Proposed Action. The proposed Ala Wai Canal Project, Oahu, Hawaii feasibility study is a single-purpose flood risk management project to reduce riverine flood risks to property and life safety in the Ala Wai Watershed. The Ala Wai Canal Watershed is located on the southeastern side of the island of Oahu, Hawaii. The watershed is 19 square miles and encompasses three sub-watersheds of Makiki, Manoa and Palolo Streams, which all drain into the Ala Wai Canal. The study area includes the most densely populated watershed in Hawaii with approximately 200,000 residents in the developed areas. In addition, Waikiki supports approximately 79,000 visitors on a daily basis.

This study was authorized under Section 209 of the Flood Control Act of 1962 (Pub. L. 87–874), a general study authority that authorizes surveys in harbors and rivers in Hawaii “with a view to determining the advisability of improvements in the interest of navigation, flood control, hydroelectric power development, water supply, and other beneficial uses, and related land resources.”

Alternatives. The Final Feasibility Study/EIS considers a full range of nonstructural and structural flood risk management alternatives that meet the proposed action’s purpose and need and incorporate measures to avoid and minimize impacts to native aquatic species, stream habitat, and other resources. In response to identified flood-related problems and opportunities, a range of alternatives were evaluated through an iterative screening and formulation process, resulting in identification of a recommended plan.

The recommended plan is the National Economic Development (NED) Plan and consists of the following components: Improvements to the flood warning system, 6 in-stream debris and detention basins in the upper reaches of the watershed, 1 stand-alone debris catchment feature, 3 multi-purpose detention basins in open space areas through the developed watershed, floodwalls along portions of the Ala Wai Canal, mitigation measures, and 2 associated pump stations to maintain internal drainage. Canal floodwalls would extend approximately 1.7 miles along the left (*makai*) bank and approximately 0.9 mile along the right (*mauka*) bank (including gaps for bridges).

Public Involvement. As part of the current public involvement process, all affected Federal, State, and local agencies, Native Hawaiian organizations, private organizations, and the public are invited to review and comment on the Final Feasibility Study with Integrated EIS. Comments may also be submitted as described in the **DATES** and **ADDRESSES** sections.

Other Environmental Review Requirements. To the extent practicable, NEPA and HRS Chapter 343 requirements will be coordinated in the preparation of the Final EIS.

Brenda S. Bowen,

Army Federal Register Liaison Officer.

Applications for New Awards; Supporting Effective Educator Development Program; Correction

AGENCY: Office of Innovation and Improvement, Department of Education.

ACTION: Notice; correction.

SUMMARY: On April 20, 2017, we published in the **Federal Register** a notice inviting applications for new awards (NIA) for fiscal year (FY) 2017 for the Supporting Effective Educator Development program. On May 8, 2017, we published in the **Federal Register** a notice extending the deadlines for transmittal of applications and intergovernmental review.

This notice of correction removes one of the selection criteria from the NIA and extends the deadlines for transmittal of applications and intergovernmental review. All other

requirements and conditions stated in the notice inviting applications remain the same.

DATES:

Deadline for Transmittal of Applications: June 23, 2017.

Deadline for Intergovernmental Review: August 22, 2017.

FOR FURTHER INFORMATION CONTACT:

Richard Wilson, U.S. Department of Education, 400 Maryland Avenue SW., Room 4W111, Washington, DC 20202-5960. Telephone: (202) 453-6709, or by email: SEED@ed.gov.

If you use a telecommunications device (TDD) for the deaf or a text telephone (TTY), call the Federal Relay Service, toll free, at 1-800-877-8339.

SUPPLEMENTARY INFORMATION: On April 20, 2017, we published, in the **Federal Register** (82 FR 18619), a notice inviting applications for new awards for FY 2017 for the SEED program. We are removing the fourth factor under the selection criterion for the Quality of the Management Plan. We are removing the fourth factor under the Quality of the Management Plan selection criterion because it was inadvertently duplicated. This factor is already listed under the Significance selection criterion and will remain under that criterion. With the removal of this factor, the Quality of Management Plan selection criterion will now have three factors by which it will be scored.

Due to the changes to the selection criteria, we are extending the deadlines for transmittal of applications and intergovernmental review to June 23, 2017 and August 22, 2017, respectively. This will ensure applicants have sufficient time to respond to the changes in their applications.

All other requirements and conditions stated in the NIA remain the same.

Corrections
