

10, 1974, as a bequest from the Ruth Herrick Estate (Collection T-420 (B24)). No known individual was identified. No associated funerary objects are present.

The age of the human remains cannot be determined. Museum records indicate the human remains were originally bought from a dealer with the understanding that they were from an archeological excavation conducted prior to 1965. Prehistoric objects were also part of the Herrick bequest, but the association between the artifacts and these human remains is not established. A determination of Osage cultural affiliation is based on museum records, consultation, geographic location, and archeological information.

Determinations Made by the Grand Rapids Public Museum

Officials of the Grand Rapids Public Museum have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of two individuals of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and The Osage Nation (previously listed as the Osage Tribe).

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to Andrea Melvin, Grand Rapids Public Museum, 272 Pearl Street NW, Grand Rapids, MI 49506, telephone (616) 929-1700, email amelvin@grpm.org, by March 1, 2018. After that date, if no additional requestors have come forward, transfer of control of the human remains to the Osage Nation (previously listed as the Osage Tribe) may proceed.

The Grand Rapids Public Museum is responsible for notifying the Osage Nation (previously listed as the Osage Tribe) that this notice has been published.

This notice corrects the number of associated funerary objects published in a Notice of Inventory Completion in the **Federal Register** (82 FR 44460-44461, September 22, 2017). During preparation of a receipt for repatriation, it was determined that cataloging errors had been made in compiling the original inventory, largely due to objects with duplicative catalog numbers, objects with no catalog numbers, and discrepancies between catalog cards and objects. Transfer of control of the items in this correction notice has not occurred.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on October 25, 2017 (82 FR 49418). No comments were received.

We are again soliciting comments on the proposed ICR that is described below. Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.*, and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to prescribe rules and regulations to manage the mineral resources of the OCS. Such rules and regulations apply to all operations conducted under a lease, right-of-use and easement, and pipeline right-of-way.

Section 1334(a)(8) requires that regulations prescribed by the Secretary include provisions “for compliance

with the national ambient air quality standards pursuant to the Clean Air Act (42 U.S.C. 7401 *et seq.*), to the extent that activities authorized under this subchapter significantly affect the air quality of any State.” This information collection renewal concerns information that is submitted in response to regulatory requirements, such as the regulations at 30 CFR part 550, subpart C, Pollution Prevention and Control that implement section 1334(a)(8). It also covers the related Notices to Lessees and Operators (NTLs) that BOEM issues to clarify and provide additional guidance on some aspects of these regulations. BOEM uses the information to inform its decisions on plan approval, to ensure operations are conducted according to all applicable regulations and plan conditions of approval, and to inform State and regional planning organizations modeling efforts.

Title of Collection: 30 CFR 550, subpart C, Pollution Prevention and Control.

OMB Control Number: 1010-0057.

Form Number: None.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public:

Potential respondents comprise Federal OCS oil, gas, and sulphur lessees and states.

Total Estimated Number of Annual Responses: 2,394 responses.

Total Estimated Number of Annual Burden Hours: 105,028 hours.

Respondent's Obligation: Mandatory, and voluntary.

Frequency of Collection: On occasion, monthly, or annually.

Total Estimated Annual Nonhour Burden Cost: None.

Estimated Reporting and Recordkeeping Hour Burden: We expect the burden estimate for the renewal will be 105,028 hours, which reflects a decrease of 7,083 hours. In calculating the burdens, the burden hours decreased from the previous OMB request, because the number of facilities decreased as reported by the Gulfwide Offshore Activity Data System. We also removed from the burden breakdown table the requirement of submitting copy of State-required Emergency Action Plan for the Pacific OCS Region. This information is not collected by BOEM, because it falls under the jurisdiction of the Bureau of Safety and Environmental Enforcement.

The following table details the individual BOEM components and respective hour burden estimates of this ICR. We assumed that the respondents perform certain activities in the normal course of their business that also satisfy certain requirements under subpart C.
