Clean Water Act: Availability of List Decisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice and initial request for public input.

SUMMARY: The Clean Water Act (CWA) requires that states periodically submit, and EPA approve or disapprove, lists of waters (called “Section 303(d) lists”) for which existing technology-based pollution controls are not stringent enough to attain or maintain State water quality standards and for which total maximum daily loads (TMDLs) must be prepared. Waters identified on Section

303(d) lists are called “water quality-limited segments.” This notice announces EPA’s proposal to include in West Virginia’s 2014 Section 303(d) list certain water quality-limited segments and requests public comment.

On May 11, 2016, EPA partially approved West Virginia’s 2014 Section 303(d) list of water quality-limited segments and associated pollutants and partially disapproved West Virginia’s submission to the extent that West Virginia did not evaluate certain water quality information and therefore did not identify certain water quality-limited segments. EPA has evaluated the information and proposes to identify these additional water quality-limited segments for inclusion on the State’s 2014 Section 303(d) list. The proposed water quality-limited segments are identified in Enclosure 3 of the decision document available at the Web site link provided below.

EPA is providing the public the opportunity to review its decision to add these water quality-limited segments to West Virginia’s 2014 Section 303(d) list. EPA will consider public comments before transmitting its final listing decision to the State.

DATES: Comments must be submitted in writing to EPA on or before July 5, 2016.

ADDRESSES: Comments on the proposed decision should be sent to Bill Richardson, Water Protection Division (3WP30), U.S. Environmental Protection Agency Region 3, 1650 Arch Street, Philadelphia, PA 19103–2029, or emailed to Richardson.william@epa.gov. Oral comments will not be considered. Copies of EPA’s letter concerning West Virginia’s 2014 Section 303(d) list that explains the rationale for EPA’s decision and EPA’s proposed list of waters to be added to West Virginia’s 2014 Section 303(d) list can be obtained at EPA Region 3’s Web site at <https://www.epa.gov/tmdl/impaired-waters-and-tmdls-region-3> or by writing Mr. Richardson at the above address. Underlying documents from the administrative record for these decisions are available for public inspection at the above address. Please contact Mr. Richardson to schedule an inspection.

FOR FURTHER INFORMATION CONTACT: For additional information, contact Bill Richardson at (215) 814–5675.

SUPPLEMENTARY INFORMATION: Section 303(d) of the Clean Water Act requires that each State identify those waters (called “water quality-limited segments”) for which existing technology-based pollution controls are not stringent enough to attain or maintain State water quality standards

and for which total maximum daily loads (TMDLs) must be prepared. For those waters, States are required to establish TMDLs according to a priority ranking.

EPA’s Water Quality Planning and Management regulations include requirements related to the implementation of Section 303(d) of the CWA (40 CFR 130.7). The regulations require States to assemble and evaluate existing and readily-available water quality data and to identify water quality-limited segments still requiring TMDLs every two years. The list of waters still needing TMDL development must also include priority rankings and must identify the waters targeted for TMDL development during the next two years (40 CFR 130.7).

Consistent with EPA’s regulations, EPA received West Virginia’s submittal of its listing decisions under Section 303(d)(2) on April 13, 2015. On May 11, 2016, EPA partially approved West Virginia’s 2014 list of water quality-limited segments and associated priority ranking and partially disapproved West Virginia’s submission to the extent that West Virginia did not list sixty-one (61) water quality-limited segments based upon existing data and public input. EPA solicits public comment on the addition of these waters to the State’s list, as required by 40 CFR 130.7(d)(2).

Dated: May 24, 2016.

Jon M. Capacasa,

Director, Water Protection Division, U.S. Environmental Protection Agency, Region III.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. What should I consider as I prepare my comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through www.regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

II. Registration Applications

EPA has received applications to register new uses for pesticide products containing currently registered active ingredients. Pursuant to the provisions of FIFRA section 3(c)(4) (7 U.S.C. 136a(c)(4)), EPA is hereby providing notice of receipt and opportunity to comment on these applications. Notice of receipt of these applications does not imply a decision by the Agency on these applications.
