

DEPARTMENT OF ENERGY

Federal Energy Regulatory
Commission

[Docket No. CP18–46–000]

Adelphia Gateway, LLC; Notice of
Intent to Prepare an Environmental
Assessment for the Proposed Adelphia
Gateway Project, Request for
Comments on Environmental Issues,
and Notice of Public Scoping Sessions

The staff of the Federal Energy
Regulatory Commission (FERC or
Commission) will prepare an
environmental assessment (EA) that will
discuss the environmental impacts of
the Adelphia Gateway Project involving
construction and operation of facilities
by Adelphia Gateway, LLC (Adelphia)
in Delaware, Bucks, Chester,
Montgomery, and Northampton
Counties, Pennsylvania, and New Castle
County, Delaware. The Commission will
use this EA in its decision-making
process to determine whether the
project is in the public convenience and
necessity.

This notice announces the opening of
the scoping process the Commission
will use to gather input from the public
and interested agencies on the project.
You can make a difference by providing
us with your specific comments or
concerns about the project. Your
comments should focus on the potential
environmental effects, reasonable
alternatives, and measures to avoid or
lessen environmental impacts. Your
input will help the Commission staff
determine what issues they need to
evaluate in the EA. To ensure that your
comments are timely and properly
recorded, please send your comments so
that the Commission receives them in

Washington, DC on or before 5:00 p.m.
Eastern Time on June 1, 2018.
If you sent comments on this project
to the Commission before the opening of
this docket on January 11, 2018, you
will need to file those comments in
Docket No. CP18–46–000 to ensure they
are considered as part of this
proceeding.

This notice is being sent to the
Commission’s current environmental
mailing list for this project. State and
local government representatives should
notify their constituents of this
proposed project and encourage them to
comment on their areas of concern.

If you are a landowner receiving this
notice, a pipeline company
representative may contact you about
the acquisition of an easement to
construct, operate, and maintain the
proposed facilities. The company would
seek to negotiate a mutually acceptable
agreement. However, if the Commission
approves the project, that approval
conveys with it the right of eminent
domain. Therefore, if easement
negotiations fail to produce an
agreement, the pipeline company could
initiate condemnation proceedings
where compensation would be
determined in accordance with state
law.

Adelphia provided landowners with a
fact sheet prepared by the FERC entitled
“An Interstate Natural Gas Facility On
My Land? What Do I Need To Know?”
This fact sheet addresses a number of
typically asked questions, including the
use of eminent domain and how to
participate in the Commission’s
proceedings. It is also available for
viewing on the FERC website
(www.ferc.gov).

Public Participation

For your convenience, there are four
methods you can use to submit your

comments to the Commission. The
Commission will provide equal
consideration to all comments received,
whether filed in written form or
provided verbally. The Commission
encourages electronic filing of
comments and has expert staff available
to assist you at (202) 502–8258 or
FercOnlineSupport@ferc.gov. Please
carefully follow these instructions so
that your comments are properly
recorded.

(1) You can file your comments
electronically using the *eComment*
feature on the Commission’s website
(www.ferc.gov) under the link to
Documents and Filings. This is an easy
method for submitting brief, text-only
comments on a project;

(2) You can file your comments
electronically by using the *eFiling*
feature on the Commission’s website
(www.ferc.gov) under the link to
Documents and Filings. With eFiling,
you can provide comments in a variety
of formats by attaching them as a file
with your submission. New eFiling
users must first create an account by
clicking on *eRegister*. If you are filing a
comment on a particular project, please
select “Comment on a Filing” as the
filing type;

(3) You can file a paper copy of your
comments by mailing them to the
following address. Be sure to reference
the project docket number (CP18–46–
000) with your submission: Kimberly D.
Bose, Secretary, Federal Energy
Regulatory Commission, 888 First Street
NE, Room 1A, Washington, DC 20426.

(4) In lieu of sending written or
electronic comments, the Commission
invites you to attend one of the public
scoping sessions its staff will conduct in
the project area, scheduled as follows:

Date and time	Location
Wednesday, May 30, 2018, 5:00–9:00 p.m	Homewood Suites by Hilton, Allentown Bethlehem Center Valley, 3350 Center Valley Parkway, Center Valley, PA 18034, (610) 351–6400.
Thursday, May 31, 2018, 5:00–9:00 p.m	Clarion Hotel Philadelphia Airport, 76 Industrial Highway, Route 291, Essington, PA 19029, (610) 521–9600.

