 CFR part 1910, subpart I).

OMB Control Number: 1218-0205.

Affected Public: Business or other for-profits; Federal Government; State, Local, or Tribal Government.

Number of Respondents: 3,500,000.

Frequency of Response: On occasion.

Average Time per Response: Varies from one hour to generate and maintain records to 29 hours to perform a hazard assessment.

Estimated Total Burden Hours: 1,366,521.

Estimated Cost (Operation and Maintenance): \$0.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

(1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA-2009-0028). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350, (TTY) (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this Web site.

All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the

<http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available from the Web site, and for assistance in using the Internet to locate docket submissions.

V. Authority and Signature

David Michaels, Ph.D., MPH, Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 1–2012 (77 FR 3912).

Signed at Washington, DC, on February 25, 2016.

David Michaels,

Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510–26–P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA–2007–0043]

TUV SUD America Inc.: Grant of Expansion of Recognition

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: In this notice, OSHA announces its final decision to expand the scope of recognition for TUV SUD America, Inc. as a Nationally Recognized Testing Laboratory (NRTL).

DATES: The expansion of the scope of recognition becomes effective on March 2, 2016.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice is available from the following sources:

Press inquiries: Contact Mr. Frank Meilinger, Director, OSHA Office of Communications, U.S. Department of Labor, 200 Constitution Avenue NW., Room N–3647, Washington, DC 20210; telephone: (202) 693–1999; email: meilinger.francis2@dol.gov.

General and technical information: Contact Mr. Kevin Robinson, Director, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, Occupational Safety and Health Administration, U.S. Department

of Labor, 200 Constitution Avenue NW., Room N–3655, Washington, DC 20210; telephone: (202) 693–2110; email: robinson.kevin@dol.gov. OSHA's Web page includes information about the NRTL Program (see <http://www.osha.gov/dts/otpca/nrtl/index.html>).

SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice of the expansion of the scope of recognition of TUV SUD America, Inc. (TUVAM) as an NRTL. TUVAM's expansion covers the addition of fifteen test standards and one recognized testing and certification site to its scope of recognition.

OSHA recognition of an NRTL signifies that the organization meets the requirements specified by 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification of the products.

The Agency processes applications by an NRTL for initial recognition, or for expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding and, in the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational Web page for each NRTL that details its scope of recognition. These pages are available from the Agency's Web site at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

TUVAM submitted an application, dated October 16, 2014, (OSHA–2007–0043–0014) to expand its recognition to include fifteen additional test standards and one additional recognized testing and certification site located at: TUV SUD, 1229 Ringwell Drive, Newmarket, ON, L3Y 8T8, Canada. OSHA staff performed a detailed analysis of the application, including a comparability analysis, and reviewed other pertinent

information. OSHA performed an on-site review of TUVAM's testing and certification facility in Newmarket, ON Canada on July 14–15, 2015, in which assessors found nonconformances with the requirements of 29 CFR 1910.7. TUVAM addressed these issues sufficiently, and OSHA staff recommended expansion of TUVAM's recognition to include these standards and this site.

OSHA published the preliminary notice announcing TUVAM's expansion application in the **Federal Register** on December 7, 2015 (80 FR 76045). The Agency requested comments by December 22, 2015, but it received no comments in response to this notice. OSHA now is proceeding with this final notice to grant expansion of TUVAM's scope of recognition.

To obtain or review copies of all public documents pertaining to TUVAM's application, go to www.regulations.gov or contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Room N–2625, Washington, DC 20210. Docket No. OSHA–2007–0043 contains all materials in the record concerning TUVAM's recognition.

II. Final Decision and Order

OSHA staff examined TUVAM's expansion application, its capability to meet the requirements of the test standards, conducted a detailed on-site assessment, and reviewed other pertinent information. Based on its review of this evidence, OSHA finds that TUVAM meets the requirements of 29 CFR 1910.7 for expansion of its recognition, subject to the limitation and conditions listed below. OSHA, therefore, is proceeding with this final notice to grant TUVAM's scope of recognition. OSHA limits the expansion of TUVAM's recognition to testing and certification of products for demonstration of conformance to the test standards listed in Table 1 below. Further, OSHA limits the expansion of TUVAM's recognition to include the site at TUV SUD, Newmarket, ON Canada as listed above. OSHA's recognition of this site limits TUVAM to performing product testing and certifications only to the test standards for which the site has the proper capability and programs, and for test standards in TUVAM's scope of recognition. These limitations are consistent with the recognition that OSHA grants to other NRTLs that operate multiple sites.
