DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

On November 14, 2017, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Western District of New York in the lawsuit entitled *United States v. Beazer East, Inc. et al.*, Civil Action No. 17-1165.

The United States filed this lawsuit under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). The United States’ complaint names Beazer East, Inc., CBS Corporation, Chemung County, the City of Elmira, the Elmira Water Board, Hardinge Inc., Toshiba America Inc., the Town of Horseheads, and the Village of Horseheads, as defendants. The complaint requests recovery of costs and injunctive relief related to responding to releases of hazardous substances at or from the Fourth Operable Unit (“OU4”) of the Kentucky Avenue Wellfield Superfund Site located in the Village of Elmira Heights, the Town of Horseheads, and the Village of Horseheads, New York. Under the proposed Consent Decree, the nine Settling Defendants agree to perform the remedy selected by the Environmental Protection Agency (“EPA”) for OU4 and pay the United States’ future response costs related to OU4. The Statement of Work, included as Appendix B to the Decree, provides the framework for implementation of the cleanup plan as set forth in the Record of Decision (“ROD”) signed by the Regional Administrator for Region 2 of EPA in September 2016. The State of New York concurred with respect to the selected remedy. The selected remedy calls for the construction of a nine-acre cap over the footprint of Koppers Pond, with the cap comprised of a geotextile membrane covered by a six-inch layer of soil and sand. Institutional controls will also be imposed to control activities and use at OU4 to preserve the integrity of the cap. The Remedial Design, Remedial Action, and Operations and Maintenance at OU4 are estimated to cost approximately \$1.9 million and the Settling Defendants will pay any United States Future Response Costs related to OU4. The United States has provided all of the Settling Defendants with a covenant not to sue under Sections 106 and 107(a) of CERCLA, relating to OU4, subject to certain reservations.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Current Population Survey (CPS)—Basic Labor Force information collection. The labor force data collected in the CPS help to determine the employment situation of specific population groups as well as general trends in employment and unemployment. The survey is the only source of monthly data on total employment and unemployment. The *Employment Situation Report* contains data from this survey, and it is designated a Principle Federal Economic Indicator; moreover, the survey also yields data on the basic status and characteristics of persons not in the labor force. CPS data are used monthly, in conjunction with data from other sources, to analyze the extent to which, and with what success, the various components of the American population are participating in the economic life of the nation. This

information collection is authorized by 13 U.S.C. 182 and 29 U.S.C. 2.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220-0100.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on December 31, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on June 19, 2017 (82 FR 27873).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1220-0100. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,
