In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). I. Background and Purpose

On February 12, 2018, the EPA published a proposed rulemaking in the **Federal Register** to update a portion of the OCS Air Regulations. See 83 FR 5971. As stated in the EPA's February 12, 2018 proposed rulemaking, requirements applying to OCS sources located within 25 miles of states' seaward boundaries must be updated periodically to remain consistent with the requirements of the COA, as mandated by section 328(a)(1) of the Clean Air Act. The portion of the OCS air regulations that is being updated in the proposed rulemaking pertains to the requirements for OCS sources for which Massachusetts is the designated COA. The intended effect of approving the OCS requirements for the Massachusetts Department of Environmental Protection (MassDEP) is to regulate emissions from OCS sources in accordance with the requirements for onshore sources. The Commonwealth of Massachusetts' requirements discussed in the EPA's proposed rulemaking will be incorporated by reference into the Code of Federal Regulations (CFR) and listed in the appendix to the OCS air regulations in 40 CFR part 55.

II. Why is the EPA reopening the comment period?

Among other things, the EPA's February 12, 2018 action proposed to incorporate into 40 CFR part 55 the applicable provisions of 310 Code of Massachusetts Regulations (CMR) 7.00: Air Pollution Control, as amended through January 16, 2018. On March 9, 2018, the MassDEP promulgated amendments to the regulations at 310 CMR 7.00. Pursuant to 40 CFR 55.12, consistency reviews will occur if the EPA finds that part 55 is inconsistent

with the requirements in effect in the COA. Therefore, the EPA is including the Commonwealth's March 9, 2018 amended regulations for 310 CMR 7.00 in the EPA's proposed consistency update to 40 CFR part 55 in addition to the other regulations EPA proposed for inclusion in the February 12, 2018 proposed rulemaking. The EPA has added the amended regulations at 310 CMR 7.00 to the docket and is reopening the comment period to give all interested persons the opportunity to comment on the incorporation by reference of the amended regulations at 310 CMR 7.00.¹ This document reopens the public comment period established in the **Federal Register** document on February 12, 2018 (83 FR 5971) (FRL–9974–28—Region 1).

To submit comments, or access the docket, please follow the detailed instructions provided in the **ADDRESSES** section of this **Federal Register**. Please refer to the EPA's February 12, 2018 (83 FR 5971) proposed rulemaking for more detailed information regarding this rulemaking action.

III. Incorporation by Reference

In the February 12, 2018 action, the EPA proposed to include in a final EPA rule regulatory text that includes incorporation by reference. The EPA is including the updated regulatory text below to reflect the March 9, 2018 effective date of the Commonwealth's amended regulations discussed in this document. In accordance with the requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference the Code of Massachusetts Regulations rules set forth below. The EPA has made, and will continue to make, these materials available through www.regulations.gov and at the EPA New England Region 1 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this document for more information).

Administrative practice and procedure,

¹ The EPA is required to submit a true copy of the regulations, attested by the Commonwealth of Massachusetts, to the Office of the Federal Register for incorporation by reference in the final rule. The EPA obtained a true copy of the amended regulations in effect as of March 9, 2018. The Commonwealth of Massachusetts State Bookstore bundles 310 CMR 6.00, 310 CMR 7.00, and 310 CMR 8.00 into a single package for the purpose of attesting a true copy. Although the regulations at 310 CMR 6.00 and 310 CMR 8.00 were not part of the March 9, 2018 amendments, the EPA has updated the effective date for 310 CMR 6.00–8.00 in the regulatory text proposed for incorporation by reference for consistency with the updated true copy of the regulations. The true copy of the regulations for 310 CMR 6.00–8.00 obtained by the EPA has been added to the docket for this action.

Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Outer continental shelf, Ozone, Particulate matter, Permits, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.
