DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

Privacy Act of 1974; Report of New System of Records

AGENCY: Department of Health and Human Services (HHS), Centers for Medicare & Medicaid Services (CMS).

ACTION: Notice of New System of Records (SOR).

SUMMARY: In accordance with the requirements of the Privacy Act of 1974, we are proposing to establish a new SOR titled, "CMS Risk Adjustment Data Validation System (RAD–V)," System No. 09–70–0511. Under § 1343 of the Patient Protection and Affordable Care Act (Pub. L. 111–148) as amended by the Health Care and Education Reconciliation Act of 2010 (Pub. L. 111–152), (hereinafter, the ACA), and the implementing regulations at 45 CFR part 153, data collected and maintained in this system will be used to support the audit functions of the risk adjustment

program, including validation activities under the risk adjustment data validation program.

The goal of the risk adjustment program is to provide payments to non-grandfathered health insurance issuers in the individual and small group markets that attract higher-risk populations, including a validation program to ensure the reliability of data used as a basis for risk adjustment payments and charges. Non-grandfathered plans are health plans that came into existence after March 23, 2010. Insurers offering these plans were required to modify them to follow the ACA rules as of January 1, 2014.

The RAD-V system will contain personally identifiable information (PII) about individuals who are current or former enrollees in non-grandfathered health plans, including information obtained through the risk adjustment data validation process to establish the relative deviation from the average. The program and the system of record are more thoroughly described in the **SUPPLEMENTARY INFORMATION** section and System of Records Notice below.

At this time, the only personally identifiable information that will be collected under this System will be through the RAD-V, part of the risk adjustment program.

DATES: This action will be effective without further notice 30 days after publication in the **Federal Register** or 40 days after providing a report of this Notice to the Office of Management and Budget and Congress, whichever is later. Written comments should be submitted within 30 days of publication in the **Federal Register**. HHS may publish an amended system of records notice (SORN) in light of any comments received.

ADDRESSES: Written comments can be sent to: CMS Privacy Act Officer, Division of Security, Privacy Policy & Governance, Information Security & Privacy Group, Office of Enterprise Information, CMS, 7500 Security Boulevard, Baltimore, MD 21244-1870, Mailstop: N1-24-08, or by E-Mail to: walter.stone@cms.hhs.gov. Comments received will be available for review at this location, by appointment, during regular business hours, Monday through Friday from 9:00 a.m.-3:00 p.m., Eastern Time zone.

FOR INFORMATION CONTACT: Catherine Anderson, RAD-V Mailbox Coordinator, Division of Risk Adjustment Operations, CCIIO, CMS, 7500 Security Boulevard, Baltimore, Maryland 21244. The email address is CCIIOACARADDataValidation@cms.hhs.gov.

SUPPLEMENTARY INFORMATION: Section 1343(b) of the ACA requires the Secretary to establish criteria and methods to carry out a risk adjustment program. Section 1321(a)(1)(C) of the ACA directs the Secretary to issue regulations and set standards to establish the risk adjustment program. Consistent with § 1321(c)(1) of the ACA, 45 CFR 153.310(a) provides that HHS will operate risk adjustment where a State does not elect to administer the risk adjustment program. The primary goals of the risk adjustment program are to assist health plans that provide coverage to individuals with higher health care costs and will help ensure that those who are sick have access to the coverage they need. The ACA's risk adjustment program also serves to level the playing field inside and outside of the individual and small group markets in each state by stabilizing premiums.

Under 45 CFR 153.620(b), issuers of risk adjustment covered plans must maintain documents and records to enable such evaluation, and must make such records available to HHS upon request for purposes of verification, investigation, audit or other review. As part of the risk adjustment data validation program, HHS may audit an issuer of a risk adjustment covered plan to assess its compliance with the risk adjustment requirements.

The state, or HHS on behalf of the state, must ensure proper validation of a statistically valid sample of risk adjustment data from each issuer that offers at least one risk adjustment covered plan in that state, as well as an administrative process to appeal findings from the risk adjustment data validation process. When HHS is conducting the risk adjustment data validation program, 45 CFR 153.620(a) and 153.630(a), requires issuers of risk adjustment covered plans to comply with any request for data for any audit or validation preformed, including relevant source enrollment documentation, all claims and encounter data, and medical record documentation.

Existing information privacy and security standards, such as standards under HIPAA and those detailed at 45 CFR 153.630(f)(2), which governs the risk adjustment data validation program, will apply to issuers and their initial validation auditors. In order to minimize the amount of individually identifiable information collected, CMS will use the smallest possible sample size that will provide a statistically valid sample, in accordance with the regulations at 45 CFR 153.350(a).

The Privacy Act

The Privacy Act governs the collection, maintenance, use, and dissemination of certain information about individuals by agencies of the federal government. A system of records is a group of any records under the control of a federal agency from which information about individuals is retrieved by name or other personal identifier.
