

by the Every Student Succeeds Act (ESSA), which reauthorizes and amends the authorizing statute, ESEA. The changes to MEP eligibility criteria must be reflected on the national Certificate of Eligibility (COE), which is an information collection required by 34 CFR 200.89(c).

There was an overall reduction in SEA burden and responses. The reduction in burden and responses was achieved not as a result of deliberate Federal government action, but rather due to decreases in the number of eligible migratory children, the number of SEAs participating in the MEP, and the number of SEAs that the Department expects will be required to implement retrospective re-interviewing. The burden per respondent for the COE as described in 34 CFR 200.89(c) remains the same because although some additional burden is incurred as a result of the added questions (needed to demonstrate compliance with the new statutory language in ESSA), there was an equivalent reduction in burden achieved by the removal of previously included questions (which were needed to demonstrate compliance with the statute, prior to its amendment by ESSA). The annualized burden of 34 CFR 200.83, 200.84, and 200.88 was changed due to those costs occurring at least once per ESEA authorization period of four years (previously six years).

Dated: March 31, 2017.

Stephanie Valentine,

Acting Director, Information Collection Clearance Division, Office of the Chief Privacy Officer, Office of Management.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Revision of a Currently Approved Information Collection for the State Energy Program

AGENCY: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy (DOE).

ACTION: Submission for Office of Management and Budget (OMB) review; public comment request.

SUMMARY: The Department of Energy (DOE) invites public comment on a revision of a currently approved collection of information that DOE is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995. The information collection requests a revision and three-year extension of its State Energy Program.

DATES: Comments regarding this revision to an approved information collection must be received on or before May 5, 2017. If you anticipate difficulty in submitting comments within that period, contact the person listed in **ADDRESSES** as soon as possible.

ADDRESSES: Written comments may be sent to: Sallie Glaize, EE-5W, U.S. Department of Energy, 1000 Independence Ave. SW., Washington, DC 20585; Email: Sallie.Glaize@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to: Gregory Davoren, U.S. Department of Energy, 1000 Independence Ave. SW., Washington, DC 20585; Phone: (202) 287-1706; Fax: (412) 386-5835; Email: Gregory.Davoren@ee.doe.gov.

Additional information and reporting guidance concerning the State Energy Program (SEP) is available for review at the following Web site: <http://www1.eere.energy.gov/wip/sep.html>.

SUPPLEMENTARY INFORMATION: The proposed action will continue the collection of information on the status of grantee activities, expenditures, and results, to ensure that program funds are being used appropriately, effectively and expeditiously.

Comments are invited on: (a) Whether the revision of the currently approved collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden pertaining to the approved collection of information, including the validity of the methodology and assumptions used; (c) ways to further enhance the quality, utility, and clarity of the information being collected; and (d) ways to further minimize the burden regarding the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

This information collection request contains: (1) OMB No. 1910-5126; (2) Information Collection Request Title: State Energy Program; (3) Type of Review: Revision of a Currently Approved Information Collection; (4) Purpose: To collect information on the status of grantee activities, expenditures, and results, to ensure that program funds are being used appropriately, effectively and expeditiously; (5) Annual Estimated Number of Respondents: 56; (6) Annual Estimated Number of Total Responses:

224; (7) Annual Estimated Number of Burden Hours: 7,600; (8) Annual Estimated Reporting and Recordkeeping Cost Burden: \$304,000.

Statutory Authority: Title V, Subtitle E of the Energy Independence and Security Act (EISA), Pub. L. 110-140, as amended (42 U.S.C. 17151 *et seq.*).

Issued in Washington, DC, February 28, 2017.

Gregory Davoren,

Lead Energy Project Specialist, Weatherization and Intergovernmental Program Office of Energy Efficiency and Renewable Energy.

[FR Doc. 2017-06478 Filed 4-4-17; 8:45 am]

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[OE Docket No. EA-211-D]

Application To Export Electric Energy; DTE Energy Trading, Inc.

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

SUMMARY: DTE Energy Trading, Inc. (Applicant or DTE Energy Trading) has applied to renew its authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before May 5, 2017.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202-586-8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On July 13, 2012, DOE issued Order No. EA-211-C to DTE Energy Trading, which authorized the Applicant to transmit electric energy from the United States to Canada as a power marketer for a five-year term using existing

international transmission facilities. That authority expires on July 13, 2017. On March 13, 2017, DTE Energy Trading filed an application with DOE for renewal of the export authority contained in Order No. EA-211 for an additional five-year term.

