

The USACE did not include updates to the WCMs for the Weiss and Logan Martin Reservoirs in the 2015 ACT River Basin Master WCM because further study of flood risk management issues at both projects was required. The USACE intends to update the WCMs for two APC reservoir projects in the ACT River Basin, including evaluation of APC's proposal to raise the winter level for recreation and at the same time to lower the upper limit of the induced surcharge operation at the Weiss Dam and Lake (Reservoir) and the Logan Martin Dam and Lake (Reservoir). These projects will be evaluated for flood impacts. Current Water Control Plans for the Weiss and Logan Martin Reservoirs, originally issued in the 1960s, contain surcharge curves with elevations higher than the respective flood easements acquired by APC. The easement at the Weiss Reservoir is 572 feet mean sea level (msl) and the surcharge curve indicates flood control storage to 574 feet msl. At the Logan Martin Reservoir, the easement elevation is 473.5 feet msl and the surcharge curve indicates flood control storage to 477 feet msl. Due to the flood risk management operational responsibilities of the USACE, the APC proposals would be evaluated along with other alternatives in the FR/SEIS and those manuals may be updated.

Because the USACE is simultaneously considering proposals to modify operations and update WCMs at three different ACT River Basin projects, the USACE intends to evaluate the effects of these proposals through a single EIS, which would supplement the Final EIS for the ACT River Basin completed in May 2015. As part of this analysis, the USACE will consider the effects of the proposed changes on operations of the ACT system of projects for all purposes, and would revise the ACT Master WCM to incorporate the updated Allatoona Lake, Weiss Reservoir, and Logan Martin Reservoir WCMs and to reflect changes, if any, in overall system operations.

WCMs are guidance documents that assist Federal water managers in the operation of individual and multiple interdependent Federal reservoirs on the same river system. The manuals provide technical, historical, hydrological, geographic, demographic, policy and other information that guide the proper management of reservoirs during times of high water, low water, and normal conditions. The manuals also contain drought plans and zones to assist Federal water managers in knowing when to reduce or increase reservoir releases, and how to ensure the safety of dams during extreme

conditions. The authority and guidance for the USACE to prepare and update these manuals may be found, *inter alia*, in Section 7 of the 1944 Flood Control Act, the Federal Power Act, Section 9 of Public Law 436-83, and the following USACE Engineering Regulations (ER): ER 1110-2-240, ER 1110-2-241, ER 1110-2-1941 and ER 1110-2-8156.

The evaluations of the proposed water supply storage reallocation at the Allatoona Lake and the flood impacts at several APC projects in the Coosa Basin may require updates to the current WCMs. The updated WCMs would be provided as appendices to the SEIS.

Public participation throughout the water supply storage reallocation and flood pool evaluation process is essential. The USACE invites full public participation at all stages to promote open communication and better decision making. All persons, stakeholders, and organizations that have an interest in water-related resources in the ACT Basin, including minority, low-income, disadvantaged and Native American groups, are urged to participate in this NEPA analysis process. Assistance will be provided upon request to anyone having difficulty understanding how to participate. Dates and locations for public scoping meetings will be announced by future publication in the **Federal Register** and in the local news media. Tentative dates for publication of the Draft SEIS and other opportunities for public involvement will also be announced at that time. Public comments are welcomed at any time throughout the NEPA process.

Cooperating Agencies. The lead responsibility for this action rests with the USACE. USACE intends to coordinate and/or consult with an interagency team of Federal and State agencies during scoping and preparation of the FR/SEIS. A decision will be made during the scoping process whether other agencies will serve in an official role as cooperating agencies.

Scoping. The 2015 ACT WCM update involved the States (Alabama and Georgia), stakeholders, and the public, in identifying areas of concern; collecting and developing water resources, environmental, and socioeconomic data; and developing tools to assist in decisions affecting water resources within the Basin. Scoping for this SEIS will continue to build upon the knowledge and information developed during the previous EIS process. Scoping meetings with agencies and stakeholder groups will be scheduled to identify any significant issues and data gaps, focus on the alternatives to be evaluated, and

to identify any appropriate updated tools to assist in the evaluation of alternatives and analysis of impacts.