The primary goal of these scoping
sessions is to have you identify the
specific environmental issues and
concerns that should be considered in
the EA to be prepared for this project.
Individual verbal comments will be
taken on a one-on-one basis with a court
reporter. This format is designed to
receive the maximum amount of verbal
comments, in a convenient way during
the timeframe allotted.

Each scoping session is scheduled
from 5:00 p.m. to 9:00 p.m. Eastern
Time. You may arrive at any time after
5:00 p.m. There will not be a formal
presentation by Commission staff when
the session opens. If you wish to speak,
the Commission staff will hand out
numbers in the order of your arrival.
Comments will be taken until 9:00 p.m.
However, if no additional numbers have
been handed out and all individuals
who wish to provide comments have

had an opportunity to do so, staff may
conclude the session at 8:00 p.m. Please
see appendix 1 for additional
information on the session format and
conduct.¹

¹ The appendices referenced in this notice will
not appear in the **Federal Register**. Copies of the
appendices were sent to all those receiving this
notice in the mail and are available at www.ferc.gov
using the link called “eLibrary” or from the
Commission’s Public Reference Room, 888 First
Street NE, Washington, DC 20426, or call (202) 502–
8371. For instructions on connecting to eLibrary,

Your scoping comments will be recorded by the court reporter (with FERC staff or representative present) and become part of the public record for this proceeding. Transcripts will be publicly available on FERC's eLibrary system (see below for instructions on using eLibrary). If a significant number of people are interested in providing verbal comments in the one-on-one settings, a time limit of 5 minutes may be implemented for each commenter.

It is important to note that verbal comments hold the same weight as written or electronically submitted comments. Although there will not be a formal presentation, Commission staff will be available throughout the comment session to answer your questions about the environmental review process.

Please note this is not your only public input opportunity; please refer to the review process flow chart in appendix 2.

Summary of the Proposed Project

Adelphia proposes to acquire and convert an existing oil pipeline and an existing dual-phase oil and natural gas pipeline to natural gas only, and construct and operate new natural gas pipelines, compressor stations, meter stations, and appurtenant facilities in Delaware, Bucks, Chester, Montgomery, and Northampton Counties, Pennsylvania, and New Castle County, Delaware. The Adelphia Gateway Project would provide about 175 million standard cubic feet of natural gas per day to the greater Philadelphia industrial region with potential to serve additional markets in the northeast.

Specifically, the Adelphia Gateway Project would consist of the construction of the following facilities:

- One new 5,625 horsepower (hp) compressor station in Delaware County, Pennsylvania (Marcus Hook Compressor Station);
- one new 5,625 hp compressor station in Bucks County, Pennsylvania (Quakertown Compressor Station);
- 0.25 mile of new 16-inch-diameter pipeline lateral in Delaware County, Pennsylvania and New Castle County, Delaware (Parkway Lateral);
- 4.5 miles of new 16-inch-diameter pipeline lateral in Delaware County, Pennsylvania (Tilghman Lateral);
- one new interconnect each in Montgomery County and Bucks County, Pennsylvania;

- three new interconnects in New Castle County, Delaware;
- three new interconnects in Delaware County, Pennsylvania;
- eight new blowdown assemblies (one in Delaware County, two in Montgomery County, and five in Chester County, Pennsylvania);
- one new mainline valve in Delaware County, Pennsylvania; and
- one temporary wareyard in Delaware County, Pennsylvania.

Additionally, the Adelphia Gateway Project would require the acquisition and use of the following existing facilities:

- 4.4 miles of existing 20-inch-diameter natural gas pipeline in Northampton County, Pennsylvania;
- 84 miles of existing 18-inch-diameter pipeline (the northern 34-mile segment was used to transport oil and natural gas, and the southern 50-mile segment was used to transport fuel oil); and
- four existing meter stations in Bucks, Delaware, and Northampton Counties, Pennsylvania.

The general location of the project facilities is shown in appendix 3.

Land Requirements for Construction

Construction of the proposed facilities would disturb about 42 acres of land for the proposed aboveground facilities and the pipelines. Following construction, Adelphia would maintain about 9 acres for permanent operation of the project's facilities; the remaining acreage would be restored and would revert to former uses. The majority of the proposed right-of-way for the pipelines are collocated with existing roads, power lines, and other pipeline rights-of-way.

