Budgetary Effects for First session of the 114th Congress	-5,718	-5,718	-5,718	-5,718	-5,718	-5,718	-5,718	-5,718	-5,718	-5,718

The total net budgetary effects of all PAYGO legislation enacted during the first session of the 114th Congress on the 5-year scorecard reduce the deficit by \$17,280 million. This total is averaged over the years 2016 to 2020 on the 5-year PAYGO scorecard, resulting in savings of \$3,456 million in each year. Combining these savings with balances carried over from prior sessions of the Congress creates total net savings in 2016 of \$3,016 million, \$4,896 million in 2017, \$4,057 million in 2018, and \$4,082 million in 2019. The 5-year PAYGO window extended only through 2019 in the second session of the 113th Congress, so there were no 5-year scorecard balances in 2020 to carry over and the 5-year scorecard total is the average \$3,456 million savings from this session.

The total 10-year net impact of legislation enacted during the first session of the 114th Congress was savings of \$57,183 million. The 10-year PAYGO scorecard shows the total net impact averaged over the 10-year period, resulting in savings of \$5,718 million in each year. Combining these savings with balances from prior sessions results in net savings of \$15,448 million in 2016 through 2020, \$9,077 million in 2021, \$8,367 million in 2022, \$7,232 million in 2023, and \$7,239 million in 2024. The 10-year PAYGO window extended only through 2024 in the second session of the 113th Congress, so there were no 10-year scorecard balances in 2025 to carry over and the 10-year scorecard total is the average \$5,718 million savings from this session.

V. Sequestration Order

As shown on the scorecards, the budgetary effects of PAYGO legislation enacted in the first session of the 114th Congress, combined with the balances left on the scorecard from previous sessions of the Congress, resulted in net savings on both the 5-year and the 10-

year scorecard in the budget year, which is 2016 for the purposes of this Report. Because the costs for the budget year, as shown on the scorecards, do not exceed savings for the budget year, there is no "debit" on either scorecard under section 3 of the PAYGO Act, 2 U.S.C. § 932, and there is no need for a sequestration order.

The savings shown on the scorecards for 2016 will be removed from the scorecards that are used to record the budgetary effects of PAYGO legislation enacted in the second session of the 114th Congress. The totals shown in 2017 through 2025 will remain on the scorecards and will be used in determining whether a sequestration order will be necessary in the future. All of the years of the 5-year and 10-year scorecards that will carry over into the second session of the 114th Congress will show balances of savings.
