Assessment Report of Ecological, Social and Economic Conditions, Trends and Sustainability for the Manti-La Sal National Forest

AGENCY: Forest Service, USDA.

ACTION: Notice of initiating the Assessment phase of the Forest Plan revision for the Manti-La Sal National Forest.

SUMMARY: The Manti-La Sal National Forest (Forest), located in central and southeastern Utah and southwestern Colorado, is initiating the first phase of the Forest Planning process pursuant to the 2012 National Forest System Land Management Planning rule (36 CFR part 219). This process will result in a revised forest land management plan (Forest Plan) which provides strategic direction for management of resources on the Manti-La Sal National Forest for the next fifteen years. The first phase of the planning process involves assessing ecological, social and economic conditions and trends in the planning area and documenting the findings in an Assessment report.

The Assessment phase is just beginning on the Manti-La Sal National Forest and interested parties are invited to contribute to the development of the Assessment. The Forest will be hosting public meetings to explain the revision process and invite the public to share information relevant to the Assessment. At the public meetings the Forest will seek sources of existing information and local knowledge of current conditions and trends in the natural resources,

social values, and goods and services produced by lands within the Manti-La Sal National Forest.

DATES: Public meetings to discuss development of the Assessment will be held in September 2016. Dates and locations will be posted on the Forest Web site (<http://www.fs.usda.gov/detail/mantilasal/landmanagement/planning/?cid=fseprd509713>) and mailed to individuals and organizations on the mailing list. A draft of the Assessment report is anticipated to be posted at the Web site cited above in early 2017. Following completion of the Assessment, the Forest will initiate procedures pursuant to the National Environmental Policy Act (NEPA) to prepare and evaluate a revised Forest Plan.

ADDRESSES: Written correspondence can be sent to: Manti-La Sal National Forest, Attn: Forest Plan Revision, 599 West Price River Drive, Ste. A, Price, UT 84501; or emailed to mlnfplanrevision@fs.fed.us.

FOR FURTHER INFORMATION CONTACT: Blake Bassett, Forest Plan Revision Partnership Coordinator, at the mailing address above; or call 435-636-3508. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m. Eastern Time, Monday through Friday. More information on our plan revision process is available on the Forest's planning Web site at <http://www.fs.usda.gov/detail/mantilasal/landmanagement/planning/?cid=fseprd509713>. You may also contact us by email at: mlnfplanrevision@fs.fed.us.

SUPPLEMENTARY INFORMATION: The National Forest Management Act (NFMA) of 1976 requires that every National Forest System (NFS) unit develop and periodically revise a Forest Plan. The procedures for doing this are in federal regulation ("Planning Rule," 36 CFR 219) and in Forest Service directives. Forest Plans provide strategic direction for managing forest resources for around fifteen years, and are adaptive and amendable as conditions change over time.

Under the Planning Rule, an Assessment of ecological, social, and economic conditions and trends in the planning area is the first phase of a 3-phase planning process (36 CFR 219.6). The second phase is guided, in part, by the National Environmental Policy Act (NEPA). It includes preparation of a draft revised Forest Plan, one or more alternatives to the draft plan, and a draft environmental impact statement (DEIS) for public review and comment. This is

followed by a final environmental impact statement (FEIS) and draft decision. The draft decision is subject to the objection procedures of 36 CFR part 219, subpart B, before it can be finalized. The third phase of the process is implementation and monitoring, which is ongoing over the life of the revised Forest Plan.

This notice announces the start of the Manti-La Sal National Forest's Assessment process. The Assessment will rapidly evaluate existing information about relevant ecological, economic, cultural and social conditions, trends and sustainability and their relationship to the current Forest Plan within the context of the broader landscape. The Assessment does not include any decisions or require any actions on the ground. Its purpose is to provide a solid base of information that will be used to identify preliminary needs for change in the current Forest Plan, and to inform development of a revised plan.

With this notice, the Manti-La Sal National Forest invites other governments, non-governmental parties, and the public to contribute to Assessment development. The intent of public participation during this phase is to identify as much relevant information as possible to inform the plan revision process. We also encourage contributors to share their concerns and perceptions of risk to social, economic, and ecological systems in or connected to the planning area.

As public engagement opportunities are scheduled, public announcements will be made and information will be posted on the Forest's Web site: <http://www.fs.usda.gov/detail/mantilasal/landmanagement/planning/?cid=fseprd509713>. To contribute information or ask to be added to our mailing list, please call 435-636-3508 or email mlnfplanrevision@fs.fed.us.

Responsible Official

The responsible official for the revision of the land management plan for the Manti-La Sal National Forest is the Forest Supervisor, Mark Pentecost, Manti-La Sal National Forest, 599 West Price River Drive, Ste. A, Price, Utah 84501.

Dated: July 25, 2016.

Brian M. Pentecost,
Forest Supervisor.

Natural Resources Conservation Service

[Docket No. NRCS-2016-0005]

Mountain Run Watershed Dam No. 50, Culpeper County, Virginia

AGENCY: Natural Resources Conservation Service (NRCS), U.S. Department of Agriculture (USDA).

ACTION: Notice of a Finding of No Significant Impact.

SUMMARY: Pursuant to Section 102[2][c] of the National Environmental Policy Act of 1969, the Council on Environmental Quality Regulations, and the Natural Resources Conservation Service Regulations, NRCS gives notice that an environmental impact statement is not being prepared for the rehabilitation of Mountain Run Watershed Dam No. 50, Culpeper County, Virginia.

FOR FURTHER INFORMATION CONTACT: John A. Bricker, State Conservationist, Natural Resources Conservation Service, 1606 Santa Rosa Road, Suite 209, Richmond, Virginia 23229. Telephone (804) 287-1691, email jack.bricker@va.usda.gov.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, John A. Bricker, State Conservationist, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project purpose is continued flood prevention. The planned works of improvement include upgrading an existing multi-purpose flood control and water supply structure.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the various Federal, State, and local agencies and interested parties. A limited number of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting John A. Bricker at the above number.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.
