SUPPLEMENTARY INFORMATION:

A. Purpose

The Data Universal Numbering System (DUNS) number is the nine-digit identification number assigned by Dun and Bradstreet Information Services to an establishment. The Government uses the DUNS number to identify contractors in reporting to the Federal Procurement Data System (FPDS). The FPDS provides a comprehensive mechanism for assembling, organizing, and presenting contract placement data for the Federal Government. Federal agencies report data on all contracts in excess of the micro-purchase threshold to the Federal Procurement Data Center which collects, processes, and disseminates official statistical data on Federal contracting. Contracting officers insert the Federal Acquisition Regulation (FAR) provision at 52.204-6, Data Universal Numbering System (DUNS) Number, in solicitations they expect will result in contracts in excess of the micro-purchase threshold and do not contain FAR 52.204-7, Central Contractor Registration. The majority of offerors submit their DUNS through CCR as required by FAR 52.204-7, and not under the FAR provision at 52.204-6.

B. Annual Reporting Burden

Respondents: 22,070.
Responses per Respondent: 3.
Annual Responses: 66,210.
Hours per Response: .1666.
Total Burden Hours: 11,031.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical

utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies of Proposals:

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202-501-4755. Please cite OMB Control Number 9000-0145, Use of Data Universal Numbering System (DUNS) as Primary Contractor Identification, in all correspondence.
