SUPPLEMENTARY INFORMATION: Elections for FSA county committees are held each year; therefore, nominations for eligible nominees are requested each year. Any individual who meets the qualifications mentioned in this paragraph may be nominated by another person or by themselves. A brief form (FSA–669A) is used to collect the information for nominations; it requires the name and address of the nominee and the signatures of both the nominee and the person nominating the individual to be a nominee (only one signature is required for self-nominated individuals). The nominee must be eligible to vote in the designated FSA

county committee election, eligible to hold the office of FSA county committee member, and willing to serve, if elected. For more information about FSA county committees, including elections, nominations, eligible voters, eligibility, and other related information, see the regulations in 7 CFR part 7.

In addition, the form also includes a voluntary request for race, ethnicity, and gender information from the nominee.

Abstract: This information collection is necessary to effectively allow farmers and ranchers to nominate potential candidates using the form FSA–669A for the FSA county committee election in accordance with the requirements as authorized by the Soil Conservation and Domestic Allotment Act, as amended. Specifically, FSA uses the information provided by the nominee annually or, if needed, throughout the year for special elections to create ballots for FSA county committee elections. There are no changes to the burden hours since the last OMB approval.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hours is the estimated average time per response multiplied by the estimated total annual of responses.

Estimate of Average Time to Respond: Public reporting burden for collecting information under this notice is estimated to average 0.67 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information for all respondents and travel time for half of the respondents. The average travel time, which is included in the total annual burden, is estimated to be 1 hour per respondent.

Type of Respondents: Any individual with farming interest in the Local Administrative Area (LAA) (eligible voters).

Estimated Number of Respondents: 10,000.*Estimated Number of Responses per Respondent:* 1.*Estimated Total Annual Responses:* 10,000.*Estimated Average Time per Response:* 0.67 hours.*Estimated Total Annual Burden on Respondents:* 6,700 hours.

We are requesting comments on all aspects of this information to help us to:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Evaluate the quality, ability and clarity of the information technology; and

(4) Minimize the burden of the information collection on those who respond through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget Approval.

Chris P. Beyerhelm,*Acting Administrator, Farm Service Agency.*

Notice of New Fee Sites

AGENCY: Green Mountain and Finger Lakes National Forests, USDA Forest Service

ACTION: Notice of New Fee Sites.

SUMMARY: The Green Mountain and Finger Lakes National Forests are proposing several new fees to recreation areas on the three ranger districts located within the Forests. Fees are assessed based on the level of amenities and services provided, cost of operations and maintenance and market assessment. These fees are proposed and will be determined upon further analysis and public comment. Fee revenue would be used for the continued operation and maintenance as well as improvements to the facilities within the recreation areas. An analysis of nearby recreation facilities with similar amenities shows that the proposed fees are reasonable and typical of similar sites in the area.

DATES: Send any comments about these fee proposals by October 13, 2017 to the appropriate ranger district listed below so comments can be compiled, analyzed, and shared with a Recreation Resource Advisory Committee.