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us² to discover and address concerns the public may have about proposals. This process is referred to as scoping. The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this notice, the Commission requests public comments on the scope of the issues to address in the EA. We will consider all filed comments during the preparation of the EA.

In the EA, we will discuss impacts that could occur as a result of the

construction and operation of the proposed project under these general headings:

- Geology and soils;
- water resources and wetlands;
- fisheries, vegetation, and wildlife;
- endangered and threatened species;
- cultural resources;
- socioeconomic;
- land use;
- air quality and noise;
- public safety; and
- cumulative impacts

We will also evaluate reasonable alternatives to the proposed project or portions of the project, and make recommendations on how to lessen or avoid impacts on the various resource areas.

The EA will present our independent analysis of the issues. The EA will be available in the public record through eLibrary. We will publish and distribute the EA to the public for an allotted comment period. We will consider all comments on the EA before making our recommendations to the Commission. To ensure we have the opportunity to consider and address your comments, please carefully follow the instructions in the Public Participation section, beginning on page 2.

With this notice, we are asking agencies with jurisdiction by law and/or special expertise with respect to the environmental issues of this project to formally cooperate with us in the preparation of the EA.³ Agencies that would like to request cooperating agency status should follow the instructions for filing comments provided under the Public Participation section of this notice.

Consultations Under Section 106 of the National Historic Preservation Act

In accordance with the Advisory Council on Historic Preservation's implementing regulations for section 106 of the National Historic Preservation Act, we are using this notice to initiate consultation with the applicable State Historic Preservation Offices (SHPO), and to solicit their views and those of other government agencies, interested Indian tribes, and the public on the project's potential effects on historic properties.⁴ We will

³ The Council on Environmental Quality regulations addressing cooperating agency responsibilities are at Title 40, Code of Federal Regulations, Part 1501.6.

⁴ The Advisory Council on Historic Preservation's regulations are at Title 36, Code of Federal Regulations, Part 800. Those regulations define historic properties as any prehistoric or historic district, site, building, structure, or object included in or eligible for inclusion in the National Register of Historic Places.

refer to the last page of this notice. Public Reference Room, 888 First Street NE, Washington, DC 20426, or call (202) 502-8371. For instructions on connecting to eLibrary, refer to the last page of this notice.

² We, us, and our refer to the environmental staff of the Commission's Office of Energy Projects.

define the project-specific Area of Potential Effects (APE) in consultation with the SHPOs as the project develops. On natural gas facility projects, the APE at a minimum encompasses all areas subject to ground disturbance (examples include construction right-of-way, contractor/pipe storage yards, compressor stations, and access roads). Our EA for this project will document our findings on the impacts on historic properties and summarize the status of consultations under section 106.

Environmental Mailing List

The environmental mailing list includes: Federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the project. We will update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed project.

Copies of the EA will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (appendix 4).

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an "intervenor" which is an official party to the Commission's proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are in the "Document-less Intervention Guide" under the "e-filing" link on the Commission's website. Motions to intervene are more fully described at <http://www.ferc.gov/resources/guides/how-to/intervene.asp>.

Additional Information

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website at www.ferc.gov using the eLibrary link. Click on the eLibrary link, click on General Search and enter the docket number, excluding the last three digits in the Docket Number field (*i.e.*, CP18-46). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Finally, public sessions or site visits will be posted on the Commission's calendar located at www.ferc.gov/EventCalendar/EventsList.aspx along with other related information.

Dated: May 1, 2018.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP18-118-000]

Rover Pipeline LLC; Notice of Intent To Prepare an Environmental Assessment for the Proposed UGS-Crawford Meter Station Project, and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the UGS-Crawford Meter Station Project involving construction and operation of facilities by Rover Pipeline LLC (Rover) in Jefferson County, Ohio. The Commission will use this EA in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. You can make a difference by providing us with your specific comments or concerns about the project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EA. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before 5:00 p.m. Eastern Time on May 31, 2018.

If you sent comments on this project to the Commission before the opening of this docket on March 15, 2018, you will need to file those comments in Docket No. CP18-118-000 to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this proposed project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

Rover provided landowners with a fact sheet prepared by the FERC entitled *An Interstate Natural Gas Facility On My Land? What Do I Need To Know?* This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is also available for viewing on the FERC website (www.ferc.gov).

Public Participation

For your convenience, there are three methods you can use to submit your comments to the Commission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or FercOnlineSupport@ferc.gov. Please
