SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency

(FEMA) is authorized to establish and carry out a National Flood Insurance Program (NFIP) to enable interested persons to purchase insurance against flood loss. *See*, 42 U.S.C. 4001 *et seq.* Flood insurance under the NFIP can be sold or renewed only within a community that has adopted adequate floodplain management regulations consistent with the Federal criteria in the NFIP regulations. *See*, 44 CFR 60.3. FEMA's minimum floodplain management criteria require that all new construction and substantial improvements of residential structures within Zones A1–30, AE and AH have the lowest floor, including the basement, elevated at or above the base flood level. FEMA can grant an exception to this rule after a community submits a proposal to FEMA to adopt standards for floodproofing residential basements below the base flood level in zones A1–30, AH, AO, and AE in accordance with 44 CFR 60.6(c). When FEMA grants an exception to a community under 44 CFR 60.6(c), property owners in these communities submit a Residential Basement Floodproofing Certificate with their NFIP application for flood insurance for rating purposes. The certification also provides community officials with information to determine compliance with the community's floodplain management ordinance.

Collection of Information

Title: Residential Basement Floodproofing Certification.

Type of Information Collection: Revision of a currently approved information collection.

OMB Number: 1660–0033.

Residential structures with certification showing the building is floodproofed to at least 1 foot above the BFE are eligible for lower rates on flood insurance.
