constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the assessment webinar III are as follows:

- 1. Using datasets and initial assessment analysis recommended from the Data Workshop, panelists will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions.
- 2. Participants will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see ADDRESSES) at least 5 business days prior to each workshop.

Kara Dodge, Ph.D., proposes

Kara Dodge, Ph.D., proposes continuation and expansion of long-term studies on leatherback sea turtles in the Atlantic Ocean, primarily off New England. The purpose of the work is to determine seasonal distribution, movements, behavior, foraging, genetics, health, physiology, and habitat of leatherback sea turtles. Up to 95 sea turtles annually would be approached from a research vessel, unmanned aircraft system, or captured by hoop net. Upon approach or capture, researchers would examine up to 30 sea turtles

annually, collect morphometric data and biological samples, and attach, via suction-cup or direct attachment, up to three transmitters to each turtle before release. Up to 65 sea turtles annually would be approached and photographed or videoed only. Up to one unintentional mortality of a sea turtle could happen in any year over the life of the permit. The permit would be valid for up to ten years from the date of issuance.

Dated: August 24, 2017.

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Scallop Advisory Panel to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate. DATES: This meeting will be held on Tuesday, September 19, 2017 at 9:30 a.m.

ADDRESSES: The meeting will be held at the Courtyard by Fairfield Inn & Suites, 185 MacArthur Drive, New Bedford, MA 02740; phone: (774) 634–2000.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT:

Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Scallop Advisory Panel will review preliminary 2017 scallop survey results and discuss initial recommendations from the Scallop Plan Development Team (PDT) for FY 2018 and FY 2019 (default) fishery specifications (Framework 29). They also plan to review and provide input on Framework 29 management measures; which include: (1) Northern Gulf of Maine Management Measures; (2) Development and modification of flatfish accountability measures; (3) Modifying access area boundaries to be consistent with potential changes to habitat and groundfish mortality closures through OHA2. The panel will review and discuss results from the LAGC IFQ program review. They will also develop a list of potential 2018 scallop work priorities. Additionally, the panel will discuss whether there are any regulations in the Scallop FMP that could be eliminated, improved, or streamlined. Several recent Executive Orders have been issued about streamlining current regulations, and NOAA is seeking public input on the efficiency and effectiveness of current regulations and whether they can be improved. Other business may be discussed as necessary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