In its application, DTE Energy Trading states that it does not own or operate any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that DTE Energy Trading proposes to export to Canada would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by TPS have previously been authorized by Presidential Permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning DTE Energy Trading's application to export electric energy to Canada should be clearly marked with OE Docket No. EA-211-D. An additional copy is to be provided directly to both Cynthia Klots, DTE Energy Trading, Inc., 414 S. Main Street, Suite 200, Ann Arbor, MI 48104 and Jane E. Rueger, White & Case LLP, 701 13th St. NW., Washington, DC 20005.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/>

node/11845, or by emailing Angela Troy at Angela.Troy@hq.doe.gov.

Issued in Washington, DC, on March 21, 2017.

Christopher Lawrence,

Electricity Policy Analyst, Office of Electricity Delivery and Energy Reliability.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

[Case No. BC-001]

Energy Conservation Program for Consumer Products: Decision and Order Granting a Waiver to Dyson, Inc. From the Department of Energy Battery Charger Test Procedure

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Decision and order.

SUMMARY: The U.S. Department of Energy (DOE) gives notice of a decision and order (Case No. BC-001) that grants to Dyson, Inc. (Dyson) a waiver from the DOE test procedure for determining the energy consumption of battery chargers. Under this decision and order, Dyson is required to test and rate the battery charger used in its robotic vacuum cleaner model RB01, marketed as the Dyson 360-Eye (Robot) using an alternate test procedure to turn off functions not associated with the battery charging process during the charge and maintenance mode test by isolating a terminal of the battery pack using isolating tape when measuring energy consumption.

DATES: This Decision and Order is effective April 5, 2017.

FOR FURTHER INFORMATION CONTACT: Mr. Bryan Berringer, U.S. Department of Energy, Building Technologies Program, Mail Stop EE-5B, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585-0121. Telephone: (202) 586-0371. Email: AS_Waiver_Requests@ee.doe.gov.

Mr. Peter Cochran, U.S. Department of Energy, Office of the General Counsel, Mail Stop GC-33, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585-0103. Telephone: (202) 586-9496. Email: Peter.Cochran@hq.doe.gov.

SUPPLEMENTARY INFORMATION: In accordance with Title 10 of the Code of Federal Regulations (10 CFR 430.27(f)(2)), DOE gives notice of the issuance of its decision and order as set

forth below. The decision and order grants Dyson a waiver from the applicable battery charger test procedure in 10 CFR part 430, subpart B, appendix Y for the battery charger used in their robotic vacuum cleaner model RB01, marketed as the Dyson 360-Eye ("Robot"), provided that Dyson tests and rates such products using the alternate test procedure described in this notice. Dyson's representations concerning the energy efficiency of this product must be based on testing consistent with the provisions and restrictions in the alternate test procedure set forth in the decision and order below, and the representations must fairly disclose the test results. Distributors, retailers, and private labelers are held to the same standard when making representations regarding the energy efficiency of these products. (42 U.S.C. 6293(c))

Not later than June 5, 2017, any manufacturer currently distributing in commerce in the United States a product employing a technology or characteristic that results in the same need for a waiver from the battery charger test procedure must submit a petition for waiver. 10 CFR 430.27(j). Manufacturers not currently distributing such products in commerce in the United States must petition for and be granted a waiver prior to distribution in commerce in the United States. Manufacturers may also submit a request for interim waiver pursuant to the requirements of 10 CFR 430.27.

Issued in Washington, DC, on March 27, 2017.

Steven G. Chalk,

Acting Assistant Secretary, Energy Efficiency and Renewable Energy.

Decision and Order

In the Matter of: Dyson, Inc. (Case No. BC-001)

I. Background and Authority

Title III, Part B¹ of the Energy Policy and Conservation Act of 1975 (EPCA), Public Law 94-163 (42 U.S.C. 6291-6309, as codified) established the Energy Conservation Program for Consumer Products Other Than Automobiles, a program that includes battery chargers.² Part B includes definitions, test procedures, labeling provisions, energy conservation standards, and the authority to require information and reports from manufacturers. Further, Part B

¹ For editorial reasons, upon codification in the U.S. Code, Part B was redesignated as Part A.

² All references to EPCA in this document refer to the statute as amended through the Energy Efficiency Improvement Act of 2015 (EEIA), Public Law 114-11 (April 30, 2015).
