

Part II of the proposed order requires Uber to implement a mandated comprehensive privacy program that is reasonably designed to (1) address privacy risks related to the development and management of new and existing products and services for consumers, and (2) protect the privacy and confidentiality of consumers' personal information. Part II.B includes new language that requires Uber's mandated privacy risk assessments to include consideration of risks and safeguards related to (a) secure software design, development, and testing, including access key and secret key management and secure cloud storage; (b) review, assessment, and response to third-party security vulnerability reports, including through a "bug bounty" or similar program; and (c) prevention, detection, and response to attacks, intrusions, or systems failures.

Part III of the proposed order requires Uber to undergo biennial assessments of its mandated privacy program by a third party. Part III has been revised from the August 2017 proposed consent agreement to require Uber to submit to the Commission each of its assessments rather than only its initial assessment.

Part IV of the proposed order requires Uber to submit a report to the Commission if Uber discovers any "covered incident" involving unauthorized access or acquisition of consumer information. This Part is new.

Parts V through IX of the proposed order are reporting and compliance provisions. Part V requires dissemination of the order now and in the future to all current and future principals, officers, directors, and managers, and to persons who participate in conduct related to the subject matter of the order, including all employees, agents, and representatives who regularly access personal information. Part VI mandates that Uber submit a compliance report to the FTC one year after issuance of the order and submit additional notices as specified. Parts VII and VIII require Uber to retain documents relating to its compliance with the order, and to provide such additional information or documents as are necessary for the Commission to monitor compliance. Part IX states that the order will remain in effect for 20 years.

These provisions include modifications from the August 2017 proposed consent agreement. Part V expands the acknowledgement of order provision to require Uber to obtain signed acknowledgements from all employees, agents, and representatives who regularly access personal information that Uber collects or

receives from or about consumers, rather than limiting the requirement to employees with managerial responsibility related to the order. And Part VII contains modified recordkeeping provisions and new recordkeeping provisions relating to Uber's bug bounty program and its subpoenas and communications with law enforcement.

The purpose of this analysis is to aid public comment on the proposed order. It is not intended to constitute an official interpretation of the complaint or proposed order, or to modify in any way the proposed order's terms.

By direction of the Commission.

Donald S. Clark,
Secretary.
