BILLING CODE 6715-01-P

GENERAL SERVICES ADMINISTRATION

[Notice-MA-2017-08; Docket No. 2017-0002, Sequence No. 20]

Federal Travel Regulation (FTR); Requirement To Report Agency Travel, Transportation, and Relocation Data and Costs

AGENCY: Office of Government-wide Policy (OGP), General Services Administration (GSA).

ACTION: Notice of FTR Bulletin 18-02, Requirement to Report Agency Travel, Transportation, and Relocation Data and Costs.

SUMMARY: The purpose of this notice is to inform Federal agencies that FTR Bulletin 18-02, pertaining to the reporting of travel, transportation, and relocation data and costs is now available online at www.gsa.gov/ftrbulletin.

DATES: November 9, 2017.

FOR FURTHER INFORMATION CONTACT: Mr. Cy Greenidge, Office of Government-wide Policy, Office of Asset and Transportation Management, at 202-219-2349, or by email at travelpolicy@gsa.gov. Please cite Notice of FTR Bulletin 18-02.

Authority: 5 U.S.C. 5707(c).

Dated: October 27, 2017.

Allison Fahrenkopf Brigati,

Associate Administrator, Office of Government-wide Policy, General Services Administration.

BILLING CODE 6820-14-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Centers for Disease Control and Prevention**

[30Day-18-1036]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled *Community Assessment for Public Health Emergency Response (CASPER)* to the Office of Management and Budget (OMB) for review and approval. CDC previously published a "Proposed Data Collection Submitted for Public Comment and Recommendations" notice on May 31, 2017 to obtain comments from the public and affected agencies. CDC did not receive comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW.,

Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Community Assessment for Public Health Emergency Response (CASPER) (OMB Control Number 0920-1036, Expiration 12/31/2017)—Revision—National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The National Center for Environmental Health (NCEH) is requesting a revision of a currently approved generic information collection plan to reduce the number of burden hours associated with conducting Community Assessments for Public Health Emergency Response (CASPERs). Specifically, NCEH seeks to make the following changes:

- Decrease the number of proposed CASPERs conducted annually from 15 to 6.
- Decrease the number of total annual respondents from 3,200 to 1,284, resulting in a burden reduction of 946 hours.
- Update respondent costs to reflect current wage data from 2015.

CASPER is an effective public health tool designed to quickly provide low-cost, household-based information about a community's needs and health status in a simple, easy-to-understand format for decision-makers during a public health emergency. A CASPER can be conducted as part of disaster/emergency response to help inform decision-making and resource distribution.

CASPERs comprise household interviews (approximately 30-minutes long) with an adult (≥18 years of age) household member. Households are identified using a 2-stage process so that they are representative of an entire area. Data are collected about the current household needs (e.g., water, medicine, medical services), aggregated, and provided to the state or other responding agency.

Each time a CASPER is conducted, it is tailored to the current needs of public health and, if appropriate, emergency managers. Because these CASPERs are requested by states during disasters or emergencies, it is important that CDC have the ability to gain urgent approval for data collection.

In the past three years, CDC has conducted two CASPERs. These CASPERs were in support of the California Drought in Mariposa County and the West Virginia Flooding of 2016. The 2016 California Drought CASPER

was a successful collaboration between California Department of Public Health, the Mariposa County Health Department, and CDC, which helped characterize the impacts of drought in Mariposa County as well as actions households have taken. These results were useful in allocating resources for response to the drought and in strengthening the emergency preparedness capacity of Mariposa County. The 2016 West Virginia Flood CASPERs assessed household disaster preparedness, access to health care, health impacts due to flood damage,

health information sources, and stage of disaster recovery. Approval of this revised generic information collection plan will allow CDC to continue to provide low-cost, household-based information about a community's needs and health status in a simple, easy-to-understand format for decision makers during public health emergencies.

Based on the experience of the past three years, NCEH requests changes to this generic information collection plan to reduce the number of CASPERs conducted annually, reduce the number of referral forms completed, and update

respondent costs to reflect wage data from 2015. The revised estimated burden is based on conducting 6 emergency CASPERs per year, interviewing 210 households (the respondents) per CASPER, and completing 24 referral forms per year. The total burden requested for this generic information collection plan is 631 hours from 1,284 respondents (see table below). This is a reduction in burden of 946 hours from the previously approved generic information collection plan. There is no cost to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Households in the selected geographic area to be assessed.	CASPER Questionnaire	1,260	1	30/60
Households in the selected geographic area to be assessed.	Referral Form	24	1	2/60

Leroy A. Richardson,

Chief, Information Collection Review Office, Office of Scientific Integrity, Office of the Associate Director for Science, Office of the Director, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-18-18CV; Docket No. CDC-2017-0102]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled "Rapid Response Suicide Investigation Data Collection." CDC will

use information collected to respond to urgent requests for CDC assistance.

DATES: CDC must receive written comments on or before January 8, 2018.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2017-0102 by any of the following methods:

- **Federal eRulemaking Portal:** *Regulations.gov*. Follow the instructions for submitting comments.

- **Mail:** Leroy A. Richardson, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE., MS-D74, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to *Regulations.gov*.

Please note: Submit all comments through the *Federal eRulemaking portal (regulations.gov)* or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Leroy A. Richardson, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE., MS-D74, Atlanta, Georgia 30329; phone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each

collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

5. Assess information collection costs.
