

Long-Term

- Increase national conversations about UAD
- Increase youth involvement in UAD prevention
- Increase community mobilization for UAD prevention
- Increase capacity for prevention organizers
- Increase use of evidence-based approaches to UAD prevention

The Organizer Survey—6 month Follow-up consists of 13 items and captures information on—

- Where the Communities Talk event was held;
- Awareness of UAD activities that have taken place as a result of the event;
- Community mobilization and collaboration efforts;
- Perception of the importance of UAD and its consequences to the community; and
- Increase in youth involvement in UAD prevention activities in the community.

SAMHSA supports nationwide Communities Talk events every other year. Collecting data on each round of Communities Talk events, and using this information to inform policy and measure impact, supports SAMHSA's strategic initiative number 1: Prevention of substance use and mental illness. A specific goal under this initiative is to prevent or reduce the consequences of UAD and adult problem drinking; a

specific objective is to establish the prevention of UAD as a priority issue for states, territories, tribal entities, colleges and universities, and communities.

SAMHSA will use the information collected to document the implementation efforts of this nationwide initiative, determine if the federally sponsored Communities Talk events lead to additional activities within the community that are aimed at preventing and reducing UAD, identify what these activities may possibly include, and help plan for future rounds of Communities Talk events. SAMHSA intends to post online a summary document of each round of Communities Talk events and present findings at national conferences attended by CBOs that have hosted these events and might host future events. Similarly, SAMHSA plans to share findings with the Interagency Coordinating Committee on the Prevention of Underage Drinking. Agencies within this committee encourage their grantees to participate as the event hosts.

Additionally, the information collected will support performance measurement for SAMHSA programs under the Government Performance Results Act (GPRA).

Data Collection Component

SAMHSA/CSAP will use a web-based method to collect data through the

Organizer Survey and Organizer Survey—6 month Follow-up, and a paper-and-pencil approach to collect data through the Participant Form. The web-based application will comply with the requirements of Section 508 of the Rehabilitation Act to permit accessibility to people with disabilities.

Every 2 years, the Organizer Survey will be completed by an estimated 500 Communities Talk event organizers and will require only one response per respondent. It will take an average of 10 minutes (0.167 hours) to review the instructions and complete the survey. Similarly, the Organizer Survey—6 month Follow-up will be completed by an estimated 500 Communities Talk event organizers and will require only one response per respondent. It will take an average of 15 minutes (0.25 hours) to review the instructions and complete the survey. This burden estimate is based on comments from three 2016 Communities Talk event hosts who reviewed the survey and provided comments on how long it would take them to complete it.

The Participant Form will be completed by an average of 30 participants per sampled community-based organization (n=400) and will require only one response per respondent. It will take an average of 5 minutes (0.083 hours) to review the instructions and complete the form.
