[Docket No. FAA–2015–4532; Airspace Docket No. 15–AEA–10]

Amendment of Class E Airspace for the following New York Towns; Ithaca, NY; Poughkeepsie, NY

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E Airspace at Ithaca Tompkins Regional Airport, Ithaca, NY; and Kingston VORTAC, Poughkeepsie, NY, by eliminating the Notice to Airmen (NOTAM) part time status of the Class E surface airspace designated as an extension at the Ithaca and Poughkeepsie locations. This action also adds Dutchess County Airport to the Kingston VORTAC designation, updates the geographic coordinates of each navigation aid and Ithaca Tompkins Regional to coincide with the FAA's aeronautical database, and recognizes the airport name for Ithaca Tompkins Regional Airport. This is an administrative change to coincide with the FAA's aeronautical database.

DATES: Effective 0901 UTC, March 31, 2016. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part, A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends Class E airspace at the New York airports listed in this final rule.

History

In a review of the airspace, the FAA found the airspace description for Ithaca Tompkins Regional Airport, Ithaca, NY, formerly Tompkins County Airport, and Kingston VORTAC, Poughkeepsie, NY, as published in FAA Order 7400.9Z, Airspace Designations and Reporting Points, does not match the FAA's charting information. This administrative change coincides with the FAA's aeronautical database for Class E Airspace Designated as an Extension to a Class D Surface Area.

Class E airspace designations are published in paragraphs 6004 of FAA Order 7400.9Z dated August 6, 2015, and effective September 15, 2015, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.9Z, Airspace Designations and Reporting Points, dated August 6, 2015, and effective September 15, 2015. FAA Order 7400.9Z is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.9Z lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by eliminating the NOTAM information that reads “This Class E airspace area is effective during the specific dates and

time established in advance by Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.” from the regulatory text of the Class E airspace designated as an extension to Class D at Ithaca Tompkins Regional Airport, Ithaca, NY; and the Kingston VORTAC, Poughkeepsie, NY. Also, as Dutchess County Airport, Poughkeepsie, NY, is supported by the Kingston VORTAC, it is included in the VORTAC designation.

Additionally, the geographic coordinates for the listed nav aids and Ithaca Tompkins Regional Airport are updated to be in concert with the FAA’s aeronautical database. The FAA also recognizes the airport’s name change from Tompkins County Airport, Ithaca, NY, to Ithaca Tompkins Regional Airport, Ithaca, NY.

This is an administrative change amending the description for the above New York airports, to be in concert with the FAA’s aeronautical database, and does not affect the boundaries, or operating requirements of the airspace, therefore, notice and public procedure under 5 U.S.C. 553(b) are unnecessary.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
