II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on October 28, 2016 (81 FR 75167).

Additional information regarding these transactions shall be submitted through Form 740M, with Safeguards Information identified and handled in accordance with 10 CFR 73.21, "Requirements for the Protection of Safeguards Information."

Any licensee who had possessed in the previous reporting period, at any one time and location, nuclear material in a quantity totaling one gram or more shall complete DOE/NRC Form 742. In addition, each licensee, Federal or State, who is authorized to possess, at any one time or location, one kilogram of foreign obligated source material, is required to file with the NRC an annual statement of source material inventory which is foreign obligated.

DOE/NRC Form 741: 12,500.
DOE/NRC Form 742: 1,310.
DOE/NRC Form 742C: 1,490.

10. *Abstract*: Persons licensed to possess specified quantities of nuclear material currently report inventory and transaction of material to the Nuclear Materials Management and Safeguards System via the DOE/NRC Forms: DOE/NRC Form 740M, Concise Note; DOE/NRC Form 741, Nuclear Material Transaction Report; DOE/NRC Form 742, Material Balance Report; DOE/NRC Form 742C, Physical Inventory Listing. This collection is being renewed to include approximately 25 entities subject to the U.S. IAEA Caribbean Territories Safeguards Agreement (INFCIRC/366). 10 CFR part 75 requires licensees to provide reports of nuclear material inventory and flow for entities under the U.S. IAEA Caribbean Territories Safeguards Agreement (INFCIRC/366), permit inspections by IAEA inspectors, give immediate notice to the NRC in specified situations involving the possibility of loss of nuclear material, and give notice for imports and exports of specified amounts of nuclear material. These licensees will also follow written material accounting and control procedures, although actual reporting of transfer and material balance records to the IAEA will be done through the U.S. State system (Nuclear Materials Management and Safeguards System, collected under OMB clearance numbers 3150-0003, 3150-0004, 3150-0057, and 3150-0058.) The NRC needs this information to implement its international obligations under the *U.S.-IAEA Caribbean Territories Safeguards Agreement (INFCIRC/366)*.

Dated at Rockville, Maryland, this 24th day of April 2017.

For the Nuclear Regulatory Commission.

David Cullison,

RAILROAD RETIREMENT BOARD

Proposed Collection; Comment Request

Summary: In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

Comments are invited on: (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Title and purpose of information collection: Representative Payee Monitoring; OMB 3220–0151. Under Section 12 of the Railroad Retirement Act (RRA), the RRB may pay annuity benefits to a representative payee when an employee, spouse, or survivor annuitant is incompetent or a minor. The RRB is responsible for determining if direct payment to an annuitant or a representative payee would best serve the annuitant's best interest. The accountability requirements authorizing the RRB to conduct periodic monitoring of representative payees, including a written accounting of benefit payments received, are prescribed in 20 CFR 266.7. The RRB utilizes the following forms to conduct its representative payee monitoring program.

Form G–99a, *Representative Payee Report*, is used to obtain information needed to determine whether the benefit payments certified to the representative payee have been used for the annuitant's current maintenance and personal needs and whether the representative payee continues to be concerned with the annuitant's welfare. RRB Form G–99c, *Representative Payee Evaluation Report*, is used to obtain more detailed information from a representative payee who fails to complete and return Form G–99a or in situations when the returned Form G–99a indicates the possible misuse of funds by the representative payee. Form G–99c contains specific questions concerning the representative payee's performance and is used by the RRB to determine whether or not the representative payee should continue in that capacity. The RRB proposes no changes to Forms G–99a and G–99c.

In response to the RRB's Office of Inspector General's recommendation to strengthen the controls of the agency's representative payee monitoring program, the RRB proposes new Form G–106, *Statement of Care and Responsibility to Annuitant*. In cases where the representative payee does not have custody of the annuitant, Form G–106 will be used to solicit information about the representative payee's performance and the annuitant's well-being from the custodian of the annuitant. The proposed form contains specific questions concerning the representative payee's performance, and will be used by the RRB to determine whether or not the representative payee should continue in that capacity.

Completion of the forms in this collection is required to retain benefits.
