

national marine sanctuaries and marine national monuments managed or co-managed by NOAA's ONMS.

The visitor survey will be conducted to obtain an objective analysis of visitor experiences within a sanctuary visitor center or at a partner venue that includes an exhibit or kiosk with information on a national marine sanctuary or marine national monument. Information will be obtained on visitor satisfaction with the overall exhibits or kiosks, graphics, multi-media products, interactives, along with the overall feelings about the facilities and services offered at the centers/venues. The survey will acquire data on the effectiveness of sanctuary/monument messaging, awareness about and use of sanctuary/monument resources, as well as additional recreational and/or educational opportunities available to the public. Lastly, the survey will include questions about visitor demographics.

The information will aid NOAA's Office of National Marine Sanctuaries budget allocation and prioritization, strategic planning, and management review process to better interpret the sanctuary/monument system and engage with constituents and the larger community on resource protection and conservation topics. Survey results will be used by sanctuary/monument site superintendents to improve visitor services where the survey is administered and will also aide sanctuary/monument headquarters communication and education staff to more effectively communicate key messages. In addition, the survey data will contribute to NOAA and DOC performance reports and year end summaries.

## II. Method of Collection

The surveys will be conducted in person or through web applications at kiosks.
