Title of Collection: Health Education Assistance Loan (HEAL) Program Regs.

OMB Control Number: 1845-0125.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: State, Local, and Tribal Governments; Individuals or Households.

Total Estimated Number of Annual Responses: 144,930.

Total Estimated Number of Annual Burden Hours: 26,409.

Abstract: The Health Education Assistance Loan (HEAL) Program regulatory requirements for reporting, record-keeping and notification are approved under OMB 1845-0125 after the transfer from the U.S. Department of Health and Human Services to the U.S. Department of Education in 2014. The HEAL program provided federally insured loans to students for certain health programs. No new loans have been made since 1998. However, loans are still outstanding and being collected, therefore the regulatory requirements for reporting, record-keeping and notification continue to be needed to administer the program. These regulations work to ensure that participants in the program follow sound management procedures in the administration of the federal loan program.

Title of Collection: 2017–2018 Free Application for Federal Student Aid (FAFSA).

OMB Control Number: 1845–0001.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Individuals.

Total Estimated Number of Annual Responses: 38,669,924.

Total Estimated Number of Annual Burden Hours: 20,036,012.

Abstract: Section 483 of the Higher Education Act of 1965, as amended (HEA), mandates that the Secretary of Education “. . . shall produce, distribute, and process free of charge common financial reporting forms as described in this subsection to be used for application and reapplication to determine the need and eligibility of a student for financial assistance. . . .”

The determination of need and eligibility are for the following title IV, HEA, federal student financial assistance programs: The Federal Pell Grant Program; the Campus-Based programs (Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work-Study (FWS), and the Federal Perkins Loan Program); the William D. Ford Federal Direct Loan Program; the Teacher Education Assistance for College and Higher Education (TEACH) Grant; and the Iraq and Afghanistan Service Grant.

Federal Student Aid, an office of the U.S. Department of Education (hereafter “the Department”), subsequently developed an application process to collect and process the data necessary to determine a student's eligibility to receive title IV, HEA program assistance. The application process involves an applicant's submission of the Free Application for Federal Student Aid (FAFSA®). After submission of the FAFSA, an applicant receives a Student Aid Report (SAR), which is a summary of the data they submitted on the FAFSA. The applicant reviews the SAR, and, if necessary, will make corrections or updates to their submitted FAFSA data. Institutions of higher education listed by the applicant on the FAFSA also receive a summary of processed data submitted on the FAFSA which is called the Institutional Student Information Record (ISIR).

The Department seeks OMB approval of all application components as a single “collection of information”. The aggregate burden will be accounted for under OMB Control Number 1845–0001. The specific application components, descriptions and submission methods for each are listed in Table 1.

TABLE 1—FEDERAL STUDENT AID APPLICATION COMPONENTS

FAA Access—Corrections	An institution can use FAA Access to correct the FAFSA	Submitted through faaaccess.ed.gov by an FAA on behalf of an applicant.
Internal Department Corrections	The Department will submit an applicant’s record for system-generated corrections.	There is no burden to the applicants under this correction type as these are system-based corrections.
FSAIC Corrections	Any applicant, with their Data Release Number (DRN), can change the postsecondary institutions listed on their FAFSA or change their address by calling FSAIC.	These changes are made directly in the CPS system by a FSAIC representative.
SAR Electronic (eSAR)	The eSAR is an online version of the SAR that is available on FOTW to all applicants with an FSA ID. Notifications for the eSAR are sent to students who applied electronically or by paper and provided an e-mail address. These notifications are sent by e-mail and include a secure hyperlink that takes the user to the FOTW site.	Cannot be submitted for processing.

This information collection also documents an estimate of the annual public burden as it relates to the application process for federal student aid. The Applicant Burden Model (ABM) measures applicant burden through an assessment of the activities each applicant conducts in conjunction with other applicant characteristics and in terms of burden, the average applicant's experience. Key determinants of the ABM include:

- ☐ The total number of applicants that will potentially apply for federal student aid;
- ☐ How the applicant chooses to complete and submit the FAFSA (*e.g.*, by paper or electronically via FOTW®);
- ☐ How the applicant chooses to submit any corrections and/or updates (*e.g.*, the paper SAR or electronically via FOTW Corrections);

☐ The type of SAR document the applicant receives (eSAR, SAR acknowledgment, or paper SAR);

☐ The formula applied to determine the applicant's expected family contribution (EFC) (full need analysis formula, Simplified Needs Test or Automatic Zero); and

☐ The average amount of time involved in preparing to complete the application.

The ABM is largely driven by the number of potential applicants for the application cycle. The total application projection for 2017–2018 is based upon two factors—estimating the growth rate of the total enrollment into post-secondary education and applying the growth rate to the FAFSA submissions. The ABM is also based on the application options available to students and parents. The Department accounts for each application component based

on web trending tools, survey information, and other Department data sources.

For this 2017–2018 Free Application for Federal Student Aid (FAFSA) collection, the Department is reporting a net burden decrease of –524,469 hours.

The reporting hour burden calculations in this notice reflect the Department's best estimates using data from the 2015–16 FAFSA application cycle in which Federal Student Aid traditionally has estimated reporting burden. However, in order to reflect a change in which prior tax year's information will be utilized in the application, a conservative estimate has been reflected as part of the reporting hour burden calculation. As such, we will continuously monitor and capture statistical information in order to reflect more accurate calculations in future cycles.
