headquarters located at: TUV Rheinland of North America, Inc., 12 Commerce Road, Newtown, Connecticut 06470. A complete list of TUVRNA's scope of recognition is available at *https://www.osha.gov/dts/otpca/nrtl/tuv.html.*

II. General Background on the Application

TUVRNA submitted an application, dated September 30, 2015 (OSHA–2007–0042–0022), to expand its recognition to include one additional test standard. OSHA staff performed a comparability analysis and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application.

Table 1 below lists the appropriate test standard found in TUVRNA's application for expansion for testing and certification of products under the NRTL Program.

UL 2202	Electric Vehicle (EV) Charging System Equipment.

Additionally, TUVRNA submitted an application on April 7, 2017 (OSHA–2007–0042–0025) to reduce their scope of recognition by one test standard. Table 2 below lists the recognized test standard that TUVRNA would like to remove from their scope of recognition.

Test standard	Test standard title
UL 913	Standard for Intrinsically Safe Apparatus and Associated Apparatus for Use in Class I, II, III Division 1, Hazardous (Classified) Location.

III. Preliminary Findings on the Applications

TUVRNA submitted an acceptable application for expansion of its scope of recognition. OSHA's review of the application file, and comparability analysis, indicate that TUVRNA can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of this one test standard for NRTL testing and certification listed above. This preliminary finding does not constitute an interim or temporary approval of TUVRNA's application. Further, TUVRNA submitted an acceptable request to remove a recognized test standard from their NRTL scope of recognition.

OSHA welcomes public comment as to whether TUVRNA meets the requirements of 29 CFR 1910.7 for expansion of its recognition as an NRTL. Additionally, OSHA requests comments on the application to remove one test standard from TUVRNA's NRTL scope of recognition. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if the request is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Room N–3653, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address. These materials also are available online at *http://www.regulations.gov* under Docket No. OSHA–2007–0042.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend to the Assistant Secretary for Occupational Safety and Health whether to grant TUVRNA's application for expansion of its scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of its final decision in the **Federal Register**.

NATIONAL CREDIT UNION ADMINISTRATION

Closing the Temporary Corporate Credit Union Stabilization Fund and Setting the Share Insurance Fund Normal Operating Level

AGENCY: National Credit Union Administration (NCUA).

ACTION: Notice and request for comment.

SUMMARY: The NCUA Board (Board) is considering closing the Temporary Corporate Credit Union Stabilization Fund (Stabilization Fund) in 2017, prior to its scheduled closing date in June 2021. Closing the Stabilization Fund and distributing all assets, property, and funds to the National Credit Union Share Insurance Fund (Share Insurance Fund) will increase the Share Insurance Fund's equity ratio and allow for the return to insured credit unions of any equity above the normal operating level. The return of excess equity would be accomplished through a distribution from the Share Insurance Fund in conformance with the Federal Credit Union Act (the Act). However, given the nature of certain assets and liabilities of the Stabilization Fund, the Share Insurance Fund's assumption of these assets and liabilities will introduce additional risk of volatility to the Share Insurance Fund's equity ratio. Therefore, the Share Insurance Fund would need to hold sufficient equity to cover potential changes in the value of its claims on the failed corporate credit union asset management estates. In addition, the Share Insurance Fund needs to have enough equity to cover other risks to the equity ratio, such as losses on insured credit unions, under the same macroeconomic conditions that create volatility in the asset management estate values. To ensure the Share Insurance Fund has sufficient equity to absorb these risks, the Board proposes to raise the normal operating level to 1.39 percent.

This notice provides a discussion of the reasons the Board is proposing to close the Stabilization Fund in 2017 and the basis used to determine the normal operating level necessary to account for the additional risk to the Share Insurance Fund. In addition, the notice sets forth a new policy by which the Board would set the normal operating level. The Board solicits comments on each of these proposed actions.

DATES: Comments must be received on or before September 5, 2017 to be assured of consideration.

ADDRESSES: You may submit comments by any of the following methods (Please send comments by one method only):

SUPPLEMENTARY INFORMATION:

I. Stabilization Fund Background

Public Law 111–22, *Helping Families Save Their Homes Act of 2009* (Helping Families Act), signed into law by the President on May 20, 2009 created the Temporary Corporate Credit Union Stabilization Fund. Congress provided NCUA with this temporary fund to accrue the losses of the corporate credit union system and assess insured credit unions for such losses over time. This prevented insured credit unions from bearing a significant burden for losses associated with the failure of five corporate credit unions within a short period. Without creation of the Stabilization Fund, these corporate credit union losses would have been borne by the Share Insurance Fund. The magnitude of losses would have exhausted the Share Insurance Fund's retained earnings and significantly impaired credit unions' one percent contributed capital deposit.[1] The deposit impairment, along with premiums that would have been necessary to restore the Share Insurance Fund's equity ratio, would have resulted in a significant, immediate cost to credit unions at a time when their earnings and capital were already under stress due to the Great Recession.[2] In June 2009, the Board formally approved use of the Stabilization Fund for accounting for the costs of the Corporate System Resolution Program.[3] Since then, all of these costs have been accounted for in the financial statements of the Stabilization Fund.

The Act specifies that the Stabilization Fund will terminate 90 days after the seven-year anniversary of its first borrowing from the U.S. Treasury.[4] The first borrowing occurred

[1] Prior to reassignment of these costs to the Stabilization Fund, the capitalization deposit impairment would have been 89 basis points.

[2] Because the contributed capital deposit is reflected as an asset on the financial statements of insured credit unions, under accounting rules any impairment results in an immediate expense to credit unions.
