The meeting will be live-streamed. The meeting site is accessible to individuals with disabilities. An individual with a disability needing an auxiliary aid or service to participate in

the meeting, such as an interpreting service, assistive listening device, or materials in an alternate format, must notify Ms. DeLorme two weeks before the scheduled meeting date. Although the BLM will attempt to meet a request received after that date, the requested auxiliary aid or service may not be available because of insufficient time to arrange for it.

The Federal Advisory Committee Management Regulations at 41 CFR 101-6.1015(b), requires the BLM to publish in the **Federal Register** notice of a public meeting 15 days prior to the meeting date.

II. Public Comment Procedures

On Thursday, September 8 at 3:30 p.m., members of the public will have the opportunity to make comments to the Board on the Wild Horse and Burro Program. Persons wishing to make comments during the meeting should register in person with the BLM by 3:00 p.m. on September 8, 2016, at the meeting location. Depending on the number of commenters, the Advisory Board may limit the length of comments. At previous meetings, comments have been limited to three minutes in length; however, this time may vary. Speakers are requested to submit a written copy of their statement to the address listed in the **ADDRESSES** section above, email comments to whbadvisoryboard@blm.gov, or bring a written copy to the meeting. There may be a webcam present during the entire meeting and individual comments may be recorded.

Participation in the Advisory Board meeting is not a prerequisite for submission of written comments. The BLM invites written comments from all interested parties. Your written comments should be specific and explain the reason for any recommendation. The BLM appreciates any and all comments. The BLM considers comments that are either supported by quantitative information or studies or those that include citations to and analysis of applicable laws and regulations to be the most useful and likely to influence the BLM's decisions on the management and protection of wild horses and burros.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask in your comment that the BLM withhold your personal identifying information from public

review, the BLM cannot guarantee that it will be able to do so.

Authority: 43 CFR 1784.4–1

Notice of Intent To Prepare a Supplemental Environmental Impact Statement for the Alpine Satellite Development Plan for the Proposed Greater Mooses Tooth 2 Development Project, Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended (NEPA), the Federal Land Policy and Management Act of 1976, as amended (FLPMA), and the Alaska National Interest Lands Conservation Act of 1980, as amended (ANILCA), the Bureau of Land Management (BLM) Arctic Field Office, Fairbanks, Alaska, intends to prepare a Supplemental Environmental Impact Statement (EIS) for the proposed continuing development of petroleum resources in the Greater Mooses Tooth (GMT) Unit. The development would occur at the proposed Greater Mooses Tooth Two (GMT2) drilling and production pad located within the National Petroleum Reserve in Alaska (NPR–A), a 22.8 million-acre area of BLM-managed land located 200 miles north of the Arctic Circle. The GMT2 development would be connected by road and pipeline to the approved Greater Mooses Tooth One (GMT1) development. The Supplemental EIS is being prepared for the purpose of supplementing the Alpine Satellite Development Plan (ASDP) Final EIS, dated September 2004, regarding the establishment of satellite oil production pads and associated infrastructure within the Alpine field.

DATES: Comments on relevant issues that will influence the scope of the supplemental EIS for the proposed GMT2 Development project may be submitted in writing until August 29, 2016. The BLM will provide opportunities for public participation upon publication of the Draft

Supplemental EIS, including public meetings and a public comment period. Any Federal, state, or local agency or tribe that is interested in serving as a cooperating agency for the development of the Supplemental EIS are asked to submit such requests to the BLM by August 29, 2016.

ADDRESSES: You may submit comments until August 29, 2016 on issues related to the proposed GMT2 Development Project by any of the following methods:

- **Email:**

BLM AK GMT2 Comments@blm.gov.

- **Fax:** 907–271–5479.

- **Mail:** GMT2 Scoping Comments, Bureau of Land Management, 222 West 7th Ave., Stop #13, Anchorage, AK 99513.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. You may examine documents pertinent to this proposal at the BLM Alaska Public Room, Fairbanks District Office, 1150 University Ave., Fairbanks, AK 99709, and at the BLM Alaska Public Information Center, Alaska State Office, 222 West 7th Ave., Anchorage, AK 99513.

FOR FURTHER INFORMATION CONTACT:

Stacie McIntosh, Arctic Field Office Manager, 907–474–2310, Bureau of Land Management, 1150 University Avenue, Fairbanks, AK 99709. Also contact Ms. McIntosh if you wish to add your name to the mailing list to receive further information about this project. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: On August 24, 2015, ConocoPhillips Alaska, Inc. (CPAI) submitted an Application for Permit to Drill (APD) an oil well and construct associated ancillary facilities to support up to 48 wells, including a production pad, pipeline, and road to facilitate development of petroleum resources within the Greater Mooses Tooth (GMT) Unit. The well site is named GMT2. The proposed project is located on Alaska's North Slope within

the NPR–A, which encompasses approximately 22.8 million acres of public land. The project would facilitate production of oil from Federal and Alaska Native corporation lands within the NPR–A. The GMT2 project proposes a drill site on land currently managed by the BLM within the GMT Unit. This land is selected for conveyance by the Kuukpik Corporation, an Alaska Native corporation organized under the Alaska Native Claims Settlement Act of 1971 (ANCSA). The GMT2 site is approximately 15 miles west of the community of Nuiqsut. The associated pipeline and access road would traverse both Kuukpik Corporation lands and Federal lands within NPR–A for approximately 8.1 miles in a northeasterly direction to the Greater Mooses Tooth One (GMT1) development project, which was approved in February 2015 after its Final Supplemental EIS was completed in October 2014. At GMT1, the pipeline would connect to the approved GMT1 pipeline. From GMT1, produced oil, gas, and water would be carried via this pipeline across Kuukpik Corporation lands and Federal lands within the NPR–A, and across Alaska Native corporation lands and State of Alaska lands outside the NPR–A, to the Alpine Central Processing Facility (CD–1). Sales-quality crude would then be transported from CD–1 via pipeline to the Trans-Alaska Pipeline System.

CPAI proposes placement of 78 acres of fill material to construct the GMT2 drill pad, an approximately 8.1-mile-long gravel access road, and an 8.6-mile-long pipeline, which includes electrical and communication cables, from the GMT1 pad. Gravel required for construction of the drill site and road would be obtained from the Arctic Slope Regional Corporation (ASRC) mine site, an existing commercial gravel source located on the east side of the Colville River outside the boundary of the NPR–A, approximately 15 miles east of the proposed site. The proposed GMT2 pad would be approximately 14 acres in size, would eventually contain up to 48 individual wells, and would be operated and maintained by staff from CD–1, who would travel to the site via the gravel road.

The purpose of the Supplemental EIS is to evaluate new circumstances and information that have arisen since the ASDP Final EIS was issued in September 2004, as well as to address any changes in CPAI's proposed development plan for GMT2. A version of the GMT2 project was initially approved in the Record of Decision (ROD) under the 2004 ASDP Final EIS as site CD–7, and was included as
