

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of BSEE; (2) Will this information be processed and used in a timely manner; (3) Is the estimate of burden accurate; (4) How might BSEE enhance the quality, utility, and clarity of the information to be collected; and (5) How might BSEE minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**Abstract:** BSEE will use the information required by 30 CFR 282 to determine if lessees are complying with the regulations that implement the mining operations program for minerals other than oil, gas, and sulphur. Specifically, BSEE will use the information:

- To ensure that operations for the production of minerals other than oil, gas, and sulphur in the OCS are conducted in a manner that will result in orderly resource recovery, development, and the protection of the human, marine, and coastal environments.
- To ensure that adequate measures will be taken during operations to prevent waste, conserve the natural resources of the OCS, and to protect the environment, human life, and correlative rights.
- To determine if suspensions of activities are in the national interest, to facilitate proper development of a lease including reasonable time to develop a mine and construct its supporting facilities, and to allow for the construction or negotiation for use of transportation facilities.
- To identify and evaluate the cause(s) of a hazard(s) generating a suspension, the potential damage from a hazard(s) and the measures available to mitigate the potential for damage.
- For technical evaluations that provide a basis for BSEE to make

informed decisions to approve, disapprove, or require modification of the proposed activities.

**Title of Collection:** 30 CFR part 282—Operations in the Outer Continental Shelf for Minerals Other than Oil, Gas, and Sulphur.

**OMB Control Number:** 1014–0021.

**Form Number:** None.

**Type of Review:** Revision of a currently approved collection.

**Respondents/Affected Public:** Potential respondents comprise Federal OCS oil, gas, and sulphur lessees/operators.

**Total Estimated Number of Annual Respondents:** As there are no active respondents, we estimated the potential annual number of respondents to be one.

**Total Estimated Number of Annual Responses:** 16.

**Estimated Completion Time per Response:** Varies from 1 hour to 20 hours, depending on activity.

**Total Estimated Number of Annual Burden Hours:** 56.

**Respondent's Obligation:** Most responses are mandatory, while others are required to obtain or retain benefits, or are voluntary.

**Frequency of Collection:** On occasion and varies by section.

**Total Estimated Annual Nonhour Burden Cost:** We have identified one non-hour cost burden. Pursuant to § 282.13(e)(1), a site-specific study to determine and evaluate hazards that results in a suspension of operation would have a non-hour cost burden. Since this has not been done to date, we estimated that the cost of such a study for industry would be approximately \$100,000 to comply with the requirement. We have not identified any other non-hour cost burdens associated with this collection of information.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Dated: October 11, 2017.

**SUPPLEMENTARY INFORMATION:** The Commission instituted this investigation on September 15, 2017, based on a complaint filed by Broadcom Limited of San Jose, California; and Avago Technologies General IP (Singapore) Pte. Ltd. of Singapore (collectively, “Broadcom”). 82 FR 43404 (Sep. 15, 2017). The complaint, as supplemented, alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain wireless audio systems and components thereof by reason of infringement of claim 20 of U.S. Patent No. 6,684,060. The complaint further alleges that an

industry in the United States exists as required by 19 U.S.C. 1337(a)(2). The notice of investigation named DTS, Inc. of Calabasas, California; Phorus, Inc. of Calabasas, California; MartinLogan, Ltd. of Lawrence, Kansas; Paradigm Electronics Inc. of Ontario, Canada; Anthem Electronics, Inc. of Ontario, Canada; Wren Sound Systems, LLC of Phoenixville, Pennsylvania; McIntosh Laboratory, Inc. of Binghamton, New York; Definitive Technology of Owings Mills, Maryland; and Polk Audio Inc. of Vista, California, as respondents. The Office of Unfair Import Investigations is also a party in this investigation.

On September 20, 2017, Broadcom filed a motion for leave to file a second amended complaint. Broadcom sought to amend the complaint to: (1) Incorporate additional information that was set forth in a pre-institution letter to the Commission on August 29, 2017; (2) correct the names for certain respondents; and (3) add an additional domestic industry claim related to another licensee of the asserted patent. On October 2, 2017, Respondents filed a response opposing only the addition of a new domestic industry claim. The ALJ issued the subject ID granting the motion on October 24, 2017. The ALJ found that Broadcom has shown good cause to amend the complaint under Commission Rule 210.14(b)(1). *See* Order No. 9 at 2–3 (Oct. 24, 2017).

No petitions for review were filed. The Commission has determined not to review the ID.

## INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–588 and 731–TA–1392–1393 (Preliminary)]

### Polytetrafluoroethylene (“PTFE”) Resin From China and India

#### Determinations

On the basis of the record<sup>1</sup> developed in the subject investigations, the United

States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of PTFE resin from China and India, provided for in statistical reporting numbers 3904.61.0010 and 3904.61.0090 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (“LTFV”) and by reason of imports of PTFE resin from India that are alleged to be subsidized by the government of India.

#### Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce (“Commerce”) of affirmative preliminary determinations in the investigations under sections 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under sections 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

#### Background

On September 28, 2017, The Chemours Company FC LLC, Wilmington, Delaware, filed petitions with the Commission and Commerce, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV and subsidized imports of PTFE resin from India and LTFV imports of PTFE resin from China. Accordingly, effective September 28, 2017, the Commission, pursuant to sections 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)), instituted countervailing duty investigation No.

701–TA–588 and antidumping duty investigation Nos. 731–TA–1392 and 1393 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of October 4, 2017 (82 FR 46284). The conference was held in Washington, DC, on October 19, 2017, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made these determinations pursuant to sections 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)). It completed and filed its determinations in these investigations on November 13, 2017. The views of the Commission are contained in USITC Publication 4741 (November 2017), entitled *Polytetrafluoroethylene (“PTFE”) Resin from China and India: Investigation Nos. 701–TA–588 and 731–TA–1392–1393 (Preliminary)*.
