

Total estimated cost: \$64,213 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 513 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease reflects voluntary cancellation of the 1080 Livestock Protection Collar registration formerly held by the South Dakota Department of Agriculture and the removal of estimated burden associated with submission of annual Livestock Protection Collar production reports erroneously included in the previous renewal of this ICR. This resulted in a corresponding decrease in the associated burden. This change is an adjustment.

Abstract: The National Estuary Program (NEP) involves collecting information from the state or local agency or nongovernmental organizations that receive funds under Sec. 320 of the Clean Water Act (CWA). The regulation requiring this information is found at 40 CFR part 35.

Prospective grant recipients seek funding to develop or oversee and coordinate implementation of Comprehensive Conservation Management Plans (CCMPs) for estuaries of national significance. In order to receive funds, grantees must submit an annual work plan to EPA which are used to track performance of each of the 28 estuary programs currently in the NEP. EPA provides funding to NEPs to support long-term implementation of CCMPs if such programs pass a program evaluation process. The primary purpose of the program evaluation process is to help EPA determine whether the 28 programs

included in the National Estuary Program (NEP) are making adequate progress implementing their CCMPs and therefore merit continued funding under Sec. 320 of the Clean Water Act. EPA also requests that each of the 28 NEPs receiving Sec. 320 funds report information that can be used in the GPRA reporting process. This reporting is done on an annual basis and is used to show environmental results that are being achieved within the overall National Estuary Program. This information is ultimately submitted to Congress along with GPRA information from other EPA programs.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are those state or local agencies or nongovernmental organizations in the National Estuary Program (NEP) who receive grants under Section 320 of the Clean Water Act.

Respondent's obligation to respond: Required to obtain or retain a benefit (Section 320 of the Clean Water Act).

Estimated number of respondents: 28 (total).

Frequency of response: Annual.

Total estimated burden: 5,600 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$314,138 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 700 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to the fact that respondents are required to submit program evaluation packages in the next three years and also due to a change in GPRA reporting application platform in FY2016 that require additional effort.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: In FCC 15–80, *Updating Part 1 Report and Order*, the Commission updated many of its Part 1 competitive bidding rules. Among other

things, the Commission amended its definition of “designated entities” to include “eligible rural service providers,” and established a new designated entity benefit/bidding credit for eligible rural service providers.

Beginning first on May 5, 1997, OMB approved under OMB Control No. 3060–0767, the Commission's collections of information pursuant to sections 1.2110, 1.2111, and 1.2112 of the Commission's rules, 47 CFR 1.2110, 1.2111, and 1.2112, and their predecessors, regarding ownership and designated entity status of parties involved with Commission licenses. The Commission collects this information in several contexts, including when determining the eligibility of applicants to participate in Commission auctions (including eligibility to claim designated entity benefits), the eligibility of parties to hold a Commission license/authorization (including eligibility for designated entity benefits), the eligibility of parties to whom licenses/authorizations are being assigned or transferred, and the repayment by license/authorization holders of the amount of bidding credits received in Commission auctions to avoid unjust enrichment. Applicants and licensees/authorization holders claiming eligibility for designated entity status are subject to audits and a record-keeping requirement regarding FCC-licensed service concerning such claims of eligibility, to confirm that their representations are, and remain, accurate.

The collection of this information will enable the Commission to determine whether applicants are qualified to bid on and hold Commission licenses/authorizations and, if applicable, to receive designated entity benefits, and is designed to ensure the fairness of the auction, licensing, and license/authorization assignment and transfer processes. The information collected will be reviewed and, if warranted, referred to the Commission's Enforcement Bureau for possible investigation and administrative action. The Commission may also refer allegations of anticompetitive auction conduct to the Department of Justice for investigation.

OMB has approved separately the routine collections of information pursuant to these Commission rules in applications to participate in Commission auctions, FCC Form 175, OMB Control No. 3060–0600, and in Commission licensing applications, FCC Form 601, OMB Control No. 3060–0798, and assignment/transfer of control applications, FCC Form 603, OMB Control No. 3060–0800. On occasion,

the Commission may collect information from auction applicants and license/authorization holders pursuant to these rules under this information collection to clarify information provided in these forms or in circumstances to which the standard forms may not directly apply.

Federal Communications Commission.
