Utility Scale Wind Towers From the Socialist Republic of Vietnam: Notice of Court Decision Not in Harmony With the Final Determination of Less Than Fair Value Investigation and Notice of Amended Final Determination of Investigation

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On March 16, 2017, the United States Court of International Trade (CIT or Court) issued its final judgment, affirming the Department of Commerce's (the Department) final results of redetermination concerning the less-than-fair-value investigation

(LTFV) of utility scale wind towers from the Socialist Republic of Vietnam (Vietnam). The Department is notifying the public that the Court's final judgment in this case is not in harmony with the Department's final determination in the LTFV investigation on utility scale wind towers from Vietnam, and is amending the final determination with respect to CS Wind Vietnam Co., Ltd. and CS Wind Corporation (collectively, CS Wind Group).

DATES: Effective March 26, 2017.

FOR FURTHER INFORMATION CONTACT:

Trisha Tran, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4852.

SUPPLEMENTARY INFORMATION:

Background

On February 15, 2013, the Department published its amended final determination and antidumping duty order in this proceeding.¹ The CS Wind Group appealed the *Wind Towers Final Determination* to the CIT, and on March 27, 2014, the CIT remanded the *Wind Towers Final Determination* to the Department.² On July 29, 2014, the Department filed its results of redetermination pursuant to remand in accordance with the CIT's order.³

On November 3, 2014, the CIT affirmed, in part, and remanded in part, the Department's *Final First Redetermination*, which resulted in a weighted-average dumping margin of 17.07 percent for the CS Wind Group.⁴ In the *Final Second Redetermination*, the Department revised its calculation of certain surrogate financial ratios.⁵ The Court affirmed the Department's second remand in its entirety on May 11, 2015, which resulted in a weighted-average dumping margin of 17.02 percent for the CS Wind Group.⁶

The CS Wind Group challenged the CIT's affirmation of the Department's *Final Second Redetermination*. On August 12, 2016, the CAFC directed the CIT to remand the matter to the Department, and in so doing: (1) reversed the CIT's affirmation of the Department's use of packing weights rather than the factors of production (FOP) weights in its calculation of surrogate value; and, (2) vacated and remanded the CIT's overhead determination with respect to jobwork charges, erection expenses, and civil expenses.⁷ The Department issued its
