

management of the standard instrument approach procedures for IFR operations.

### Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Docket No. 16–ACE–9]

#### Amendment of Class E Airspace; Mapleton, IA

**AGENCY:** Federal Aviation  
Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action modifies Class E airspace extending upward from 700 feet above the surface at James G. Whiting Memorial Field Airport, Mapleton, IA. Decommissioning of the Mapleton non-directional radio beacon (NDB), cancellation of NDB approaches, and implementation of area navigation (RNAV) procedures have made this action necessary for the safety and management of Instrument Flight Rules (IFR) operations at the airport.

**DATES:** Effective 0901 UTC, June 22, 2017. The Director of the Federal Register approves this incorporation by reference action under Title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

**ADDRESSES:** FAA Order 7400.11A, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at [http://www.faa.gov/air\\_traffic/publications/](http://www.faa.gov/air_traffic/publications/). #### SUPPLEMENTARY INFORMATION:

#### Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies Class E airspace at James G. Whiting Memorial Field Airport, Mapleton, IA.

#### History

On September 8, 2016, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM), (81 FR 62040) Docket No. FAA–2016–8834, to amend Class E airspace at James G. Whiting Memorial Field Airport, Mapleton, IA. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11A, dated August 3, 2016, and effective September 15, 2016, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

#### Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11A, Airspace Designations and Reporting Points, dated August 3, 2016,

and effective September 15, 2016. FAA Order 7400.11A is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11A lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

### The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 modifies Class E airspace extending upward from 700 feet above the surface within a 6.6-mile radius (increased from the 6.3-mile radius) of James G. Whiting Memorial Field Airport, Mapleton, IA, with an extension southwest of the airport from the 6.6-mile radius to 10.3 miles. The segment extending 10 miles northeast of the airport is removed.

Airspace reconfiguration is necessary due to the decommissioning of the Mapleton NDB, cancellation of NDB approaches, and implementation of RNAV procedures at the airport and for the safety and management of the standard instrument approach procedures for IFR operations at the airport.

### Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. #### I. Introduction

On December 19, 2016, the Commission issued a notice of proposed rulemaking to revise its regulations governing requests for agency records made under the Freedom of Information Act (FOIA), 5 U.S.C. 552, to comply with the FOIA Improvement Act of 2016 (the Act), Public Law 114–185, 130 Stat. 538 (2016).<sup>1</sup> For the reasons discussed below, the Commission adopts the following final rules, which include minor revisions to the proposed rules.

#### II. Background

The FOIA Improvement Act of 2016 was signed into law on June 30, 2016. Among other things, the Act expands the dispute resolution process available to requesters, limits the use of FOIA exemptions, and codifies the so-called “Rule of 3” for frequently requested records.

On December 19, 2016, the Commission issued Order No. 3671, introducing proposed revisions to its rules. As Order No. 3671 indicates, revisions to the affected sections of 39 CFR part 3004 are necessary to implement the Act.

#### III. Review of Comments

The Commission received two sets of comments on the proposed rules. The National Archives and Records Administration’s Office of Government Information Services (OGIS) and the Public Representative submitted comments.<sup>2</sup>

##### A. OGIS Comments

*Comments.* OGIS notes that it has a statutory mandate under FOIA to offer

<sup>1</sup> Notice of Proposed Rulemaking to Revise Procedures for the Freedom of Information Act, December 19, 2016 (Order No. 3671).

<sup>2</sup> Comments of National Archives and Records Administration on Proposed Rulemaking to Change its Freedom of Information Act Regulation, 39 CFR part 3004, Docket No. 2016–30905, January 26, 2017 (OGIS Comments); Public Representative Comments on Notice of Proposed Rulemaking to Revise Procedures for the Freedom of Information Act, January 26, 2017 (PR Comments).
