Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission (“FTC” or “Commission”) has accepted, subject to final approval, a consent agreement applicable to Tru Communication, Inc. dba TCPrinting.net (“TCP”).

The proposed consent order has been placed on the public record for thirty (30) days for receipt of comments by interested persons. Comments received during this period will become part of the public record. After thirty days, the Commission will again review the

agreement and the comments received, and will decide whether it should withdraw from the agreement and take appropriate action or make final the agreement’s proposed order.

This matter concerns alleged false or misleading representations that TCP made to consumers concerning its participation in the EU-U.S. Privacy Shield framework agreed upon by the U.S. and the European Union (“EU”). The EU-U.S. Privacy Shield framework allows U.S. companies to transfer data outside the EU consistent with EU law. To join the EU-U.S. Privacy Shield framework, a company must self-certify to the U.S. Department of Commerce (“Commerce”) that it complies with a set of principles and related requirements that have been deemed by the European Commission as providing “adequate” privacy protection. These principles include notice; choice; accountability for onward transfer; security; data integrity and purpose limitation; access; and recourse, enforcement, and liability. Commerce maintains a public Web site, <https://www.privacyshield.gov/list>, where it posts the names of companies that have self-certified to the EU-U.S. Privacy Shield framework. The listing of companies indicates whether their self-certification is current. Companies are required to re-certify every year in order to retain their status as current members of the EU-U.S. Privacy Shield framework.

TCP provides printing services such as copying, binding and scanning of documents. According to the Commission’s complaint, TCP has set forth on its Web site, www.tcpprinting.net/info/lpi-privacy-policy.php, privacy policies and statements about its practices, including statements related to its participation in the EU-U.S. Privacy Shield framework.

The Commission’s complaint alleges that TCP falsely represented that it was certified to participate in the EU-U.S. Privacy Shield framework when, in fact, TCP never completed the necessary steps to finalize its application and thus, was not certified to participate in the EU-U.S. Privacy Shield framework.

Part I of the proposed order prohibits TCP from making misrepresentations about its membership in any privacy or security program sponsored by the government or any other self-regulatory or standard-setting organization, including, but not limited to, the EU-U.S. Privacy Shield framework.

Parts II through VI of the proposed order are reporting and compliance provisions. Part II requires acknowledgement of the order and dissemination of the order now and in

the future to persons with responsibilities relating to the subject matter of the order. Part III ensures notification to the FTC of changes in corporate status and mandates that TCP submit an initial compliance report to the FTC. Part IV requires TCP to retain documents relating to its compliance with the order for a five-year period.

Part V mandates that TCP make available to the FTC information or subsequent compliance reports, as requested. Part VI is a provision “sunsetting” the order after twenty (20) years, with certain exceptions.

The purpose of this analysis is to facilitate public comment on the proposed order. It is not intended to constitute an official interpretation of the proposed complaint or order or to modify the order’s terms in any way.

By direction of the Commission.

Donald S. Clark,
Secretary.
