

comments by mail or courier to the U.S. Department of Labor-OASAM, Office of the Chief Information Officer, Attn: Departmental Information Compliance Management Program, Room N1301, 200 Constitution Avenue NW, Washington, DC 20210; or by email: DOL_PRA_PUBLIC@dol.gov.

FOR FURTHER INFORMATION CONTACT:

Michel Smyth by telephone at 202-693-4129, TTY 202-693-8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Rehabilitation Action Report information collection. The contractor vocational rehabilitation counselor submits form OWCP-44 during an ongoing vocational rehabilitation. The form gives prompt notification of key events that may require OWCP action in the vocational rehabilitation process. For example, when a disabled worker returns to work, benefits are adjusted quickly to avoid an overpayment. The rehabilitation counselor from information in his or her records completes all items. The Federal Employees' Compensation Act sections 8104(a) and 8111(b) and the Longshore and Harbor Workers' Compensation Act sections 908(g) and 939(c) authorizes this information collection. See 5 U.S.C. 8104(a), 8111(b) and 33 U.S.C. 908(g), 939(c).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1240-0008.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice

published in the **Federal Register** on October 18, 2017 (82 FR 48533).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1240-0008. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL-OWCP.

Title of Collection: Rehabilitation Action Report.

OMB Control Number: 1240-0008.

Affected Public: Private Sector—businesses or other for-profits and not-for-profit institutions.

Total Estimated Number of Respondents: 4,066.

Total Estimated Number of Responses: 4,066.

Total Estimated Annual Time Burden: 678 hours.

Total Estimated Annual Other Costs Burden: \$0.

Authority: 44 U.S.C. 3507(a)(1)(D).

Seleda Perryman,

Assistant Departmental Clearance Officer.

BILLING CODE 4510-CR-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (17-092)]

Notice of Information Collection

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: All comments should be submitted within 60 calendar days from the date of this publication.

ADDRESSES: Interested persons are invited to submit written comments regarding the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 7th Street NW, Washington, DC 20543. Attention: Desk Officer for NASA.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Lori Parker, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546 or email Lori.Parker-1@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

NASA's founding legislation, the Space Act of 1958, as amended, directs the agency to expand human knowledge of Earth and space phenomena and to preserve the role of the United States as a leader in aeronautics, space science, and technology. The NASA Office of Education administers the agency's national education activities in support of the Space Act, including the performance measurement and evaluation of educational projects and programs. This generic clearance will allow the NASA Office of Education to continue to test and pilot with subject matter experts, secondary students, higher education students, educators, and interested parties new and existing information collection forms and assessment instruments for the purposes of improvement and establishing validity and reliability characteristics of the forms and instruments. Existing information collections include Undergraduate Internship Impact Surveys (Baseline and Follow-up Instruments), Undergraduate Internship Impact Surveys (Retrospective and Traditional Developed Instruments), STEM Challenges Impact Surveys (Student Baseline and Follow-up Instruments), STEM Challenges Impact Surveys (Educator Retrospective Instruments), One Stop Shopping Initiative (OSSI) Student-level data application, and Office of Education

Performance Measurement (OEPM) Program-level data system. Forms and instruments to be tested include program application forms, customer satisfaction questionnaires, focus group protocols, and project activity survey instruments. Methodological testing will include focus group discussions, pilot surveys to test new individual question items as well as the complete form and instrument. In addition, test-retest and similar protocols will be used to determine reliability characteristics of the forms and instruments. Methodological testing will assure that forms and instruments accurately and consistently collect and measure what they are intended to measure and that data collection items are interpreted precisely and consistently, all towards the goal of accurate Agency reporting while improving the execution of NASA Education project activities.

II. Method of Collection

Electronic, paper, and focus group interviews.

III. Data

Title: Generic Clearance for the NASA Office of Education Performance Measurement and Evaluation (Testing).

OMB Number: 2700–0159.

Type of Review: Extension of a currently approved collection.

Affected Public: Individuals and Households.

Estimated Number of Respondents: 10,756.

Estimated Time per Response: Variable.

Estimated Total Annual Burden Hours: 4,487 hours.

Estimated Total Annual Cost: \$50,913.23.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection.

They will also become a matter of public record.

Lori Parker,

NASA PRA Clearance Officer.

SUPPLEMENTARY INFORMATION:

I. Abstract

NASA's founding legislation, the Space Act of 1958, as amended, directs the agency to expand human knowledge of Earth and space phenomena and to preserve the role of the United States as a leader in aeronautics, space science, and technology. The NASA Office of Education has three primary goals: (1) Strengthen NASA and the Nation's future workforce, (2) attract and retain students in science, technology, engineering and mathematics, or STEM, disciplines, and (3) engage Americans in NASA's mission. This notice informs the public of NASA's intent to review and revise the currently approved information collection for STEM

Challenge project activities. The request for emergency renewal pertains to the administration of surveys to youth in support of the agency's STEM challenge activities for youth. The information collection was previously revised to collect the minimum amount of data required to (1) evaluate the activity for improvement opportunities, and (2) collect outcome data to assess the activity model's effectiveness in meeting its intended objectives. The number of youth participating in this information collection were previously reduced to reflect the estimated number of participants who will be engaged in this activity in the future. The cost of the information collection, to participating members of the public, reflects a previous reduction as a result of the changes to the information collection described above.

II. Method of Collection

Electronic.

III. Data

Title: NASA Office of Education STEM Challenges.

OMB Number: 2700–0150.

Type of Review: Emergency 6 month extension of a currently approved collection.

Affected Public: Individuals.

Estimated Number of Respondents: 1,620.

Estimated Time per Response: 6 minutes.

Estimated Total Annual Burden Hours: 162 hours.

Estimated Total Annual Cost: \$1,175.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Lori Parker,

NASA PRA Clearance Officer.
