

whether the information will have practical utility;

2. Improve the accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are required to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Conclusion

This notice summarizes the EEOC's proposal to submit a revised EEO-1 to OMB for 3-year PRA approval to require private employer filers, as well as most federal government contractor filers, to submit data on employee pay starting with the 2017 reporting cycle. This data collection would meet the statistical needs of both the EEOC and OFCCP. It would also enable employers to self-assess their pay practices and policies and thereby support voluntary compliance. In developing this PRA proposal, the EEOC has balanced enforcement objectives with the burden and confidentiality concerns of respondents.