Curtis M. Flakes,

Chief, Planning and Environmental Division.

BILLING CODE 3720-58-P

DEPARTMENT OF DEFENSE

Department of the Navy

[Docket ID USN-2018-HQ-0007]

Proposed Collection; Comment Request

AGENCY: Department of the Navy, DoD.

ACTION: Information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the Department of the Navy announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by June 29, 2018.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: Department of Defense, Office of the Chief Management Officer, Directorate for Oversight and Compliance, 4800 Mark Center Drive, Mailbox #24 Suite 08D09, Alexandria, VA 22350-1700.

Instructions: All submissions received must include the agency name, docket number, and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Naval Sea Systems Command (SEA 05C), 1333 Isaac Hull Avenue SE, STOP 1340, Washington Navy Yard, Washington, DC 20376–1340, or call (202) 781–5069.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Facilities Available for the Construction or Repair of Ships; Standard Form 17; OMB Control Number 0703–0006.

Needs and Uses: This information collection is part of a joint effort between the Naval Sea Systems Command (NAVSEA) and the U.S. Maritime Administration (MARAD), to maintain a working data set on active U.S. Shipyards. The information collected is required by the Merchant Start Printed Page 68409 Marine Act of 1936 as amended and is critical in providing both organizations with a comprehensive list of U.S. commercial shipyards and their capabilities and capacities. These shipyards play a crucial role in national defense, the economy and the U.S. transportation infrastructure and as such, are of considerable interest to the U.S. Government. The data collected is used to assess the capabilities and capacities of U.S. commercial shipyards in the areas of ship repair and ship construction. The data is also used to monitor employment numbers for labor forecasting for future build projects as well as providing information on the ability to raise labor to meet national industrial mobilization requirements during times of national emergency. The data collected is the main source of information on these shipyards and is used to these ends.

Affected Public: Business or other for profit.

Annual Burden Hours: 800.

Number of Respondents: 200.

Responses per Respondent: 1.

Annual Responses: 200.

Average Burden per Response: 4 hours.

Frequency: Annual.

Respondents are businesses involved in shipbuilding and/or ship repair who provide NAVSEA and MARAD with information and a list of facilities available for the construction or repair of ships that is utilized in a database for assessing the production capacity of the individual shipyards.

Dated: April 24, 2018.

Shelly E. Finke,

Alternate OSD Federal Register, Liaison Officer, Department of Defense.

BILLING CODE P

DEPARTMENT OF DEFENSE

Department of the Navy

[Docket ID: USN–2018–HQ–0005]

Submission for OMB Review; Comment Request

AGENCY: Department of the Navy, DoD.

ACTION: 30-Day information collection notice.

SUMMARY: The Department of Defense has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by May 30, 2018.

ADDRESSES: Comments and recommendations on the proposed information collection should be emailed to Ms. Jasmeet Seehra, DoD Desk Officer, at oir_submission@omb.eop.gov. Please identify the proposed information collection by DoD Desk Officer, Docket ID number, and title of the information collection.

FOR FURTHER INFORMATION CONTACT: Fred Licari, 571–372–0493, or whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Personalized Recruiting for Immediate and Delayed Enlistment Modernization (PRIDE Mod); OMB Control Number 0703–0062.

Type of Request: Extension.

Number of Respondents: 60,000.

Responses per Respondent: 1.

Annual Responses: 60,000.

Average Burden per Response: 60 minutes.

Annual Burden Hours: 60,000.

Needs and Uses: The information collection requirement is necessary to support the U.S. Navy's process to recruit and access persons for naval service.

Affected Public: Individuals and Households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Ms. Jasmeet Seehra.

You may also submit comments and recommendations, identified by Docket ID number and title, by the following method:

• *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name, Docket ID number, and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

DOD Clearance Officer: Mr. Frederick Licari.

Requests for copies of the information collection proposal should be sent to Mr. Licari at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

Dated: April 24, 2018.

Shelly E. Finke,

Alternate OSD Federal Register, Liaison Officer, Department of Defense.
