Nondiscrimination on the Basis of Disability in Air Travel; Consideration of Negotiated Rulemaking Process

AGENCY: Office of the Secretary, Department of Transportation.

ACTION: Notice of intent; extension of comment period.

SUMMARY: This document extends the comment period for the notice of intent that was published in the **Federal Register** on Monday, December 7, 2015. The notice announced that the Department of Transportation (“Department” or “DOT”) is exploring the feasibility of conducting a negotiated rulemaking (reg neg) concerning accommodations for air travelers with disabilities addressing inflight entertainment, supplemental medical oxygen, service animals, accessible lavatories on single-aisle aircraft, seating accommodations, and carrier reporting of disability service requests.

DATES: The deadline for submitting comments on the notice of intent published on December 7, 2015, (80 FR 75953), is extended from January 6, 2016 to January 21, 2016.

ADDRESSES: You may submit comments identified by docket number DOT–OST–2015–0246 using any one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>.
- *Fax:* 202–493–2251.
- *Mail:* Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Ave. SE., Washington, DC 20590.

Department of Transportation, by email at kathleen.blankriether@dot.gov or by telephone at 202–366–9342. To obtain a copy of this notice in an accessible format, you may also contact Kathleen Blank Riether.

SUPPLEMENTARY INFORMATION:

On December 7, 2015, the Department announced its intention to explore the feasibility of conducting a reg neg to:

- Ensure that the same in-flight entertainment (IFE) available to all passengers is accessible to passengers with disabilities;
- Provide individuals dependent on in-flight medical oxygen greater access to air travel consistent with Federal safety and security requirements;
- Determine the appropriate definition of a service animal;
- Establish safeguards to reduce the likelihood that passengers wishing to travel with their pets will be able to falsely claim that their pets are service animals;

- Address the feasibility of accessible lavatories on new single aisle aircraft;
- Address whether premium

economy is a different class of service from standard economy as airlines are required to provide seating accommodations to passengers with disabilities within the same class of service; and

- Require airlines to report annually to the Department the number of requests for disability assistance they receive and the time period within which wheelchair assistance is provided to passengers with disabilities.

The Department requested that all comments be submitted no later than January 6, 2016.

On December 21, 2015, the Department received a letter from 11 disability advocacy organizations representing diverse interests expressing their concern that the designated comment period does not allow enough time for stakeholders to fully consider the impact of engaging in a negotiated rulemaking on these issues of critical concern to people with disabilities. The disability advocacy organizations noted that as a result of the holidays, the 30-day comment period is effectively reduced by nearly two weeks. They noted that the notice and comment process would be more effective if all stakeholders had sufficient time to consider and comment on the efficacy of conducting a negotiated rulemaking on each of the proposed issues.

We agree that an extension of the comment period is appropriate given the effective shortening of the comment period by observance of the holidays. We believe that a 15-day extension to

the comment filing period is reasonable to provide stakeholders with ample opportunity to more fully analyze and respond to the issues to be considered during the reg neg. Accordingly, the deadline for filing comments is extended to January 21, 2016.

Issued on December 29, 2015, under authority delegated in 49 CFR 1.27.

Kathryn B. Thomson,
General Counsel.

RIN 1625–AA01

Anchorage Regulations, Delaware River; Philadelphia, PA

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to amend the geographic coordinates and modify the regulated use of anchorage “10” in the Delaware River in the vicinity of the Navy Yard in Philadelphia, Pennsylvania. We invite your comments on this proposed rulemaking.

DATES: Comments and related material must be received by the Coast Guard on or before February 4, 2016.

ADDRESSES: You may submit comments identified by docket number USCG–2015–0825 using the Federal eRulemaking Portal at <http://www.regulations.gov>. II. Background, Purpose, and Legal Basis

The legal basis for this rule is: 33 U.S.C. 471, 1221 through 1236, 2071; 33 CFR 1.05–1; and Department of Homeland Security Delegation No. 0170.1, which collectively authorize the Coast Guard to define anchorage grounds.

On December, 12, 1967, the Coast Guard Fifth District published a final rule establishing an anchorage area on the Delaware River in Philadelphia, Pennsylvania in the **Federal Register** (32 FR 17726, 17749). The anchorage area established is contained in 33 CFR 110.157(a)(11). This proposed rule would change the shape and the dimensions of anchorage “10”, and remove the “restricted naval anchorage” verbiage from the regulation. The anchorage currently remains unused by the Naval Yard. Removing the restrictions on anchorage “10” would alleviate congestion within the port, allowing the anchorage to be used as a general anchorage for commercial traffic.

III. Discussion of Proposed Rule

The new anchorage area would encompass all waters of the Delaware River on the north side of the channel along West Horseshoe Range, bounded as follows: Beginning off of the southeasterly corner of Pier 1 at 39°53′07″ N., 075°10′30″ W., thence south to the north edge of the channel along West Horseshoe Range to 39°52′58″ N., 075°10′29″ W., thence east along the edge of the channel to 39°52′56″ N., 075°09′53″ W., thence north to 39°53′07″ N., 075°09′54″ W., thence continuing west to the beginning point at 39°53′07″ N., 075°10′30″ W. Additionally, the restrictions on the use of the anchorage will be removed, permitting all vessels to anchor within its bounds. The regulatory text we are proposing appears at the end of this document.

IV. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders (E.O.s) related to rulemaking. Below we summarize our analyses based on a number of these
