Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of subject merchandise entered or withdrawn from warehouse, for consumption, on or after the date of publication, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for Husteel, HYSCO, and SeAH will be equal to the respective weighted-average dumping margins established in the final results of this review; (2) for merchandise exported by manufacturers or exporters not covered in this review, but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which that manufacturer or exporter participated; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation but the manufacturer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the manufacturer of subject merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 4.80 percent, the “all others” rate established pursuant to a court decision.⁹ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers Regarding the Reimbursement of Duties

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

These final results of administrative review are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: June 10, 2016.

Certain Amorphous Silica Fabric From the People’s Republic of China: Postponement of Preliminary Determination of the Less-Than-Fair-Value Investigation

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* June 20, 2016.

FOR FURTHER INFORMATION CONTACT: Scott Hoefke at (202) 482–4947 or Mike Heaney at (202) 482–4475, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On February 16, 2016, the Department of Commerce (the Department) initiated an antidumping duty investigation on certain amorphous silica fabric from the People’s Republic of China.¹ The notice of initiation stated that the Department, in accordance with section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.205(b)(1), would issue its preliminary determination for this investigation, unless postponed, no later than 140 days after the date of the initiation. The deadline for the preliminary determination of this antidumping duty investigation is currently July 5, 2016.

Postponement of the Preliminary Determination

Section 733(c)(1)(A) of the Act permits the Department to postpone the time limit for the preliminary determination if it receives a timely request from the petitioner for postponement. The Department may postpone the preliminary determination under section 733(c)(1) of the Act until no later than 190 days after the date on which the Department initiates an investigation.

On June 1, 2016, Auburn Manufacturing, Inc. (the Petitioner) submitted a timely request pursuant to section 733(c)(1) of the Act and 19 CFR 351.205(e) for a 50-day postponement of the preliminary determination in this investigation.² The petitioner stated that

¹ See *Certain Amorphous Silica Fabric from the People’s Republic of China: Initiation of Less-Than-Fair-Value Investigation*, 81 FR 8913 (February 23, 2016).

² See Letter from Petitioner, “Certain Amorphous Silica Fabric from the People’s Republic of China:

a postponement is necessary for the Department to conduct a complete and thorough analysis. The petitioner further stated that a postponement is needed to allow time to address the various deficiencies in the questionnaire responses submitted in this case. The petitioner submitted its request more than 25 days before the scheduled date of the preliminary determination.³

For the reasons stated above, and because there are no compelling reasons to deny the petitioner's request, the Department is postponing the preliminary determination in this investigation in accordance with section 733(c)(1)(A) of the Act and 19 CFR 351.205(b)(2) by 50 days until August 24, 2016.

The deadline for the final determination will continue to be 75 days after the date of the preliminary determination, unless postponed at a later date.

This notice is issued and published pursuant to section 733(c)(1) of the Act and 19 CFR 351.205(f)(1).

Dated: June 13, 2016.

Assistant Secretary for Enforcement and Compliance.

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of intent to prepare an Environmental Impact Statement; request for comments.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA), this notice announces that NMFS intends to obtain information necessary to prepare an Environmental Impact Statement (EIS) for 11 Hatchery and Genetic Management Plans (HGMPs) for salmon hatchery programs jointly submitted by the Washington Department of Fish and Wildlife (WDFW), the Lummi Nation, the Nooksack Indian Tribe, the Upper Skagit Indian Tribe, and the Swinomish Indian Tribal Community (referred to as

the co-managers), for NMFS's evaluation and determination under Limit 6 of the Endangered Species Act (ESA) 4(d) Rule for threatened salmon and steelhead. The HGMPs specify the propagation of salmon in the Nooksack River Basin in Washington State.

NMFS provides this notice to advise other agencies and the public of its plans to analyze effects related to the action, and obtain suggestions and information that may be useful to the scope of issues and alternatives to include in the EIS.

DATES: Written or electronic scoping comments must be received at the appropriate address or email mailbox (see **ADDRESSES**) no later than 5 p.m. Pacific Time July 20, 2016.

ADDRESSES: Written comments may be sent by any of the following methods:

- *Email to the following address:*

NooksackHatcheriesEIS.wcr@noaa.gov with the following identifier in the subject line: Nooksack Hatcheries Scoping.

- Mail or hand-deliver to NMFS Sustainable Fisheries Division, 510 Desmond Drive SE., Suite 103, Lacey, WA 98503.

- Fax to (360) 753-9517.

Comments received will be available for public inspection, by appointment, during normal business hours at the above address. All Personal Identifying Information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

ESA-Listed Species Covered in This Notice

Steelhead (*Oncorhynchus mykiss*): Threatened, naturally and artificially produced in Puget Sound.

Chinook salmon (*O. tshawytscha*): Threatened, naturally and artificially produced in Puget Sound.

Chum salmon (*O. keta*): Threatened, naturally and artificially produced Hood Canal summer-run.

Bull trout (*Salvelinus confluentus*): Threatened Puget Sound/Washington Coast.

Background

The WDFW, the Lummi Nation, the Nooksack Indian Tribe, the Upper Skagit Indian Tribe, and the Swinomish Indian Tribal Community, have jointly submitted to NMFS HGMPs for 11

hatchery programs in the Nooksack River Basin in Washington State. The HGMPs were updated and submitted to NMFS from 2013 to 2015, pursuant to limit 6 of the 4(d) Rule for salmon and steelhead. The hatchery programs include releases of ESA-listed Chinook salmon, and non-listed coho, pink, and fall-run chum salmon into the Nooksack River Basin.

NEPA requires Federal agencies to conduct environmental analyses of their proposed major actions to determine if the actions may affect the human environment. NMFS's action of determining that the co-managers' HGMPs meet criteria under Limit 6 of the 4(d) Rule for salmon and steelhead promulgated under the ESA, is a major Federal action subject to environmental review under NEPA. Therefore, NMFS is seeking public input on the scope of the required NEPA analysis, including the range of reasonable alternatives, recommendations for relevant analysis methods, and information associated with impacts of the alternatives to the resources listed below or other relevant resources.

NMFS will perform an environmental review of the HGMPs and prepare an EIS that will identify potentially significant direct, indirect, and cumulative impacts on the following resources that may be affected by the Proposed Action or its alternatives:

- Listed and Non-listed Species and their habitats
- Water Quantity
- Socioeconomics
- Environmental Justice
- Cumulative Impacts

NMFS will rigorously explore and objectively evaluate a full range of reasonable alternatives in the EIS, including the Proposed Action and a no-action alternative. Other alternatives may include a decreased production alternative.

For all potentially significant impacts, the EIS will identify measures to avoid, minimize, and mitigate the impacts, where feasible.

Request for Comments

NMFS provides this notice to: (1) Advise other agencies and the public of its plans to analyze effects related to the action, and (2) obtain suggestions and information that may be useful to the scope of issues and the full range of alternatives to include in the EIS.

NMFS invites comment from all interested parties to ensure that the full range of issues related to the 11 salmon HGMPs is identified. Comments should be as specific as possible.
